

**T**his section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order of rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

**T**he agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety-(90-) day period during which an agency shall file its Order of Rulemaking for publication in the *Missouri Register* begins either: 1) after the hearing on the Proposed Rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

**SUMMARY OF COMMENTS:** The Missouri Department of Natural Resources' Air Pollution Control Program received four (4) comments from one (1) source: the Boeing Company.

**COMMENT #1:** The Boeing Company commented in support of the proposed revisions referencing federal Air Quality Index levels, placing general provisions language into tables and clarifying that updated alert plans shall be provided when necessitated by changes to operations.

**RESPONSE:** The department's Air Pollution Control Program appreciates support for these proposed rule changes intended to enhance accuracy and clarity. No changes have been made to the rule text as a result of this comment.

**COMMENT #2:** The Boeing Company requested the addition of facility emission thresholds to the rule to set a minimum, below which a facility would not be subject to a request to file an alert plan. The threshold would streamline operating permits so facilities below the threshold would not have this rule as an applicable requirement in their operating permits. Since the activation of purple alert and maroon emergency alert plans is unlikely, the requests for alert plans should be limited to facilities that could significantly benefit air quality through curtailment of certain activities.

**RESPONSE:** The department's Air Pollution Control Program acknowledges the benefits of adding emission thresholds and will consider making this change the next time the rule is open for amendment. Since the current rule language closely follows U.S. Environmental Protection Agency (EPA) example rule language, the Air Program would need to work with EPA to ensure that the addition of emissions thresholds would not conflict with federal requirements. While this change would streamline operating permits by relieving some sources of the burden of submitting an emergency alert emissions reduction plan upon request, all sources would remain subject to actions deemed necessary by the director and/or commission in order to alleviate or lessen the effects of any emergency condition. No changes have been made to the rule text at this time as a result of this comment.

**COMMENT #3:** The Boeing Company requested a mechanism for rescission of an alert plan when the plan becomes outdated or inaccurate due to changes in operations. An example would be if a facility drastically reduced emissions since the original submission of their plan, it would be of little benefit for the director to require implementation of this alert plan, especially when there are other methods not included in the plan that would be a more effective contribution to remediation of the emergency air pollution episode.

**RESPONSE AND EXPLANATION OF CHANGE:** As a result of this comment, an adjustment was made to section (4) of the rule for requesting rescissions of facility alert plans when changes to operations necessitate.

**COMMENT #4:** The Boeing Company commented that this rule is a candidate for the statutorily required rule review for the following reasons: 1) elements of this rule and the EPA's example regulation on which the rule is based are archaic and do not reflect equipment or practices that exist today; 2) it would be useful to better define the term — affected area—, which appears throughout the rule; and 3) the federal rule allows this rule to be limited to nonattainment area boundaries, but the rule applies statewide.

**RESPONSE:** The Missouri Department of Natural Resources is required by 536.175, RSMo to review all department rules (Title 10 in the Code of State Regulations), including this rule, beginning July 1, 2016. Revisions to this rule may be proposed in the future as a result of the rule review process. Regarding archaic elements of this rule, the Air Pollution Control Program acknowledges that some of the methods to meet emission reduction objectives in this rule may be outdated. However, the emission reduction objectives in the rule are based on and consistent with the federal example regulation. The

language in the proposed rulemaking clarifies that if the listed objectives are not applicable methods, the alert plan shall instead include other applicable methods to achieve equivalent emission reductions in the event of a purple alert or a maroon emergency alert. With regard to the term — affected area —, the Missouri Air Conservation Commission (MACC) or director is required by 643.090, RSMo to protect the public's health, safety, and welfare from emergency risk levels of air contaminant buildup in any portion of the state making the use of discretion necessary. Discretion is needed when determining specific portions of the state needing to be included in the affected area to assure it is protective of the public, which makes it impossible to define an affected area accurately in the rule. This same statutory requirement also makes the retention of statewide applicability necessary. Retaining statewide applicability allows the MACC or director discretion to address an air pollution purple alert or maroon emergency alert appropriately in order to protect public health, safety, or welfare of citizens across the entire state. It may be necessary to take mitigation measures in an attainment area to address a high air pollution episode occurring within the boundaries of a nonattainment area. Since these alert levels have not occurred to date, it is impossible to anticipate exact mitigation measures that will be necessary to remedy any given situation. No changes have been made to the rule text as a result of this comment.

#### **10 CSR 10-6.130 Controlling Emissions During Episodes of High Air Pollution Potential**

(4) Reporting and Record Keeping. Facilities that are sources of air contaminant emissions and required to file alert plans per Table C of this rule shall file purple and maroon alert plans with the director within sixty (60) days of the director's request. Alert plans shall—

- (A) Address the objectives provided in Tables D, E, and F; and
- (B) Include the planning necessary for implementation.

Updates to alert plans, including requests for rescissions, shall be provided when changes to operations necessitate.

### **Title 11—DEPARTMENT OF PUBLIC SAFETY Division 45—Missouri Gaming Commission Chapter 9—Internal Control System**

#### **ORDER OF RULEMAKING**

By the authority vested in the Missouri Gaming Commission (MGC) under section 313.805, RSMo Supp. 2013, the commission amends a rule as follows:

#### **11 CSR 45-9.106 Minimum Internal Control Standards (MICS)— Chapter F is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 3, 2013 (38 MoReg 828). No changes have been made to the Minimum Internal Control Standards (MICS) as incorporated by reference in Chapter F. No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

**SUMMARY OF COMMENTS:** A public hearing was held on this proposed amendment on July 10, 2013. No one commented at the public hearing. Mike Winter, Executive Director of the Missouri Gaming Association submitted a written comment expressing support for the removal of F §1.03 to allow patrons the ability to use electronic gaming devices as allowed in other gaming jurisdictions.

**RESPONSE:** The commission recognizes the removal of this section places the options for the use of electronic devices with the licensees. No changes have been made to this rule as a result of this comment.

**Title 11—DEPARTMENT OF PUBLIC SAFETY  
Division 45—Missouri Gaming Commission  
Chapter 9—Internal Control System**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri Gaming Commission (MGC) under section 313.805, RSMo Supp. 2013, the commission adopts a rule as follows:

11 CSR 45-9.110 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on June 3, 2013 (38 MoReg 828). Changes have been made to the *Minimum Internal Control Standards* (MICS) as incorporated by reference in Chapter J. Changes have been made to the text of the proposed rule, so it is reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

**SUMMARY OF COMMENTS:** A public hearing was held on this proposed rule on July 10, 2013. Several comments were made at the public hearing. Written comments were received from Mike Winter, Executive Director of the Missouri Gaming Association (MGA).

**COMMENT #1:** In Chapter J, MGA continues to have concerns regarding several provisions in the proposed rule. In J §1.02 licensees who operate twenty-four (24)-hour gaming are required to submit a schedule to the executive director.

**RESPONSE AND EXPLANATION OF CHANGE:** The submission of the schedule is necessary since the commission has a responsibility to ensure agents are on duty at the casino during hours of operation.

Due to the similarity of the following four (4) comments, one (1) response is presented after the four (4) comments.

**COMMENT #2:** J §1.02(B) requires the casino to close Wednesday morning at the end of Tuesday's gaming day for at least one (1) hour and to also clear the casino patrons from the floor. In J §1.02(D) it indicates the approved schedule must be followed including holidays.

**COMMENT #3:** J § 1.02(B) & (D)—A commenter at the hearing noted they have serious concerns with these changes and the required closing which must be done even during a holiday. This is particularly troublesome given New Year's Day will fall on a Wednesday in 2014. The requirement to close for an hour and to remove all patrons from the gaming floor would have a significant impact on our guests, gaming revenue as well as revenue payable to the state in admission fees and gaming tax. By requiring us to close on a holiday, we would be removing likely thousands of guests from our gaming floors who would be unlikely to return when the casino floor reopened. Some may go to neighboring casinos across the state line or merely elect not to return.

**COMMENT #4:** Another commenter at the hearing asked, do they have to have a mandatory close on New Year's Eve? Could the full mandatory close be moved to another day? Or could they generate a report?

**COMMENT #5:** We would urge the commission to reconsider its position on requiring Wednesday closing, even on holidays due to the significant impact it will have on our guests, gaming revenue and taxes payable to the state and local communities. We would respectfully request the commission explore adding some flexibility to this proposed rule so the interruption to our guests and business could be less significant.

**RESPONSE:** This was an original condition of twenty-four (24)-hour gaming. Special holidays will be addressed as they come; however, not all holidays will require a change to the schedule. Changing the gaming week as noted in 11 CSR 45-11.040 affects the commission's ability to reconcile the gaming week and cannot be changed at each

casino's will. 11 CSR 45-11.130 requires the commission to verify the veracity of the estimated drops which is done at the conclusion of each gaming week. No changes have been made to the rule as a result of these comments.

Due to the similarity of the following two (2) comments, one (1) response is presented after the two (2) comments.

**COMMENT #6:** As we have discussed previously with the commission, we continue to have serious concerns regarding the manual count of turnstiles following each gaming excursion. With the technological advances in turnstiles, the counts provided by the turnstiles are extremely accurate. We question the need for a manual count to be performed at the end of the gaming excursions. Once again, we must raise the question if the commission has considered the possible cost implications of these requirements. If an individual is required to make the turnstile counts every two (2) hours, we will be taking an individual away from other duties and will incur additional costs for the collection of this information. In a review of the proposed rule there is no fiscal impact calculated by the commission for implementation of this rule. We would respectfully disagree. If this rule does require manual readings to be performed, there will be a cost to the industry to perform these readings. We would welcome the opportunity to discuss other alternatives to meet the commission's goal while at the same time taking our concerns into consideration.

**COMMENT #7:** A commenter at the hearing questioned if, instead of doing the manual count every two (2) hours, could they use some automated method of checking out the variances? The manual reading of meters, if meters were two percent (2%) or more inaccurate, is inefficient and burdensome.

**RESPONSE AND EXPLANATION OF CHANGE:** The majority of system reports have proven to not be reliable. Admissions taxes are MGC's most basic responsibility. The commission is open to technology that works; however, the turnstile systems currently in use have not all been proven to be accurate and reliable. We have numerous cases of turnstile malfunctions without anyone becoming aware until the next day when the reports are run. We also had a case where a system report had been altered by a casino employee typing over the formulas. Our experience dictates that reading the meters is necessary at some properties to get accurate admission counts and at other properties it acts as a backup in case the primary system fails. We have documented cases where the turnstiles are down and the casino operators do not detect the problem for hours.

The staff agrees to include an alternate method that may be submitted for approval. J §1.04 has been changed to read— "A manual reading of the turnstiles shall be performed and recorded at the end of each gaming excursion to provide turnstile readings and to verify the turnstiles are operating properly. An alternate method of obtaining this information may be submitted to the MGC tax audit manager for approval. Upon approval, the alternate method shall be described in the internal controls. No submission or approval of internal controls shall be valid unless approved in writing in advance by the MGC tax audit manager. Turnstiles capable of bi-directional counts shall have both entrance and exit readings recorded. The recorded manual readings shall be attached to the Daily Passenger Report. The internal controls shall specify which department is responsible for taking the manual readings." Eight (8) of the thirteen (13) casinos currently read the turnstiles. A fiscal note has been added to address the possible costs associated with this rule change.

**COMMENT #8:** In J §1.08 regarding the installation of the turnstiles we continue to have concerns regarding installation of the turnstiles. Our properties, like the commission, want to have accurate turnstile counts and feel that installation of the turnstiles according to manufacturer recommendations is appropriate. However, installing them to the narrowest width could be problematic. We would urge the commission to reconsider its position and add additional flexibility so that properties can install turnstiles as appropriate for its particular location as long as it falls within the manufacturer's recommendations.

RESPONSE: The standard already allows flexibility by stating other settings as approved by the commission. No changes have been made to the rule as a result of this comment.

COMMENT #9: A commenter noted that Americans with Disabilities Act (ADA) entrances are used only by disabled customers. She asked what about a husband pushing his wife through in a wheelchair? Does the husband have to come back and go through the regular turnstile, or is there some other way to deal with this admission?

RESPONSE: It is fine for the husband to push the wife through the ADA entrance provided an employee goes through the turnstile in his place.

Due to the similarity of the following two (2) comments, one (1) response is presented after the two (2) comments.

COMMENT #10: Would MGC consider tacking on a log rather than a team member walking through the turnstile—wiser to focus on other patrons and to adjust the numbers by session from the log—the count could be segregated.

COMMENT #11: Another commenter stated that facilities without a regular ADA turnstile let those customers in through a non-counting entrance, and then an employee goes through regular turnstile for count. She questioned if casinos could use some sort of entry/exit log to keep track of these admissions, rather than requiring a gatekeeper to actually walk through the turnstile in place of the person entering through the ADA entrance.

RESPONSE: The staff is not in favor of creating another form. No changes have been made to the rule as a result of these comments.

COMMENT #12: MGA would also ask for some clarification regarding the changes in J §1.13 and J §1.14. Recently the commission approved changes regarding vendors' ability to be on the gaming floor for up to two (2) hours. We would ask for clarification if these proposed changes impact the previously adopted amendment.

RESPONSE AND EXPLANATION OF CHANGE: This will not impact the existing variance 17514-10A as that addresses 11 CSR 45-4.020 which requires the vendor escort on the gaming floor. Staff clarified the intent by rewording J §1.13: "Vendors who are entitled to a "fee-free" admission are not required to pass through the normal entrance or exit turnstiles. Vendors shall report to Security to obtain a vendor badge and shall sign the Visitor/Vendor Log indicating time in, time out, and the reason for their visit." And changed J §1.14 to read: "All personnel entering the boat on a "fee-free" basis will have an employee badge, a vendor/visitor pass, or MGC agent identification, and shall not gamble. If a vendor or visitor is found to have gambled in violation of this rule, in addition to any other penalty assessed, the admission taxes shall be adjusted to include an admission fee for the time the vendor or visitor was on the floor."

#### **11 CSR 45-9.110 Minimum Internal Control Standards (MICS)—Chapter J**

(1) The commission shall adopt and publish minimum standards for internal control procedures that in the commission's opinion satisfy 11 CSR 45-9.020, as set forth in Minimum Internal Control Standards (MICS) Chapter J—Admissions, which has been incorporated by reference herein, as published by the Missouri Gaming Commission, 3417 Knipp Dr., PO Box 1847, Jefferson City, MO 65102. Chapter J does not incorporate any subsequent amendments or additions as adopted by the commission on August 21, 2013.

*REVISED PRIVATE COST: Comments received by MGC indicated the opinion that the adoption of the rule would result in an expenditure by private entities in excess of five hundred dollars (\$500). There will be an annual cost to three (3) corporate entities of ninety-three thousand seventy-five dollars (\$93,075). A revised private fiscal note is published with this order of rulemaking.*

**FISCAL NOTE  
 REVISED PRIVATE COST**

- I. Department Title: 11—DEPARTMENT OF PUBLIC SAFETY

 Chapter Title: 9—Internal Control System**

<b>Rule Number and Title:</b>	11 CSR 45-9.110 Minimum Internal Control Standards (MICS)- Chapter J
<b>Type of Rulemaking:</b>	Order of Rulemaking

**II. SUMMARY OF FISCAL IMPACT**

Estimate of the number of entities by class which would likely be affected by the adoption of the rule:	Classification by types of the business entities which would likely be affected:	Estimate in the aggregate as to the cost of compliance with the rule by the affected entities:
Five casinos	Three Corporate Entities	\$ 93,075 annually

**III. WORKSHEET**

The estimated annual cost has been quantified at 15 minutes of labor, 12 times a day for each day of the year for 5 casinos. The estimated rate for each labor hour is \$17 (wages + benefits).

$$.25 \text{ hours} \times 12 \times 365 \times 5 = 5,475 \text{ hours of labor}$$

$$5,475 \times \$17 = \$93,075 \text{ annually}$$

**IV. ASSUMPTIONS**

The standard in MICS J § 1.04 requires an employee to record the turnstile readings at the conclusion of each two hour gambling excursion. The casinos are open every day of the year. Currently five casinos do not take these readings, and may incur additional labor costs.

The anticipated total costs for this rule will recur annually for the life of the rule.

**Title 11—DEPARTMENT OF PUBLIC SAFETY  
Division 45—Missouri Gaming Commission  
Chapter 9—Internal Control System**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri Gaming Commission (MGC) under section 313.805, RSMo Supp. 2013, the commission amends a rule as follows:

11 CSR 45-9.118 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 3, 2013 (38 MoReg 828–829). Changes have been made to the *Minimum Internal Control Standards* (MICS) as incorporated by reference in Chapter R. Changes have been made to the text of the proposed amendment, so it is reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

**SUMMARY OF COMMENTS:** A public hearing was held on this proposed amendment on July 10, 2013. No written comments were received for this rule. Several comments were made at the public hearing.

Due to the similarity of the following two (2) comments, they are addressed with one (1) response.

**COMMENT #1:** Staff has received requests to alter MGC forms to meet the casinos' forms requirements. We do not want to alter our forms for each property as it is easier to review a standard form. Forms required by Chapter R are the forms required to be maintained by the casinos. These forms should be kept separate from the forms provided by the commission. We allow the casinos to design their forms as they see fit provided they contain the required information.  
**COMMENT #2:** R §2.08 Requires that forms provided by the MGC not be used by Class B Licensees. Mike Winter, Executive Director, Missouri Gaming Association (MGA), asked if this rule could be changed to the effect that if MGC forms are used, then they could not be altered.

**RESPONSE AND EXPLANATION OF CHANGE:** The staff agrees to this change. R §2.08 has been changed to state: "Forms provided by the commission shall not be altered if used to satisfy the forms required by this chapter."

**COMMENT #3:** R §5.01 requires that all manual control forms be pre-numbered by the manufacturer. A commenter asked if there was a possibility the numbers could be printed in-house?

**RESPONSE:** Though this section was not part of the amendment open for public comment, MGC staff recognized that forms may be numbered in-house when they are sequentially numbered by the computer system at the property as allowed by R §5.02. The sequential numbers cannot be manually generated or alterable.

**11 CSR 45-9.118 Minimum Internal Control Standards (MICS)—Chapter R**

(1) The commission shall adopt and publish minimum standards for internal control procedures that in the commission's opinion satisfy 11 CSR 45-9.020, as set forth in *Minimum Internal Control Standards* (MICS) Chapter R—Forms, which has been incorporated by reference herein, as published by the Missouri Gaming Commission, 3417 Knipp Dr., PO Box 1847, Jefferson City, MO 65102.
