This section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order of rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*, an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

he agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety-(90-) day period during which an agency shall file its Order of Rulemaking for publication in the Missouri Register begins either: 1) after the hearing on the Proposed Rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

# Title 3—DEPARTMENT OF CONSERVATION Division 10—Conservation Commission Chapter 7—Wildlife Code: Hunting: Seasons, Methods, Limits

#### ORDER OF RULEMAKING

By authority vested in the Conservation Commission under sections 40 and 45 of Art. IV, Mo. Const., the commission amends a rule as follows:

3 CSR 10-7.433 is amended.

This rule establishes the firearms deer hunting season, limits, and provisions for hunting and is exempted by section 536.021, RSMo, from the requirements for filing as a proposed amendment.

The Department of Conservation amended 3 CSR 10-7.433 by establishing firearms deer hunting seasons.

#### 3 CSR 10-7.433 Deer: Firearms Hunting Seasons

- (1) The firearms deer hunting season is comprised of six (6) portions.
- (A) Urban zones portion: October 11 through 14, 2013; use any legal deer hunting method to take antlerless deer in open zones.
- (B) Youth portions: November 2 and 3, 2013, and January 4 and 5, 2014; for persons at least six (6) but not older than fifteen (15) years of age; use any legal deer hunting method to take one (1) deer statewide during the November 2 and 3, 2013, portion; use any legal deer hunting method to take deer statewide during the January 4 and 5, 2014, portion.
- (C) November portion: November 16 through 26, 2013; use any legal deer hunting method to take deer statewide.

- (D) Alternative methods portion: December 21 through 31, 2013; use muzzleloader and archery methods, crossbows, atlatl, handguns, and air-powered guns as defined in 3 CSR 10-7.431 to take deer statewide.
- (E) Antlerless portion: November 27 through December 8, 2013; use any legal deer hunting method to take antlerless deer in open counties.

SUMMARY OF PUBLIC COMMENTS: Seasons and limits are exempted from the requirement of filing as a proposed amendment under section 536.021, RSMo.

This amendment was filed May 31, 2013, and becomes effective **July 1, 2013**.

#### Title 20—DEPARTMENT OF INSURANCE, FINANCIAL INSTITUTIONS AND PROFESSIONAL REGISTRATION

Division 2220—State Board of Pharmacy Chapter 2—General Rules

#### ORDER OF RULEMAKING

By the authority vested in the Missouri Board of Pharmacy under sections 338.095, 338.100, 338.140, and 338.240, RSMo Supp. 2012, and section 338.280, RSMo 2000, the Board of Pharmacy adopts a rule as follows:

#### 20 CSR 2220-2.017 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on February 15, 2013 (38 MoReg 315–316). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Nine (9) comments were received on the proposed rule, as summarized below.

COMMENT #1: Express Scripts, Incorporated (ESI) suggested amending the proposed rule by moving the current reference to refills in subsection (1)(I) to subsection (1)(A). The commenter also suggested changing the phrase "the date of refill, if any" to "any subsequent refills."

RESPONSE: The proposed change would combine requirements for original prescription documentation and refill prescription documentation in one (1) subsection. For purposes of clarity and distinction, the board elected to retain subsection (1)(A) without change.

COMMENT #2: ESI proposed deleting the reference to "a unique readily retrievable identifier" throughout the rule. Although it is unclear, ESI suggested the "unique readily retrievable identifier" would only apply to electronic records and should not be included in the current manual records proposal.

RESPONSE: In the past, the board has received questions regarding the use of prescription identifiers that are not solely numeric (i.e., an identifier that includes both numbers and letters such as Rx # A1000). The board attempted to authorize this practice in the proposed rule as long as the identifier is unique to the specific patient and readily retrievable. The board does not find grounds for prohibiting a "unique

readily retrievable identifier" for manual records. Additionally, such a restriction may constitute a substantive change that requires additional public comment under Chapter 536, RSMo. As such, no changes have been made.

COMMENT #3: ESI requested to amend subsection (1)(A) to change language that requires documentation of "the date the prescription was prescribed" to "the date the prescription was issued." RESPONSE: The distinction between the date "prescribed" and the date "issued" is unclear. Additional public discussion and comment may be warranted to determine if "issued" is ambiguous or requires further definition. To ensure compliance with Chapter 536, RSMo, no changes have been made to the proposed rule at this time.

COMMENT #4: ESI requested to amend subsection (1)(E) by adding the requirement that non-manual prescription records include "a written or electronically generated signature" for the prescriber. ESI further proposed requiring that non-manual prescription records include "the prescriber's name as written by the pharmacist taking the prescription" for oral prescriptions.

RESPONSE AND EXPLANATION OF CHANGE: The suggested comments appear to relate to signature requirements for the actual prescription which are beyond the scope of the current proposal. Prescription requirements are addressed in 20 CSR 2220-2.018 which has been simultaneously filed for amendment. The suggested changes will be addressed in the board's response to similar comments received on 20 CSR 2220-2.018. However, the final rule has been amended to clarify that electronic signatures must comply with other applicable provisions of Missouri law.

COMMENT #5: After further review, the board noted the proposed manual rule was not consistent with the proposed rule for electronic records which would require that a pharmacist document the method and source of refill authorizations.

RESPONSE AND EXPLANATION OF CHANGE: The board has amended the proposed rule to be consistent with the electronic records rule requirements which are being simultaneously amended by the board. Notably, the original proposed rule required documentation of any change or alteration to the prescription, including, a change in the number of refills. The amended language included in the final rule would clarify the current refill documentation requirements.

COMMENT #6: The board received a comment requesting that the board change the term "dosage form" in subsection (1)(F) to "dosage." The term "dosage" is currently used in other rules of the board.

RESPONSE AND EXPLANATION OF CHANGE: The board agrees with the comment and has amended the final rule as requested.

COMMENT #7: A comment was received recommending that the board amend subsection (1)(J) to only require documentation of the pharmacist verifying prescription data on original prescriptions. The commenter indicated documenting the verification pharmacist on refills is redundant and unnecessary since prescription data is not changed or reentered on a prescription refill.

RESPONSE AND EXPLANATION OF CHANGE: The rule has been amended as requested.

COMMENT #8: A comment was received suggesting the board amend subsection (1)(K) to clarify that final product verification is required for both original and refill prescriptions.

RESPONSE AND EXPLANATION OF CHANGE: The rule has been amended as requested.

COMMENT #9: Subsection (1)(M) of the proposed rule required licensees "to document any change or alteration to the prescription based on contact with the prescriber" including a change in "the number of refills." A comment was received suggesting the board

add another subsection that specifically addresses the required refill documentation. The commenter also suggested that the board clarify that adding refills does not affect or change the prescription's expiration date. The commenter indicated the change would be consistent with the board's proposed amendment to 20 CSR 2220-2.080 which was simultaneously filed by the board.

RESPONSE AND EXPLANATION OF CHANGE: The rule has been amended as requested by adding subsection (1)(P). Notably, the proposed change would clarify and separately distinguish the requirements of the originally filed section (1)(M). In regards to the expiration date, the proposed change does not change or impose any new requirement. Prescription expiration dates are otherwise established by law (see section 195.060, RSMo). The change would clarify that adding refills does not affect the prescription's original expiration date as otherwise established by law.

#### 20 CSR 2220-2.017 Non-Electronic (Manual) Prescription Records

PURPOSE: This rule establishes requirements for non-electronic (manual) prescription record keeping.

- (1) Pharmacies that maintain a non-electronic prescription record system shall maintain the following information in its system for each original and refilled prescription:
- (E) The prescriber's name, if an oral prescription, signature if a written or faxed prescription. Electronic signatures shall comply with all applicable provisions of 20 CSR 2220-2.085;
- (F) Name, strength and dosage of drug, device or poison dispensed and the directions for use;
- (J) The identity of the pharmacist responsible for reviewing the accuracy of data on each original prescription;
- (K) The identity of the pharmacist responsible for verifying the final product prior to dispensing on each original and refill prescription, if different;
- (P) If additional refills are authorized and added to the prescription, a notation indicating the method and source of the authorization must be a part of the manual record or hard copy, in such case the expiration date of the original prescription shall remain the same; and
- (Q) Any prescription, when it is for a controlled substance, must comply with all requirements of federal and state controlled substance laws.

Division 2220—State Board of Pharmacy Chapter 2—General Rules

#### ORDER OF RULEMAKING

By the authority vested in the Missouri Board of Pharmacy under sections 338.095, 338.100, 338.140, and 338.240, RSMo Supp. 2012, and section 338.280, RSMo 2000, the board amends a rule as follows:

#### 20 CSR 2220-2.018 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on February 15, 2013 (38 MoReg 316). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Four (4) comments were received on the proposed amendment, as summarized below.

COMMENT #1: Express Scripts, Incorporated (ESI) requested to amend subsection (1)(A) to change language that requires documentation of "the date of prescribing" to "the date of issuance."

RESPONSE: The distinction between "the date of prescribing" and "the date of issuance" is unclear. Additional public discussion and comment may be warranted to determine if the suggested change would create ambiguity or require further definition. To ensure compliance with Chapter 536, RSMo, no changes have been made to the rule at this time.

COMMENT #2: ESI requested to amend subsection (1)(C) to include allowances for an electronically generated signature and to include a reference to "computer generated" prescriptions.

RESPONSE AND EXPLANATION OF CHANGE: A reference to electronically generated signatures has been included in the proposed rule as suggested. In lieu of "computer generated," the board referenced "electronically" generated prescriptions to be consistent with other board rules.

COMMENT #3: The board received a comment requesting that the board change the term "dosage form" in subsection (1)(D) to "dosage."

RESPONSE AND EXPLANATION OF CHANGE: The board agrees with the comment and has amended the rule as requested.

COMMENT #4: ESI requested to amend subsection (1)(D) to include additional language on determining the "dosage form" required by the proposed amendment.

RESPONSE: The term "dosage form" referenced by ESI has been removed from the rule in response to Comment # 3. Accordingly, no additional changes have been made in response to the comment.

#### 20 CSR 2220-2.018 Prescription Requirements

- (1) To be valid for purposes of dispensing, a prescription shall conform to all requirements of sections 338.056 or 338.196, RSMo, and shall contain the following information:
- (C) The prescriber's name, if an oral prescription, or written or electronic signature if a written, faxed, or an electronically transmitted prescription. Electronic signatures shall comply with all applicable provisions of 20 CSR 2220-2.085;
- (D) Name, strength and dosage of drug, device or poison prescribed and the directions for use;

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on February 15, 2013 (38 MoReg 318-319). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Ten (10) comments were received on the proposed amendment, as summarized below.

COMMENT #1: Express Scripts, Incorporated (ESI) requested to amend section (1) by deleting the reference to drugs sold "at retail" and to instead reference pharmacies generally. The commenter also suggested clarifying that a pharmacist is responsible for the accuracy of information "entered into the EDP."

RESPONSE AND EXPLANATION OF CHANGE: The proposed changes are consistent with the intent of the proposed amendment and the board's current interpretation of the rule. Section (1) has been amended as requested.

COMMENT #2: ESI requested to amend subsection (2)(C) to change language that requires documentation of "the date the prescription was prescribed" to "the date the prescription was issued."

RESPONSE: The distinction between the date "prescribed" and the date "issued" is unclear. Additional public discussion and comment may be warranted to determine if "issued" would create ambiguity or require further definition. To ensure compliance with Chapter 536, RSMo, no changes have been made to the proposed amendment at this time.

COMMENT #3: ESI requested to amend subsection (2)(L) to delete the requirement that pharmacies document the pharmacist responsible for inputting prescription data. Instead, the commenter suggested only requiring documentation of the pharmacist responsible for verifying the data.

RESPONSE AND EXPLANATION OF CHANGE: The rule has been amended as suggested.

COMMENT #4: The board received a comment requesting that the board change the term "dosage form" in subsection (2)(I) to "dosage." The term "dosage" is currently used in other rules of the board

RESPONSE AND EXPLANATION OF CHANGE: The board agrees with the comment and has amended the final rule as requested.

COMMENT #5: ESI requested to amend subsection (2)(L) to only require documentation of the pharmacist who verifies prescription data "prior to dispensing." A comment was also received recommending that the board amend subsection (2)(L) to only require doc-

umentation of the pharmacist verifying prescription data on original prescriptions. The commenter indicated documenting the verification pharmacist on refills is redundant and unnecessary since prescription data is not changed or reentered on a prescription refill.

RESPONSE AND EXPLANATION OF CHANGE: The rule has been amended as requested.

COMMENT #6: ESI suggested amending subsection (2)(M) to only require documentation of the pharmacist responsible for reviewing the final product if different from the pharmacist verifying prescription data. A comment was also received suggesting the board amend subsection (2)(M) to clarify that final product verification is required for both original and refill prescriptions.

RESPONSE AND EXPLANATION OF CHANGE: The rule has been amended as requested.

COMMENT #7: The National Association of Chain Drug Stores (NACDS) requested to delete subsection (2)(P) and the requirement that pharmacies document the manner in which the prescription was received by the pharmacy.

RESPONSE: Documentation of the manner of receipt will assist the board in investigating pharmacy compliance with applicable state/federal law. Additionally, documentation of the manner of receipt may otherwise be required under federal reimbursement guidelines for applicable Part D Medicare reimbursement. No changes have been made in response to the comment.

COMMENT #8: NACDS suggested amending section (4) to delete the requirement that pharmacies maintain a hard copy representation of electronically transmitted prescriptions as long as a hard copy of the electronic data transmission can be produced on request of the board or its agent.

RESPONSE: After legal review, it appears the suggested change may conflict with section 338.100, RSMo. Accordingly, no changes have been made in response to the comment. However, the board will explore potential options to address the concern raised.

COMMENT #9: ESI suggested amending section (6) to delete the requirement that pharmacies using an electronic data processing record keeping system (EDP) maintain the currently required pharmacist logbook or file. Alternatively, ESI requested an exception for pharmacies that electronically track access to its EDP system.

RESPONSE AND EXPLANATION OF CHANGE: The rule has been amended to delete section (6) which referred to the pharmacist logbook requirement. Subsequent sections will be renumbered. However, to ensure pharmacist review of prescription data, section (1) of the rule has been amended to provide a pharmacist must verify the accuracy of prescription data on each original prescription. This requirement is currently incorporated in section (6) and does not constitute a substantive change or a new requirement. Additionally, the rule was amended to clarify the applicability of controlled substance record keeping requirements.

COMMENT #10: ESI suggested amending section (8) to be consistent with the one (1) hour documentation record retrieval timelines contained in proposed rule 20 CSR 2220-2.083. Additionally, ESI suggested extending the retrieval timeframes to accommodate larger requests or requests that may require additional information technology support.

RESPONSE AND EXPLANATION OF CHANGE: The board amended the proposed amendment to retain a two (2) hour production timeframe. In regards to extending the production deadline for larger or more complex requests, it should be noted the rule would allow pharmacies to make a computer terminal available to the inspector in lieu of physically producing records. Further, inspectors have observed the majority of licensees are currently able to meet the proposed two (2) hour deadline or otherwise satisfy the rule's requirements. As a result, no additional changes have been incorporated.

#### 20 CSR 2220-2.080 Electronic Prescription Records

- (1) In lieu of a non-electronic (manual) record-keeping system, a pharmacy may elect to maintain an electronic data processing (EDP) record-keeping system. All information concerning the compounding, dispensing, or selling by a pharmacy of any drug, device, or poison pursuant to a lawful prescription which is entered into an EDP system at any pharmacy shall be entered only by a licensed pharmacist or by a technician or intern pharmacist under the direct supervision and review of a licensed pharmacist. Prior to dispensing, a pharmacist shall personally verify the accuracy of prescription data entered into the EDP for each original prescription. The EDP system shall comply with all applicable state and federal controlled substance laws and regulations.
- (2) EDP systems shall comply with the requirements of section 338.100, RSMo, and shall be capable of storing and retrieving the following information concerning the original filling or refilling of any prescription:
- (I) Name, strength and dosage of drug, device or poison dispensed and any directions for use;
- (L) Identity of the pharmacist responsible for verifying the accuracy of prescription data prior to dispensing on each original prescription;
- (M) Identity of the pharmacist responsible for reviewing the final product prior to dispensing on each original and refill prescription, if different from the pharmacist verifying prescription data;
- (6) Any hospital pharmacy using an EDP system licensed by the board, as described in section (1), for outpatient prescriptions, employee prescriptions, and take-home prescriptions shall conform to all sections of this rule.
- (7) Any EDP system must be capable of producing the record required by this rule and said records shall be readily retrievable online. Readily retrievable is defined as providing EDP records immediately or within two (2) hours of a request by an inspector or by making a computer terminal available to the inspector for immediate use.
- (8) An auxiliary record-keeping system shall be established for the documentation of refills if the EDP system is inoperative for any reason. The auxiliary system shall ensure that all refills are authorized by the original prescription or prescriber. When this EDP system is restored to operation, the information regarding prescriptions filled and refilled during the inoperative period shall be entered into the EDP system within seven (7) working days. However, nothing in this section shall preclude the pharmacist from using his/her professional judgment for the benefit of a patient's health and safety.
- (9) If a prescription is transferred from a pharmacy using an EDP system, a notation or deactivation must be made on the transferred record to preclude any further dispensing. If the same prescription is transferred back into the original pharmacy, it shall be treated as a new record, showing the original date written and expiration date.
- (10) Prior to or simultaneously with the purging of any EDP system, the permit holder shall make certain that a record of all prescription activity being erased exists in readable form, either on paper, microfiche, or electronic media storage. A pharmacy that desires to discard hard copy prescriptions that are more than three (3) years old must maintain all prescription information on microfiche or electronic media. Any process utilizing microfiche must ensure that all data is available and in readable form. Any pharmacy opting for the utilization of microfiche records must also maintain a microfiche reader so that records may be reviewed on-site by pharmacy personnel or board inspectors. Electronic media storage is defined as any medium such as a computer, floppy disk or diskette, compact disk (CD), or other electronic device that can reproduce all prescription information as required by section 338.100, RSMo, and this rule and is retrievable

within three (3) working days.

- (11) If coded information exists in the electronic EDP, the board inspector may request the definitions of the codes from the pharmacist on duty for immediate review.
- (12) The EDP system shall be able to provide a listing of drug utilization for any drug for a minimum of the preceding twenty-four-(24-) month period. Drug utilization information shall be available by date(s), specific drug product, patient name, or practitioner. If requested to do so, the pharmacy shall have three (3) working days to provide the report.
- (13) The provisions of this rule shall not conflict with any federal laws or regulations. If any part of this rule is declared invalid by a court of law, that declaration shall not affect the other parts of the rule.
- (14) Licensees shall also comply with all state and federal controlled substance record keeping requirements, including, any required daily log books or printouts.

#### Title 20—DEPARTMENT OF INSURANCE, FINANCIAL INSTITUTIONS AND PROFESSIONAL REGISTRATION

Division 2220—State Board of Pharmacy Chapter 2—General Rules

#### ORDER OF RULEMAKING

By the authority vested in the Missouri Board of Pharmacy under sections 338.100, 338.140, and 338.240, RSMo Supp. 2012, the board adopts a rule as follows:

# 20 CSR 2220-2.083 Electronic Record-Keeping Systems is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on February 15, 2013 (38 MoReg 319–320). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Four (4) comments were received on the proposed rule, as summarized below.

COMMENT #1: Express Scripts, Incorporated (ESI) requested to amend section (3) by referencing "individual digitized prescription images" in lieu of the current "digitized prescription images."

RESPONSE: The distinction between "individual digitized prescription images" and "digitized prescription images" is unclear. However, the term "digitized prescription images" more closely mirrors the statutory language utilized in section 338.100, RSMo. Accordingly, no changes have been made in response to the comment.

COMMENT #2: The National Association of Chain Drug Stores (NACDS) requested to amend section (3) of the rule to allow licensees to stamp or hand-write the required "Copy Only-Not Valid for Dispensing Purposes" statement on prescriptions until June 1, 2014

RESPONSE: The proposed rule provides the statement in question must be "conspicuously marked" on the prescription copy and does not reference or require any specific mode/mechanism of writing. The board included the broad language to give licensees the option suggested by NACDS and to allow hand-written, stamped, or otherwise incorporated statements. As a result, no changes have been made in response to the comment received.

COMMENT #3: ESI suggested modifying the record production requirement to two (2) hours of a "reasonable request during the normal business hours of the pharmacy." ESI also proposed allowing an additional "reasonable response time beyond two hours" if the request "requires pulling more than one record or requires additional support."

RESPONSE: The board is the statutory entity vested with authority to inspect licensees and investigate complaints relating to the practice of pharmacy. The term "reasonable request" is ambiguous, undefined, and could lead to unnecessary delays and legal challenges. In regards to extending the records production deadline, it should be noted the rule would allow pharmacies to make a computer terminal available to the inspector in lieu of physically producing records. Moreover, board inspectors have indicated the majority of licensees are currently able to produce records within the proposed two (2) hour deadline or otherwise satisfy the rule's requirements. As a result, no additional changes have been incorporated.

COMMENT #4: ESI and NACDS requested that the board change the proposed required annual policy and procedure review. NACDS requested a biennial review while ESI asked that the review be part of the pharmacy's ongoing practice of reviewing policies and procedures.

RESPONSE: During inspections, the board consistently encounters old, outdated, or missing policy and procedure manuals. To ensure appropriate review, the board believes an annual review is appropriate. Notably, the rule relates to electronic record-keeping systems. An annual review appears particularly suitable given the constantly evolving nature of technology. Accordingly, no changes have been made in response to the comment.
