HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

Title	Code of State Regulations	Division	Chapter	Rule
1	CSR	10-	1.	010
Department		Agency, Division	General area regulated	Specific area regulated

They are properly cited by using the full citation, i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

RSMo—The most recent version of the statute containing the section number and the date.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo 2000. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the *Missouri* and the *United States Constitutions*; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

Title 13—DEPARTMENT OF SOCIAL SERVICES Division 70—MO HealthNet Division Chapter 10—Nursing Home Program

EMERGENCY AMENDMENT

13 CSR 70-10.110 Nursing Facility Reimbursement Allowance.
The division is adding subsection (2)(P).

PURPOSE: This amendment provides for a change in the Nursing Facility Reimbursement Allowance rate to thirteen dollars and forty cents (\$13.40) effective July 1, 2015.

EMERGENCY STATEMENT: The Department of Social Services, MO HealthNet Division finds that this emergency amendment is necessary to preserve a compelling governmental interest of collecting state revenue in order to provide nursing facility services to individuals eligible for the MO HealthNet nursing facility program. This emergency amendment changes the Nursing Facility Reimbursement Allowance (NFRA) rate from twelve dollars and eleven cents (\$12.11) to thirteen dollars and forty cents (\$13.40) effective July 1, 2015. An early effective date is required because the emergency amendment is necessary to establish the NFRA assessment rate effective July 1, 2015 for State Fiscal Year (SFY) 2016. The NFRA needs to be established in order to collect the state revenue to ensure funds are available to pay for nursing facility services for MO HealthNet participants in participating MO HealthNet nursing facilities with the funds appropriated for that purpose. The MO HealthNet Division also finds an immediate

danger to public health, safety, and/or welfare which require emergency actions. If this emergency amendment is not enacted, there would be significant cash flow shortages causing a financial strain on Missouri nursing facilities which service approximately twenty-four thousand (24,000) individuals eligible for the MO HealthNet nursing facility program. This financial strain, in turn, will result in an adverse impact on the health, safety, and welfare of MO HealthNet participants in need of nursing facility services. A proposed amendment which covers the same material is published in this issue of the *Missouri Register*. This emergency amendment limits its scope to the circumstances creating the emergency and complies with the protections extended by the *Missouri* and *United States Constitutions*. The MO HealthNet Division believes this emergency amendment to be fair to all interested persons and parties under the circumstances. This emergency amendment was filed June 19, 2015, becomes effective July 1, 2015, and expires December 28, 2015.

(2) NFRA Rates. The NFRA rates determined by the division, as set forth in (1)(B) above, are as follows:

(N) Effective October 1, 2011, the NFRA will be eleven dollars and seventy cents (\$11.70) per patient occupancy day. The applicable quarterly survey shall be as defined in subsection (2)(K); *and*

(O) Effective July 1, 2012, the NFRA will be twelve dollars and eleven cents (\$12.11) per patient occupancy day. The applicable quarterly survey shall be as defined in subsection (2)(K).; *and*

(P) Effective July 1, 2015, the NFRA will be thirteen dollars and forty cents (\$13.40) per patient occupancy day. The applicable quarterly survey shall be as defined in subsection (2)(K).

AUTHORITY: sections 198.401, 198.403, 198.406, 198.409, 198.412, 198.416, 198.418, 198.424, 198.427, 198.431, 198.433, 198.436, and 208.159, RSMo 2000, [and] sections 198.439, 208.153, and 208.201, RSMo Supp. [2012] 2013, and section 198.421, RSMo Supp. 2014. Emergency rule filed Dec. 21, 1994, effective Jan. 1, 1995, expired April 30, 1995. Emergency rule filed April 21, 1995, effective May 1, 1995, expired Aug. 28, 1995. Original rule filed Dec. 15, 1994, effective July 30, 1995. For intervening history, please consult the *Code of State Regulations*. Emergency amendment filed June 19, 2015, effective July 1, 2015, expires Dec. 28, 2015. A proposed amendment covering this same material is published in this issue of the *Missouri Register*.

Title 13—DEPARTMENT OF SOCIAL SERVICES Division 70—MO HealthNet Division Chapter 15—Hospital Program

EMERGENCY AMENDMENT

13 CSR 70-15.010 Inpatient Hospital Services Reimbursement Plan; Outpatient Hospital Services Reimbursement Methodology.
The division is amending subsection (3)(B).

PURPOSE: This amendment provides for the State Fiscal Year (SFY) 2016 trend factor to be applied in determining Federal Reimbursement Allowance (FRA) funded hospital payments for SFY 2016.

EMERGENCY STATEMENT: The Department of Social Services, MO HealthNet Division (MHD) finds that this emergency amendment is necessary to preserve a compelling governmental interest of collecting state revenue in order to provide health care to individuals eligible for the MO HealthNet program and for the uninsured. An early effective date is required because this emergency amendment establishes the Federal Reimbursement Allowance (FRA) funded hospital payments for dates of service beginning July 1, 2015 in regulation to ensure that quality health care continues to be provided to MO

HealthNet participants and indigent patients at hospitals that have relied on MO HealthNet payments to meet those patients' needs. In order to determine the trends for State Fiscal Year (SFY) 2016, all relevant information from the necessary sources must be available to MHD. The division uses the best information available when it starts calculating the payments so it uses the trend published in the **First Quarter Healthcare Cost Review** publication which is generally not available until May. The division must also analyze hospital data, which is not complete until near the end of the state fiscal year, in conjunction with the trend and funding to determine the appropriate level of payments. Without this information, the trends cannot be determined; therefore, due to timing of the receipt of this information and the necessary July 1, 2015 effective date, an emergency regulation is necessary. As a result, the MHD finds an immediate danger to public health, safety, and welfare which requires emergency actions. If this emergency amendment is not enacted, there would be significant cash flow shortages causing a financial strain on Missouri hospitals which serve over nine hundred twenty-six thousand (926,000) MO HealthNet participants plus the uninsured. This financial strain, in turn, will result in an adverse impact on the health, safety, and welfare of MO HealthNet participants and uninsured individuals in need of medical treatment. A proposed amendment, which covers the same material is published in this issue of the **Missouri Register**. This emergency amendment limits its scope to the circumstances creating the emergency and complies with the protections extended by the **Missouri and United States Constitutions**. The MHD believes this emergency amendment to be fair to all interested persons and parties under the circumstances. The emergency amendment was filed June 19, 2015, becomes effective July 1, 2015, and expires December 28, 2015.

(3) Per Diem Reimbursement Rate Computation. Each hospital shall receive a MO HealthNet per diem rate based on the following computation:

(B) Trend Indices (TI). Trend indices are determined based on the four- (4-) quarter average DRI Index for DRI-Type Hospital Market Basket as published in *Health Care Costs* by DRI/McGraw-Hill for each State Fiscal Year (SFY) 1995 to 1998. Trend indices starting in SFY 1999 will be determined based on CPI Hospital indexed as published in *Health Care Costs* by DRI/McGraw-Hill, or equivalent publication regardless of any changes in the name of the publication or publisher, for each State Fiscal Year (SFY). **Trend indices starting in SFY 2016 will be determined based on the Hospital Market Basket index as published in *Healthcare Cost Review* by Institute of Health Systems (IHS), or equivalent publication regardless of any changes in the name of the publication or publisher, for each State Fiscal Year (SFY).**

1. The TI are—

- T. SFY 2013—4.4%

U. SFY 2014—3.7%

V. SFY 2015—4.3%

W. SFY 2016—2.5%

2. The TI for SFY 1996 through SFY 1998 are applied as a full percentage to the OC of the per diem rate and for SFY 1999 the OC of the June 30, 1998, rate shall be trended by 1.2% and for SFY 2000 the OC of the June 30, 1999, rate shall be trended by 2.4%. The OC of the June 30, 2000, rate shall be trended by 1.95% for SFY 2001.

3. The per diem rate shall be reduced as necessary to avoid any negative Direct Medicaid payments computed in accordance with subsection (15)(B).

4. A facility previously enrolled for participation in the MO HealthNet Program, which either voluntarily or involuntarily terminates its participation in the MO HealthNet Program and which reenters the MO HealthNet Program, will receive the same inpatient rate and outpatient rate as the previous owner/operator. Such facility will also receive the same Direct Medicaid Add-On Payment and Uninsured Add-On Payment as the previous owner/operator if the facility reenters the MO HealthNet Program during the same state fiscal year. If the facility does not reenter during the same state fiscal year, the Direct Medicaid Add-On Payment and Uninsured Add-On Payment will be determined based on the applicable base year data (i.e., fourth prior year cost report for the Direct Medicaid Payment; see 13 CSR 70-15.220 for the applicable data for the Uninsured Add-On Payment). If the facility does not have the applicable base year data, the Direct Medicaid Add-On Payment and the Uninsured Add-On Payment will be based on the most recent audited data available and will include annual trend factor adjustments from the year subsequent to the cost report period through the state fiscal year for which the payments are being determined.

AUTHORITY: sections 208.153[,] and 208.201, RSMo Supp. 2013, and section[s] 208.152, RSMo Supp. 2014. This rule was previously filed as 13 CSR 40-81.050. Original rule filed Feb. 13, 1969, effective Feb. 23, 1969. For intervening history, please consult the Code of State Regulations. Emergency amendment filed June 19, 2015, effective July 1, 2015, expires Dec. 28, 2015. A proposed amendment covering this same material is published in this issue of the Missouri Register.

Title 13—DEPARTMENT OF SOCIAL SERVICES Division 70—MO HealthNet Division Chapter 15—Hospital Program

EMERGENCY AMENDMENT

13 CSR 70-15.110 Federal Reimbursement Allowance (FRA). The division is amending subsection (1)(A).

PURPOSE: This amendment provides for the State Fiscal Year (SFY) 2016 trend factor to be applied to the inpatient and outpatient adjusted net revenues determined from the Federal Reimbursement Allowance (FRA) fiscal year cost report to determine the inpatient and outpatient adjusted net revenues subject to the FRA assessment.

EMERGENCY STATEMENT: The Department of Social Services, MO HealthNet Division (MHD) finds that this emergency amendment is necessary to preserve a compelling governmental interest of collecting state revenue in order to provide health care to individuals eligible for the MO HealthNet program and for the uninsured. An early effective date is required because the emergency amendment is necessary to establish the Federal Reimbursement Allowance (FRA) assessment rate effective for dates of service beginning July 1, 2015 in regulation in order to collect the state revenue to ensure access to hospital services for MO HealthNet participants and indigent patients at hospitals that have relied on MO HealthNet payments to meet those patients' needs. The Missouri Partnership Plan between

*the Centers for Medicare and Medicaid Services (CMS) and the Missouri Department of Social Services (DSS), which establishes a process whereby CMS and DSS determine the permissibility of the funding source used by Missouri to fund its share of the MO HealthNet program, is based on a state fiscal year. In order to determine the trends for State Fiscal Year (SFY) 2016, all relevant information from the necessary sources must be available to MHD. The division uses the best information available when it starts calculating the assessment so it uses the trend published in the **Fourth Quarter Healthcare Cost Review** publication which is generally not available until February. The division must also analyze hospital revenue data, which is not complete until near the end of the state fiscal year, in conjunction with the trend and hospital FRA funded payments to determine the appropriate level of assessment. Without this information, the trends cannot be determined. Therefore, due to timing of the receipt of this information and the necessary July 1, 2015 effective date, an emergency regulation is necessary. The MHD also finds an immediate danger to public health, safety, and welfare which requires emergency actions. If this emergency amendment is not enacted, there would be significant cash flow shortages causing a financial strain on Missouri hospitals which serve over nine hundred twenty-six thousand (926,000) MO HealthNet participants plus the uninsured. This financial strain, in turn, will result in an adverse impact on the health, safety, and welfare of MO HealthNet participants and uninsured individuals in need of medical treatment. The FRA will raise approximately \$1.087 billion for SFY 2016 (July 1, 2015 – June 30, 2016), of which \$20.7 million is attributable to the trend factor that is the subject of this emergency amendment. A proposed amendment, which covers the same material, is published in this issue of the **Missouri Register**. This emergency amendment limits its scope to the circumstances creating the emergency and complies with the protections extended by the **Missouri and United States Constitutions**. The MHD believes this emergency amendment to be fair to all interested persons and parties under the circumstances. The emergency amendment was filed June 19, 2015, becomes effective July 1, 2015, and expires December 28, 2015.*

(1) Federal Reimbursement Allowance (FRA). FRA shall be assessed as described in this section.

(A) Definitions.

1. Bad debts—Amounts considered to be uncollectible from accounts and notes receivable that were created or acquired in providing services. Allowable bad debts include the costs of caring for patients who have insurance, but their insurance does not cover the particular service procedures or treatment rendered.

2. Base cost report—Desk-reviewed Medicare/Medicaid cost report. The Medicare/Medicaid Cost Report version 2552-96 (CMS 2552-96) shall be used for fiscal years ending on or after September 30, 1996. The Medicare/Medicaid Cost Report version 2552-10 (CMS 2552-10) shall be used for fiscal years beginning on and after May 1, 2010. When a hospital has more than one (1) cost report with periods ending in the base year, the cost report covering a full twelve-(12-)/- month period will be used. If none of the cost reports covers a full twelve (12) months, the cost report with the latest period will be used. If a hospital's base cost report is less than or greater than a twelve- (12-)/- month period, the data shall be adjusted, based on the number of months reflected in the base cost report, to a twelve-(12-)/- month period.

3. Charity care—Those charges written off by a hospital based on the hospital's policy to provide health care services free of charge or at a reduced charge because of the indigence or medical indigence of the patient.

4. Contractual allowances—Difference between established rates for covered services and the amount paid by third-party payers under contractual agreements. The Federal Reimbursement Allowance (FRA) is a cost to the hospital, regardless of how the FRA is remitted to the MO HealthNet Division, and shall not be included in contractual allowances for determining revenues. Any redistributions of MO

HealthNet payments by private entities acting at the request of participating health care providers shall not be included in contractual allowances or determining revenues or cost of patient care.

6. Director—Director of the Department of Social Services.

7. Division—MO HealthNet Division, Department of Social Services.

8. Engaging in the business of providing inpatient health care—Accepting payment for inpatient services rendered.

10. Fiscal period—Twelve- (12-)/- month reporting period determined by each hospital.

11. Gross hospital service charges—Total charges made by the hospital for inpatient and outpatient hospital services that are covered under 13 CSR 70-15.010.

12. Hospital—A place devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment, or care for not fewer than twenty-four (24) hours in any week of three (3) or more nonrelated individuals suffering from illness, disease, injury, deformity, or other abnormal physical conditions; or a place devoted primarily to provide, for not fewer than twenty-four (24) hours in any week, medical or nursing care for three (3) or more nonrelated individuals. The term hospital does not include convalescent, nursing, shelter, or boarding homes as defined in Chapter 198, RSMo.

13. Hospital revenues subject to FRA assessment effective July 1, 2008—Each hospital's inpatient adjusted net revenues and outpatient adjusted net revenues subject to the FRA assessment will be determined as follows:

A. Obtain "Gross Total Charges" from Worksheet G-2, Line 25, Column 3 from CMS 2552-96, or Worksheet G-2, Line 28, Column 3 from CMS 2552-10, of the third prior year cost report (i.e., FRA fiscal year cost report) for the hospital. Charges shall exclude revenues for physician services. Charges related to activities subject to the Missouri taxes assessed for outpatient retail pharmacies and nursing facility services shall also be excluded. "Gross Total Charges" will be reduced by the following:

(I) "Nursing Facility Charges" from Worksheet C, Part I, Line 35, Column 6 from CMS 2552-96, or Worksheet C, Part I, Line 45, Column 6 from CMS 2552-10;

(II) "Swing Bed Nursing Facility Charges" from Worksheet G-2, Line 5, Column 1 from CMS 2552-96, or Worksheet G-2, Line 6, Column 1 from CMS 2552-10;

(III) "Nursing Facility Ancillary Charges" as determined from the Department of Social Services, MO HealthNet Division, nursing home cost report. (Note: To the extent that the gross hospital charges, as specified in subparagraph (1)(A)13.A. above, include long-term care charges, the charges to be excluded through this step shall include all long-term care ancillary charges including skilled nursing facility, nursing facility, and other long-term care providers based at the hospital that are subject to the state's provider tax on nursing facility services.);

(IV) "Distinct Part Ambulatory Surgical Center Charges" from Worksheet G-2, Line 22, Column 2 from CMS 2552-96, or Worksheet G-2, Line 25, Column 2 from CMS 2552-10;

(V) "Ambulance Charges" from Worksheet C, Part I, Line 65, Column 7 from CMS 2552-96, or Worksheet C, Part I, Line 95, Column 7 from CMS 2552-10;

(VIII) "Other Non-Hospital Component Charges" from

Worksheet G-2, Lines 6, 8, 21, 21.02, 23, and 24 from CMS 2552-96, or Worksheet G-2, Lines 5, 7, 9, 21, 24, 26, and 27 from CMS 2552-10;

B. Obtain "Net Revenue" from Worksheet G-3, Line 3, Column 1. The state will ensure this amount is net of bad debts and other uncollectible charges by survey methodology;

C. "Adjusted Gross Total Charges" (the result of the computations in subparagraph (1)(A)13.A.) will then be further adjusted by a hospital-specific collection-to-charge ratio determined as follows:

(I) Divide "Net Revenue" by "Gross Total Charges"; and

(II) "Adjusted Gross Total Charges" will be multiplied by the result of part (1)(A)13.C.(I) to yield "Adjusted Net Revenue";

D. Obtain "Gross Inpatient Charges" from Worksheet G-2, Line 25, Column 1 from CMS 2552-96, or Worksheet G-2, Line 28, Column 1 from CMS 2552-10, of the most recent cost report that is available for a hospital;

E. Obtain "Gross Outpatient Charges" from Worksheet G-2, Line 25, Column 2 from CMS 2552-96, or Worksheet G-2, Line 28, Column 2 from CMS 2552-10, of the most recent cost report that is available for a hospital;

F. Total "Adjusted Net Revenue" will be allocated between "Net Inpatient Revenue" and "Net Outpatient Revenue" as follows:

(b) Outpatient Adjusted Net Revenues—3.70%

(IX) SFY 2015 =

(a) Inpatient Adjusted Net Revenues—0%

(b) Outpatient Adjusted Net Revenues—4.30%

(X) SFY 2016 =

(a) Inpatient Adjusted Net Revenues—0%

15. Other operating revenues—The other operating revenue is total other revenue less government appropriations, less donations, and less income from investments times the trend indices listed in 13 CSR 70-15.010(3)(B).

**Title 13—DEPARTMENT OF SOCIAL SERVICES
Division 70—MO HealthNet Division
Chapter 20—Pharmacy Program**

EMERGENCY RULE

13 CSR 70-20.340 National Drug Code Requirement

PURPOSE: This rule implements the requirement for the National Drug Code (NDC) for all medications administered in the clinic or outpatient hospital setting. The Deficit Reduction Act of 2005 (DRA) requires states to collect rebates for certain physician-administered drugs.

EMERGENCY STATEMENT: On April 13, 2015 the U.S. Department of Health and Human Services (HHS), Office of Inspector General (OIG) issued a final report entitled Missouri Claimed Unallowable Federal Reimbursement for Some Medicaid Physician-Administered Drugs. The OIG alleges that Missouri claimed federal reimbursement that was unallowable because it did not comply with the federal Medicaid requirements for billing manufacturers for rebates for physician administered drugs. For a covered outpatient drug to be eligible for federal reimbursement under the Medicaid program, a drug manufacturer must enter into a rebate agreement with the Centers for Medicare & Medicaid Services (CMS) and pay quarterly rebates to the states (Social Security Act Section 1927). To collect these rebates, states must submit to the manufacturers the drug utilization data containing National Drug Codes (NDCs) for all single source physician-administered drugs and for the top twenty (20) multiple-source physician-administered drugs. OIG recommended that the state update its Medicaid Management Information System (MMIS) to reject all physician-administered drugs that do not include NDCs in order to improve that state's ability to ensure that all such drugs eligible for drug rebates are invoiced. The Department of Social Services (DSS), MO HealthNet Division (MHD) does not believe the disallowance of federal funds is warranted. In order to limit future financial damage to the state Medicaid program, the MHD is filing this emergency rule to require that all Medicaid claims for all medications administered in the clinic or outpatient hospital setting (physician administered drugs) meet the requirement of containing NDC. The division finds this emergency rule necessary to promote the compelling governmental interest of complying with federal law and providing continued federal reimbursement for Medicaid physician-administered drugs. The scope of this emergency rule is limited to the circumstances creating the emergency and complies with the protections extended by the Missouri and United States Constitutions. The MO HealthNet Division believes the emergency rule is fair to all interested persons and parties under the circumstances. A proposed rule covering this same material is published in this issue of the Missouri Register. This emergency rule was filed June 19, 2015, becomes effective July 1, 2015, and expires December 28, 2015.

(1) Effective for dates of service on or after July 1, 2015, MO HealthNet Division (MHD) will require the National Drug Code (NDC) for all medications administered in the clinic or outpatient hospital setting, to comply with federal law. MHD must collect the eleven-(11-) digit NDC on all outpatient drug claims submitted to MHD from all providers for rebate purposes in order to receive federal financial participation. Providers will be required to submit their claims with the exact NDC that appears on the product dispensed or administered to receive payment from MHD. The NDC is found on the medication's packaging and must be submitted in the five (5) digit - four (4) digit - two (2) digit format. If the NDC does not appear in the five (5) - four (4) - two (2) digit format on the packaging, zero(s) (0) may be entered in front of the section that does not have the required number of digits.

(2) All drug products produced by manufacturers that have entered into a rebate agreement with the Federal Government are reimbursable under the MHD Pharmacy Program, with the exception of Drug

Efficacy Study Implementation (DESI) drugs and drugs specified in Section 13, "Benefits and Limitations," in the Pharmacy Manual. The MHD Pharmacy Manual can be found on the MHD website at: http://manuals.momed.com/collections/collection_pha/print.pdf. A list of manufacturers that have entered into a rebate agreement with the Federal Government (along with the Labeler Code which is the first five (5) digits of the NDC number by which products may also be identified), can be found on the Centers for Medicare and Medicaid Services (CMS) website, in Drug Manufacturer Contact Information at: <http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Benefits/Prescription-Drugs/Medicaid-Drug-Rebate-Program.html>. Products for which the Labeler Code is not included on the list are not reimbursable under the MHD Pharmacy Program.

(3) Drug charges submitted by providers on an electronic Professional or Institutional ASC X12 837 Health Care claim transaction or manually entered on a medical or outpatient claim into MHD's billing website eMOMED (www.emomed.com), are to be billed with a valid J-Code and a valid NDC for each medication, including injections, provided to the participant. Medical or outpatient claim lines submitted with a J-Code without the corresponding NDC will be denied. For medical or outpatient claims correctly submitted with the appropriate J-Code and the corresponding NDC, the system will automatically generate a separate drug claim for the NDC to process as a pharmacy claim and will appear as a separate claim on your Remittance Advice. The corresponding line with J-Code and NDC will be dropped from the medical or outpatient claim. If an NDC is not provided, the J-Code will remain on the claim to report the denied line. If the drug being provided does not have a J-Code associated with it, the appropriate Healthcare Common Procedure Coding System (HCPCS) procedure code should be submitted with an NDC. For drugs without a valid HCPCS procedure code, revenue code 0250 "General Classification: Pharmacy" must be used with the appropriate NDC. Only drugs and items used during outpatient care in the hospital are covered. Take-home medications and supplies are not covered by MHD under the Hospital Program.

(4) A critical component to submitting claims with an NDC is to ensure that the appropriate HCPCS procedure code is billed with each NDC. To ensure accurate billing of drug charges, MHD will use the Noridian Crosswalk (www.dmepdac.com) to determine whether the appropriate HCPCS procedure code is billed for the submitted NDC. Claims will be denied if the NDC submitted is not valid for the HCPCS procedure code submitted.

(5) Section 1927(j)(2) of the Social Security Act calls for hospital dispensing covered outpatient drugs to bill the plan (MHD) "no more than the hospital's purchasing cost according to State Plan" as a condition of being exempt from the NDC reporting requirement. Claims from 340B health care facilities for outpatient hospital covered drugs must be submitted with an NDC and/or a valid J-Code (not a dump code) for MHD to be able to identify the drug dispensed and to verify that the amount submitted is the facility's actual acquisition cost for each item and quantity billed.

(6) All drug claims shall be routed through an automated computer system to apply edits specifically designed to ensure effective drug utilization. The Preferred Drug List (PDL) and clinical edits are designed to enhance patient care and optimize the use of program funds through therapeutically prudent use of pharmaceuticals. The edits are based on evidence-based clinical criteria and nationally recognized peer-reviewed information. This clinical information is paired with fiscal evaluation and then developed into a therapeutic class PDL recommendation. The PDL process incorporates clinical edits, including step therapies, into the MHD pharmacy program. Claims for drugs will automatically and transparently be approved for those patients who meet any of the system approval criteria. For those

patients who do not meet the system approval criteria, the drugs will require a call to the MHD Drug Prior Authorization hotline at (800) 392-8030 to initiate a review and potentially authorize payment of claims. Providers may also use the CyberAccess tool to prospectively determine if a drug is a preferred agent or requires edit override, electronically initiate an edit override review, and to review a participant's MHD paid claim history.

(7) The quantity to be billed for injectables and other types of medications dispensed to MHD participants must be calculated as follows:

(A) Containers of medication in solution (for example, ampoules, bags, bottles, vials, syringes) must be billed by exact cubic centimeters or milliliters (cc or mL) dispensed, even if the quantity includes a decimal (e.g., if three (3) 0.5 mL vials are dispensed, the correct quantity to bill is 1.5 mLs);

(B) Single dose syringes and single dose vials must be billed per cubic centimeters or milliliters (cc or mL), rather than per syringe or per vial;

(C) Ointments must be billed per number of grams even if the quantity includes a decimal;

(D) Eye drops must be billed per number of cubic centimeters or milliliters (cc or mL) in each bottle even if the quantity includes a decimal;

(E) Powder filled vials and syringes that require reconstitution must be billed by the number of vials;

(F) Combination products, which consist of devices and drugs, designed to be used together, are to be billed as a kit. Quantity will be the number of kits used;

(G) The product Herceptin, by Genentech, must be billed by milligram rather than by vial due to the stability of the drug; and

(H) Non-Vaccines for Children (VFC) Immunizations and vaccines must be billed by the cubic centimeters or milliliters (cc or mL) dispensed, rather than per dose.

(8) Contrast materials and radiopharmaceuticals used in radiologic procedures may be billed separately using the appropriate HCPCS code and/or the NDC representing the materials or agent used in the procedure. If available, MHD would prefer the NDC for reporting purposes. If the material or agent used does not have an NDC, the appropriate HCPCS code alone is acceptable. All HCPCS codes for contrast materials and radiopharmaceuticals are manually priced and must be billed with the manufacturer's invoice of cost attached to the claim.

AUTHORITY: sections 208.153 and 208.201, RSMo Supp. 2013. Emergency rule filed June 19, 2015, effective July 1, 2015, expires Dec. 28, 2015. A proposed rule covering this same material is published in this issue of the Missouri Register.

The Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo Supp. 2014.

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

hundred five percent (105%) of the current state average weekly wage for a period greater than six (6) consecutive months.

PURPOSE: This amendment requires each pull-tab deal to have the same unique serial number stamped on the flare and on each pull-tab card. It also requires pull-tabs to be designed in such a way that they may not be resealed, eliminating the possibility of being reused or resold.

(A) Each pull-tab deal shall have the same unique serial number stamped on the flare and on each pull-tab card included in the deal;

(5) Any pull-tab protection shall be shipped in one **(1)** single box[,] for all pull-tab deals containing more than one (1) box or unit container.

(8) All pull-tabs *[will]* **shall** be manufactured to ensure that, when offered for sale to the public, the pull-tab is free of security defects so that the winning or losing pull-tabs cannot be determined by any method or device prior to being opened by the player.

(9) Pull-tabs shall be designed in a manner which prevents the pull-tabs from being resealed to eliminate the possibility of them being reused or resold after the initial opening.

[(9)](10) There shall be no consideration awarded for purchasing the last pull-tab in a pull-tab deal. The prohibition against such practice, commonly referred to as a "last sale feature" shall include, but not be limited to, pull-tab games that utilize coin boards and merchandise boards.

Emergency amendment filed June 19, 2015, effective July 1, 2015, expires Dec. 28, 2015. Amended: Filed July 1, 2015.

PUBLIC COST: This proposed amendment will cost state agencies or political subdivisions approximately \$12,127,703 for SFY 2016.

PRIVATE COST: This proposed amendment will result in a net cost to private entities of approximately \$7,827,874 for SFY 2016 (total increase in NFRA of \$19,187,740 less the increased reimbursement to nursing facilities due to NFRA being an allowable cost of \$11,359,866 yields a net impact of \$7,827,874).

IV. ASSUMPTIONS

This proposed NFRA rate change will change the reimbursement rates for nursing facilities since the NFRA is an allowable cost for reimbursement under 13 CSR 70-10.015.

Estimated Paid Days:

Nursing Facility:

The estimated paid days for SFY 2016 are based on the actual Medicaid days paid for nursing facility services during SFY 2014, increased by 2% for 2015 and by an additional 2% for 2016.

Hospice:

The estimated paid days for SFY 2016 for hospice are based on the actual hospice days provided in nursing facilities from January 2014 through December 2014.

NFRA Add-On Increase:

An increase in the NFRA assessment of \$1.29 from \$12.11 to \$13.40 effective July 1, 2015 has an impact to nursing facilities under 13 CSR 70-10.015. The NFRA assessment is an allowable cost for reimbursement and is accounted for as an add-on to the per diem rate under 13 CSR 70-10.015; therefore, the cost has been included in this fiscal note.

Effect on Hospice:

Hospice providers are reimbursed 95% of the nursing facility per diem for hospice participants residing in a nursing facility. The total increase to the nursing facility per diem is \$1.29. The increase to hospice reimbursement rates resulting from this amendment is \$1.23 ($\$1.29 \times 95\%$).

IV. ASSUMPTIONS

Effective July 1, 2015 the Nursing Facility Reimbursement Allowance (NFRA) rate changes from twelve dollars and eleven cents (\$12.11) to thirteen dollars and forty cents (\$13.40) resulting in an increase of \$1.29. The number of assessment days for SFY 2016 is based on the annualized days from each facility's December 2013 CON Survey, as set forth in the current regulation. These days were multiplied by the current NFRA rate in effect of \$12.11 to determine the total assessment if the proposed amendment was not implemented. The same number of days was multiplied by the proposed NFRA rate of \$13.40 to determine the total assessment with the proposed amendment. The difference between the total assessment for the \$12.11 and \$13.40 NFRA rates is the total impact.

The nursing facility reimbursement regulation, 13 CSR 70-10.015, allows NFRA as an allowable, reimbursable cost. To account for the NFRA being an allowable cost, the current NFRA rate is included as part of the nursing facility's total reimbursement rate. With this NFRA rate increase of \$1.29, nursing facilities will be given a corresponding reimbursement rate increase of the same amount. This increased reimbursement will reduce the impact of the NFRA increase for nursing facilities by the same amount as computed in the Public Cost Fiscal Note.

After SFY 2016 these amounts (the increased NFRA collections and increased reimbursement) will become part of the core budget and continue annually until amended.

PROPOSED AMENDMENT

13 CSR 70-15.010 Inpatient Hospital Services Reimbursement Plan; Outpatient Hospital Services Reimbursement Methodology. The division is amending subsection (3)(B).

PURPOSE: This amendment provides for the State Fiscal Year (SFY) 2016 trend factor to be applied in determining Federal Reimbursement Allowance (FRA) funded hospital payments for SFY 2016.

(3) Per Diem Reimbursement Rate Computation. Each hospital shall receive a MO HealthNet per diem rate based on the following computation:

(B) Trend Indices (TI). Trend indices are determined based on the four- (4-) quarter average DRI Index for DRI-Type Hospital Market Basket as published in *Health Care Costs* by DRI/McGraw-Hill for each State Fiscal Year (SFY) 1995 to 1998. Trend indices starting in SFY 1999 will be determined based on CPI Hospital indexed as published in *Health Care Costs* by DRI/McGraw-Hill, or equivalent publication regardless of any changes in the name of the publication or publisher, for each State Fiscal Year (SFY). **Trend indices starting in SFY 2016 will be determined based on the Hospital Market Basket index as published in *Healthcare Cost Review* by Institute of Health Systems (IHS), or equivalent publication regardless of any changes in the name of the publication or publisher, for each State Fiscal Year (SFY).**

4. A facility previously enrolled for participation in the MO HealthNet Program, which either voluntarily or involuntarily termi-

nates its participation in the MO HealthNet Program and which reenters the MO HealthNet Program, will receive the same inpatient rate and outpatient rate as the previous owner/operator. Such facility will also receive the same Direct Medicaid Add-On Payment and Uninsured Add-On Payment as the previous owner/operator if the facility reenters the MO HealthNet Program during the same state fiscal year. If the facility does not reenter during the same state fiscal year, the Direct Medicaid Add-On Payment and Uninsured Add-On Payment will be determined based on the applicable base year data (i.e., fourth prior year cost report for the Direct Medicaid Payment; see 13 CSR 70-15.220 for the applicable data for the Uninsured Add-On Payment). If the facility does not have the applicable base year data, the Direct Medicaid Add-On Payment and the Uninsured Add-On Payment will be based on the most recent audited data available and will include annual trend factor adjustments from the year subsequent to the cost report period through the state fiscal year for which the payments are being determined.

Title 13—DEPARTMENT OF SOCIAL SERVICES
Division 70—MO HealthNet Division
Chapter 15—Hospital Program

PROPOSED AMENDMENT

13 CSR 70-15.110 Federal Reimbursement Allowance (FRA). The division is amending subsection (1)(A).

PURPOSE: This amendment provides for the State Fiscal Year (SFY) 2016 trend factor to be applied to the inpatient and outpatient adjusted net revenues determined from the FRA fiscal year cost report.

(1) Federal Reimbursement Allowance (FRA). FRA shall be assessed as described in this section.

(A) Definitions.

1. Bad debts—Amounts considered to be uncollectible from accounts and notes receivable that were created or acquired in providing services. Allowable bad debts include the costs of caring for patients who have insurance, but their insurance does not cover the particular service procedures or treatment rendered.

2. Base cost report—Desk-reviewed Medicare/Medicaid cost report. The Medicare/Medicaid Cost Report version 2552-96 (CMS 2552-96) shall be used for fiscal years ending on or after September 30, 1996. The Medicare/Medicaid Cost Report version 2552-10 (CMS 2552-10) shall be used for fiscal years beginning on and after May 1, 2010. When a hospital has more than one (1) cost report with periods ending in the base year, the cost report covering a full twelve-(12-)/-/ month period will be used. If none of the cost reports covers a full twelve (12) months, the cost report with the latest period will be used. If a hospital's base cost report is less than or greater than a twelve- (12-)/-/ month period, the data shall be adjusted, based on the number of months reflected in the base cost report, to a twelve-(12-)/-/ month period.

3. Charity care—Those charges written off by a hospital based on the hospital's policy to provide health care services free of charge or at a reduced charge because of the indigence or medical indigence of the patient.

4. Contractual allowances—Difference between established rates for covered services and the amount paid by third-party payers under contractual agreements. The Federal Reimbursement Allowance (FRA) is a cost to the hospital, regardless of how the FRA is remitted to the MO HealthNet Division, and shall not be included in contractual allowances for determining revenues. Any redistributions of MO HealthNet payments by private entities acting at the request of participating health care providers shall not be included in contractual allowances or determining revenues or cost of patient care.

5. Department—Department of Social Services.

6. Director—Director of the Department of Social Services.

7. Division—MO HealthNet Division, Department of Social Services.

8. Engaging in the business of providing inpatient health care—Accepting payment for inpatient services rendered.

9. Federal Reimbursement Allowance (FRA)—The fee assessed to hospitals for the privilege of engaging in the business of providing inpatient health care in Missouri. The FRA is an allowable cost to the hospital.

10. Fiscal period—Twelve- (12-)/-/ month reporting period determined by each hospital.

11. Gross hospital service charges—Total charges made by the hospital for inpatient and outpatient hospital services that are covered under 13 CSR 70-15.010.

12. Hospital—A place devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment, or care for not fewer than twenty-four (24) hours in any week of three (3) or more nonrelated individuals suffering from illness, disease, injury, deformity, or other abnormal physical conditions; or a place devoted pri-

marily to provide, for not fewer than twenty-four (24) hours in any week, medical or nursing care for three (3) or more nonrelated individuals. The term hospital does not include convalescent, nursing, shelter, or boarding homes as defined in Chapter 198, RSMo.

13. Hospital revenues subject to FRA assessment effective July 1, 2008—Each hospital's inpatient adjusted net revenues and outpatient adjusted net revenues subject to the FRA assessment will be determined as follows:

A. Obtain "Gross Total Charges" from Worksheet G-2, Line 25, Column 3 from CMS 2552-96, or Worksheet G-2, Line 28, Column 3 from CMS 2552-10, of the third prior year cost report (i.e., FRA fiscal year cost report) for the hospital. Charges shall exclude revenues for physician services. Charges related to activities subject to the Missouri taxes assessed for outpatient retail pharmacies and nursing facility services shall also be excluded. "Gross Total Charges" will be reduced by the following:

(I) "Nursing Facility Charges" from Worksheet C, Part I, Line 35, Column 6 from CMS 2552-96, or Worksheet C, Part I, Line 45, Column 6 from CMS 2552-10;

(II) "Swing Bed Nursing Facility Charges" from Worksheet G-2, Line 5, Column 1 from CMS 2552-96, or Worksheet G-2, Line 6, Column 1 from CMS 2552-10;

(III) "Nursing Facility Ancillary Charges" as determined from the Department of Social Services, MO HealthNet Division, nursing home cost report. (Note: To the extent that the gross hospital charges, as specified in subparagraph (1)(A)13.A. above, include long-term care charges, the charges to be excluded through this step shall include all long-term care ancillary charges including skilled nursing facility, nursing facility, and other long-term care providers based at the hospital that are subject to the state's provider tax on nursing facility services.);

(IV) "Distinct Part Ambulatory Surgical Center Charges" from Worksheet G-2, Line 22, Column 2 from CMS 2552-96, or Worksheet G-2, Line 25, Column 2 from CMS 2552-10;

(V) "Ambulance Charges" from Worksheet C, Part I, Line 65, Column 7 from CMS 2552-96, or Worksheet C, Part I, Line 95, Column 7 from CMS 2552-10;

(VI) "Home Health Charges" from Worksheet G-2, Line 19, Column 2 from CMS 2552-96, or Worksheet G-2, Line 22, Column 2 from CMS 2552-10;

(VII) "Total Rural Health Clinic Charges" from Worksheet C, Part I, Column 7, Lines 63.50–63.59 from CMS 2552-96, or Worksheet C, Part I, Column 7, Line 88 and subsets from CMS 2552-10; and

(VIII) "Other Non-Hospital Component Charges" from Worksheet G-2, Lines 6, 8, 21, 21.02, 23, and 24 from CMS 2552-96, or Worksheet G-2, Lines 5, 7, 9, 21, 24, 26, and 27 from CMS 2552-10;

B. Obtain "Net Revenue" from Worksheet G-3, Line 3, Column 1. The state will ensure this amount is net of bad debts and other uncollectible charges by survey methodology;

C. "Adjusted Gross Total Charges" (the result of the computations in subparagraph (1)(A)13.A.) will then be further adjusted by a hospital-specific collection-to-charge ratio determined as follows:

(I) Divide "Net Revenue" by "Gross Total Charges"; and

(II) "Adjusted Gross Total Charges" will be multiplied by the result of part (1)(A)13.C.(I) to yield "Adjusted Net Revenue";

D. Obtain "Gross Inpatient Charges" from Worksheet G-2, Line 25, Column 1 from CMS 2552-96, or Worksheet G-2, Line 28, Column 1 from CMS 2552-10, of the most recent cost report that is available for a hospital;

E. Obtain "Gross Outpatient Charges" from Worksheet G-2, Line 25, Column 2 from CMS 2552-96, or Worksheet G-2, Line 28, Column 2 from CMS 2552-10, of the most recent cost report that is available for a hospital;

F. Total "Adjusted Net Revenue" will be allocated between "Net Inpatient Revenue" and "Net Outpatient Revenue" as follows:

(I) "Gross Inpatient Charges" will be divided by "Gross Total Charges";

(II) "Adjusted Net Revenue" will then be multiplied by the result to yield "Net Inpatient Revenue"; and

(III) The remainder will be allocated to "Net Outpatient Revenue"; and

G. The trend indices listed below will be applied to the apportioned inpatient adjusted net revenue and outpatient adjusted net revenue in order to inflate or trend forward the adjusted net revenues from the FRA fiscal year cost report to the current state fiscal year to determine the inpatient and outpatient adjusted net revenues subject to the FRA assessment.

Increase of Total Assessment under Prior SFY				(\$18,266,794)

IV. ASSUMPTIONS

This fiscal note reflects the total assessment to be collected during SFY 2016 of approximately \$907.1 million and is a decrease of approximately \$18.3 million from SFY 2015. The impact of the 3.9% trend on outpatient revenues is approximately \$17.2 million.

The fiscal note is based on establishing the FRA assessment rate at 5.95% and a trend of 3.9% on outpatient revenues effective for dates of service beginning July 1, 2015. The FRA assessment rate of 5.95% is levied upon Missouri hospitals' trended, inpatient and outpatient net adjusted revenue in accordance with the Missouri Partnership Plan.

Title 13—DEPARTMENT OF SOCIAL SERVICES
Division 70—MO HealthNet Division
Chapter 20—Pharmacy Program

PROPOSED RULE

13 CSR 70-20.340 National Drug Code Requirement

PURPOSE: This rule implements the requirement for the National Drug Code (NDC) for all medications administered in the clinic or outpatient hospital setting. The Deficit Reduction Act of 2005 (DRA) requires states to collect rebates for certain physician-administered drugs.

(1) Effective for dates of service on or after July 1, 2015, MO HealthNet Division (MHD) will require the National Drug Code (NDC) for all medications administered in the clinic or outpatient hospital setting, to comply with federal law. MHD must collect the eleven-(11-) digit NDC on all outpatient drug claims submitted to MHD from all providers for rebate purposes in order to receive federal financial participation. Providers will be required to submit their claims with the exact NDC that appears on the product dispensed or administered to receive payment from MHD. The NDC is found on the medication's packaging and must be submitted in the five (5) digit - four (4) digit - two (2) digit format. If the NDC does not appear in the five (5) - four (4) - two (2) digit format on the packaging, zero(s) (0) may be entered in front of the section that does not have the required number of digits.

(2) All drug products produced by manufacturers that have entered into a rebate agreement with the Federal Government are reimbursable under the MHD Pharmacy Program, with the exception of Drug Efficacy Study Implementation (DESI) drugs and drugs specified in Section 13, "Benefits and Limitations," in the Pharmacy Manual. The MHD Pharmacy Manual can be found on the MHD website at: http://manuals.momed.com/collections/collection_pha/print.pdf. A list of manufacturers that have entered into a rebate agreement with the Federal Government (along with the Labeler Code which is the first five (5) digits of the NDC number by which products may also be identified), can be found on the Centers for Medicare and Medicaid Services (CMS) website, in Drug Manufacturer Contact Information at: <http://www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Benefits/Prescription-Drugs/Medicare-Drug-Rebate-Program.html>. Products for which the Labeler Code is not included on the list are not reimbursable under the MHD Pharmacy Program.

(3) Drug charges submitted by providers on an electronic Professional or Institutional ASC X12 837 Health Care claim transaction or manually entered on a medical or outpatient claim into MHD's billing website eMOMED (www.emomed.com), are to be billed with a valid J-Code and a valid NDC for each medication, including injections, provided to the participant. Medical or outpatient claim lines submitted with a J-Code without the corresponding NDC will be denied. For medical or outpatient claims correctly submitted with the appropriate J-Code and the corresponding NDC, the system will automatically generate a separate drug claim for the NDC to process as a pharmacy claim and will appear as a separate claim on your Remittance Advice. The corresponding line with J-Code and NDC will be dropped from the medical or outpatient claim. If an NDC is not provided, the J-Code will remain on the claim to report the denied line. If the drug being provided does not have a J-Code associated with it, the appropriate Healthcare Common Procedure Coding System (HCPCS) procedure code should be submitted with an NDC. For drugs without a valid HCPCS procedure code, revenue code 0250 "General Classification: Pharmacy" must be used with the appropriate NDC. Only drugs and items used during outpatient care in the hospital are covered. Take-home medications and supplies are not covered by MHD under the Hospital Program.

(4) A critical component to submitting claims with an NDC is to ensure that the appropriate HCPCS procedure code is billed with each NDC. To ensure accurate billing of drug charges, MHD will use the Noridian Crosswalk (www.dmeopdac.com) to determine whether the appropriate HCPCS procedure code is billed for the submitted NDC. Claims will be denied if the NDC submitted is not valid for the HCPCS procedure code submitted.

(5) Section 1927(j)(2) of the Social Security Act calls for hospital dispensing covered outpatient drugs to bill the plan (MHD) "no more than the hospital's purchasing cost according to State Plan" as a condition of being exempt from the NDC reporting requirement. Claims from 340B health care facilities for outpatient hospital covered drugs must be submitted with an NDC and/or a valid J-Code (not a dump code) for MHD to be able to identify the drug dispensed and to verify that the amount submitted is the facility's actual acquisition cost for each item and quantity billed.

(6) All drug claims shall be routed through an automated computer system to apply edits specifically designed to ensure effective drug utilization. The Preferred Drug List (PDL) and clinical edits are designed to enhance patient care and optimize the use of program funds through therapeutically prudent use of pharmaceuticals. The edits are based on evidence-based clinical criteria and nationally recognized peer-reviewed information. This clinical information is paired with fiscal evaluation and then developed into a therapeutic class PDL recommendation. The PDL process incorporates clinical edits, including step therapies, into the MHD pharmacy program. Claims for drugs will automatically and transparently be approved for those patients who meet any of the system approval criteria. For those patients who do not meet the system approval criteria, the drugs will require a call to the MHD Drug Prior Authorization hotline at (800) 392-8030 to initiate a review and potentially authorize payment of claims. Providers may also use the CyberAccess tool to prospectively determine if a drug is a preferred agent or requires edit override, electronically initiate an edit override review, and to review a participant's MHD paid claim history.

(7) The quantity to be billed for injectables and other types of medications dispensed to MHD participants must be calculated as follows:

(A) Containers of medication in solution (for example, ampoules, bags, bottles, vials, syringes) must be billed by exact cubic centimeters or milliliters (cc or mL) dispensed, even if the quantity includes a decimal (e.g., if three (3) 0.5 mL vials are dispensed, the correct quantity to bill is 1.5 mL);

(B) Single dose syringes and single dose vials must be billed per cubic centimeters or milliliters (cc or mL), rather than per syringe or per vial;

(C) Ointments must be billed per number of grams even if the quantity includes a decimal;

(D) Eye drops must be billed per number of cubic centimeters or milliliters (cc or mL) in each bottle even if the quantity includes a decimal;

(E) Powder filled vials and syringes that require reconstitution must be billed by the number of vials;

(F) Combination products, which consist of devices and drugs, designed to be used together, are to be billed as a kit. Quantity will be the number of kits used;

(G) The product Herceptin, by Genentech, must be billed by milligram rather than by vial due to the stability of the drug; and

(H) Non-Vaccines for Children (VFC) Immunizations and vaccines must be billed by the cubic centimeters or milliliters (cc or mL) dispensed, rather than per dose.

(8) Contrast materials and radiopharmaceuticals used in radiologic procedures may be billed separately using the appropriate HCPCS code and/or the NDC representing the materials or agent used in the

procedure. If available, MHD would prefer the NDC for reporting purposes. If the material or agent used does not have an NDC, the appropriate HCPCS code alone is acceptable. All HCPCS codes for contrast materials and radiopharmaceuticals are manually priced and must be billed with the manufacturer's invoice of cost attached to the claim.

**Title 11—DEPARTMENT OF PUBLIC SAFETY
Division 75—Peace Officer Standards and
Training Program
Chapter 18—Corporate Security Advisor**

ORDER OF RULEMAKING

By the authority vested in the Department of Public Safety under section 590.750, RSMo Supp. 2014, the director adopts a rule as follows:

**11 CSR 75-18.010 Procedure to Obtain a Corporate Security
Advisor License is adopted.**

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 2, 2015 (40 MoReg 232-233). No changes have been made in the text of the proposed rule, so it is not reprinted here. However, there is a revised private cost for this proposed rule and that fiscal note is attached to this rule. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Public Safety received seven (7) comments on the proposed rule.

COMMENT #1: Theodis Brown supports the licensing of corporate security advisors at the state level. He believes he should be exempt from the training requirements due to his years of police officer experience, his race, and because he is a small business owner.

RESPONSE: We disagree with Mr. Brown's comment. No changes have been made to the rule as a result of this comment.

COMMENT #2: Mr. David Barrett commented that the requirement

of US Citizenship for private employment seems questionable under the U.S. Supreme Court decision *Nyquist vs. Mauclet*, 432 U.S. 1 (1977).

RESPONSE: We disagree. There is no requirement for an individual to obtain licensure as a corporate security advisor for private employment. This licensure and corporate security advisor designation is voluntary. No changes have been made to the rule as a result of this comment.

COMMENT #3: Mr. David Barrett commented the term, "credentialed federal special agent" is not defined, and no minimum training requirement is set out.

RESPONSE: Working with multiple existing corporate security officials to draft these rules, some of whom were former credentialed federal special agents, they indicated this term is commonly used by federal law enforcement officials and it refers to any federal special agent, from any federal agency, with the power of arrest. No changes have been made to the rule as a result of this comment.

COMMENT #4: Mr. David Barrett commented that there is no rational explanation of why a corporation with seventy-five (75) or one hundred (100) or one hundred twenty-five (125) employees is of insufficient size to have a corporate security advisor.

RESPONSE: Working with multiple existing corporate security officials to draft these rules, this language was taken from 17 CSR 20-5.035, which has been in place since at least 1993. No changes have been made to the rule as a result of this comment.

COMMENT #5: Mr. David Barrett commented that the naming of the employee as an additional insured when the corporation is liable for his or her acts seems to be unnecessary and certainly wasn't envisioned by the legislature. In addition, he stated there is undoubtedly a private cost to this requirement.

RESPONSE: Working with multiple existing corporate security officials to draft these rules, this language was taken from 17 CSR 20-5.035, which has been in place since at least 1993. There is no mandate for a corporation to employ Corporate Security Advisors and there is no mandate for an individual to become licensed as a Corporate Security Advisor to work security for any corporation. This process is completely voluntary for individuals wishing to obtain the designation of Corporate Security Advisor. Furthermore, it is our understanding that all of the corporations that had previously employed Corporate Security Advisors under the previous authority of 17 CSR 20-5.035 are already insured, and many of these corporations are self-insured. No changes have been made to the rule as a result of this comment.

COMMENT #6: Mr. David Barrett commented that the private entity cost for the completing of a forty- (40-) hour corporate security advisor training program would be in excess of five hundred dollars (\$500).

RESPONSE AND EXPLANATION OF CHANGE: In speaking with a representative of the St. Louis County and St. Louis City - Office of Private Security, which was the office that was previously responsible for delivering the forty- (40-) hour corporate security advisor training program pursuant to 17 CSR 20-5.035, we were informed that the total cost for an individual to become a corporate security advisor through their office was four hundred, sixty-eight dollars and eighty cents (\$468.80). That cost included a forty-four dollar and eighty cent (\$44.80) fingerprint fee, a two hundred thirty-five dollar (\$235.00) training fee, and a one hundred eighty-nine dollar (\$189.00) application fee. The department will not be charging an application fee for corporate security advisor applicants, and as per the Missouri State Highway Patrol, the fingerprint fee has dropped to forty-three dollars and five cents (\$43.05), so the estimated fingerprint fee and training costs will be two hundred seventy-eight dollars and five cents

(\$278.05) per applicant. Prior to the law change, there were one hundred forty-two (142) corporate security advisors licensed through the St. Louis County and St. Louis City - Office of Private Security, and they estimated that twenty (20) new corporate security advisors were licensed every year because of attrition. The aggregate private cost for these one hundred forty-two (142) corporate security advisors to complete the forty- (40-) hour training course and be fingerprinted is estimated to be thirty-nine thousand, four hundred eighty-three dollars, and ten cents (\$39,483.10); and the continued annual private cost to train and fingerprint these twenty (20) corporate security advisors will be five thousand, five hundred sixty-one dollars (\$5,561). The department has revised the private cost estimate for this rule and we have attached a private cost fiscal note to accurately reflect the aggregate training cost for corporate security advisors.

COMMENT #7: Mr. David Barrett commented that fiscal resources (salary and expenses) will be expended as a result of these rules.

RESPONSE: The additional fiscal resources (salary and expenses) will be expended as a result of 2014 Senate Bills 656 and 852, not these proposed rules. No changes have been made to the rule as a result of this comment.

REVISED PRIVATE COST: The aggregate private cost for these one hundred forty-two (142) corporate security advisors to complete the forty- (40-) hour training course and be fingerprinted is estimated to be thirty-nine thousand four hundred eighty-three dollars and ten cents (\$39,483.10) and the continued annual private cost to train and fingerprint these twenty (20) corporate security advisors will be five thousand five hundred sixty-one dollars (\$5,561), versus the less than five hundred dollars (\$500), which was submitted in the original estimate.

The department is revising the private cost estimate for this rule.

ORDER OF RULEMAKING

By the authority vested in the Department of Public Safety under section 590.750, RSMo Supp. 2014, the director adopts a rule as follows:

11 CSR 75-18.020 Minimum Training Requirements is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 2, 2015 (40 MoReg 233-234). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Public Safety received one (1) comment on the proposed rule.

COMMENT: Mr. David Barrett commented that the provision for recall of a license should not be part of the minimum training requirements.

RESPONSE: We disagree. We don't see any concern with the ability to recall a license being listed in this section of the rule. No changes have been made to the rule as a result of this comment.

ORDER OF RULEMAKING

By the authority vested in the Department of Public Safety under section 590.750, RSMo Supp. 2014, the director adopts a rule as follows:

**11 CSR 75-18.030 Continuing Education Requirements
is adopted.**

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 2, 2015 (40 MoReg 234). No changes have been made in the text of the proposed rule, so it is not reprinted here. However, there is a revised private cost for this proposed rule and that fiscal note is attached to this rule. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Public Safety received one (1) comment on the proposed rule.

COMMENT: Mr. David Barrett commented that the private entity cost for individual corporate security advisors to complete forty-eight (48) hours of continuing education in a three- (3-) year reporting period would be in excess of five hundred dollars (\$500).

RESPONSE AND EXPLANATION OF CHANGE: In speaking with a representative of the St. Louis County and St. Louis City - Office of Private Security, which was the office responsible for licensing corporate security advisors prior to the law change, we learned there were one hundred forty-two (142) corporate security advisors licensed through the St. Louis County and St. Louis City - Office of Private Security, and they estimated that twenty (20) new corporate security advisors were licensed every year because of attrition. Even though there are multiple opportunities for no or low cost continuing education training, it is not practical to think that all cor-

porate security advisors will obtain continuing education through these no or low cost methods. Therefore, the department elected to provide a more practical evaluation of the costs associated with continuing education training for corporate security advisors. In speaking with representatives of the Missouri Sheriffs' Association Training Academy, which offers both computer-based continuing education training and live continuing education training at twelve (12) separate locations throughout Missouri, we learned that they provide continuing education training at a cost of twenty dollars (\$20) per credit hour, per student. Therefore, the estimated cost of one hundred forty-two (142) corporate security advisors to obtain forty-eight (48) hours of continuing education every three (3) years will be one hundred thirty-six thousand, three hundred twenty dollars (\$136,320), or approximately forty-five thousand, four hundred forty dollars (\$45,440) per calendar year. The department has revised the private cost estimate for this rule and we have attached a private cost fiscal note to accurately reflect the aggregate training cost for corporate security advisors.

REVISED PRIVATE COST: The aggregate private cost for these one hundred forty-two (142) corporate security advisors to complete forty-eight (48) hours of continuing education training every three (3) years will be one hundred thirty-six thousand three hundred twenty dollars (\$136,320), or approximately forty-five thousand four hundred forty dollars (\$45,440) per calendar year, versus the less than five hundred dollars (\$500), which was submitted in the original estimate.

ORDER OF RULEMAKING

By the authority vested in the Department of Public Safety under section 590.750, RSMo Supp. 2014, the director adopts a rule as follows:

11 CSR 75-18.040 Change of Employment Status is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 2, 2015 (40 MoReg 234-235). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Public Safety received one (1) comment on the proposed rule.

COMMENT: Mr. David Barrett commented that the private entity cost for individual corporate security advisors to report a change of employment status to the department and to be re-fingerprinted if rehired as a corporate security advisor will exceed five hundred dollars (\$500).

RESPONSE: We disagree. The report of a change of employment can be submitted electronically to the department and the cost of being re-fingerprinted is forty-four dollars and eighty cents (\$44.80). In speaking with multiple existing corporate security officials, it is our understanding that once hired these corporate security personnel rarely transfer from one corporation to another. No changes have been made to the rule as a result of this comment.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 2, 2015 (40 MoReg 235). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Public Safety received three (3) comments on the proposed rule.

COMMENT #1: Mr. David Barrett commented that unlawful drugs are not defined – some controlled substances are unlawful unless prescribed but not others.

RESPONSE: It is clear than an applicant would not be subject to discipline for testing positive for an unlawful drug if they can show that they were lawfully prescribed a drug that can be lawfully dispensed in Missouri. No changes have been made to the rule as a result of this comment.

COMMENT #2: Mr. David Barrett commented that the determination of the commission of a criminal offense is entrusted to the judiciary upon prosecution by specific public officials under constitutional safeguards, not an administrative agency.

RESPONSE: This language mirrors section 590.080.1(2), RSMo, which allows for the discipline of a peace officer licensee for committing criminal offenses, whether or not a criminal charge has been filed. We are not aware of any successful challenge to this statutory authority. No changes have been made to the rule as a result of this comment.

COMMENT #3: Mr. David Barrett commented that acts involving moral turpitude are, by definition, crimes.

RESPONSE: We disagree. This language, in part, mirrors section 590.080.1(3), RSMo, which allows for the discipline of a peace officer licensee for committing acts of moral turpitude, a violation separate of a criminal offense. No changes have been made to the rule as a result of this comment.

**11 CSR 75-18.070 Cause to Deny Corporate Security Advisor

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 2, 2015 (40 MoReg 236). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Public Safety received one (1) comment on the proposed rule.

COMMENT: Mr. David Barrett commented that a regulation cannot strip the Administrative Hearing Commission of its power to review denial of a license – a statutory grant of that authority is required.

RESPONSE: This language mirrors section 590.100.3, RSMo, which allows the Administrative Hearing Commission to determine if the director has grounds for denial of a peace officer license applicant, while not considering the relative severity of the offense or any rehabilitation of the applicant. No changes have been made to the rule as a result of this comment.

**Title 13—DEPARTMENT OF SOCIAL SERVICES
Division 70—MO HealthNet Division
Chapter 15—Hospital Program**

ORDER OF RULEMAKING

By the authority vested in the MO HealthNet Division under section 208.152, RSMo Supp. 2014, sections 208.153 and 208.201, RSMo Supp. 2013, and section 208.158, RSMo 2000, the division amends a rule as follows:

13 CSR 70-15.220 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on February 17, 2015 (40 MoReg 176-186). The sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Social Services, MO HealthNet Division (MHD) received multiple comments from two (2) interested parties on the proposed amendment.

COMMENT #1: One (1) comment was received from Truman Medical Centers (TMC). TMC noted that while they do not oppose the proposed rule, they have issues with the funding of the DSH payments because TMC uses Intergovernmental Transfer (IGT) for the non-federal share of their DSH payments while other hospitals' DSH payments are funded by Federal Reimbursement Allowance funds. TMC feels that a more equitable use of the state share of the final DSH recoupments that are not redistributed to other hospitals would be to use such recoupments for TMC's portion of the DSH audit liability. **RESPONSE:** The MHD appreciates this comment, but does not believe this comment warrants a change to the regulation. The funding issues presented by TMC are not addressed in the reimbursement regulation; therefore, no changes have been made to the regulation as a result of this comment.

COMMENT #2: The other comments were received from the Missouri Hospital Association (MHA) and will each be addressed and responded to separately. In the first comment, MHA recommended that since subparagraph (2)(C)3.A. refers to the "trend factor(s) listed in 13 CSR 70-15.010" that such reference should include the (3)(B) reference from 13 CSR 70-15.010 for clarification purposes. **RESPONSE AND EXPLANATION OF CHANGE:** The MO HealthNet Division has removed subparagraph (2)(C)3.A. from the regulation; therefore, clarification is no longer necessary. The reason for removing this subparagraph is explained under Comment #3.

COMMENT #3: MHA commented that it is not appropriate to apply an industry-average trend based on FFS payments to Medicaid MCO payments because each hospital negotiates its payment rate with each managed care plan. MHA additionally noted that fluctuations in outpatient FFS payments from year-to-year vary significantly by hospital. Therefore, MHA recommends that subparagraph (2)(C)3.B. be changed to remove the application of the trends to the Medicaid MCO payments. **RESPONSE AND EXPLANATION OF CHANGE:** Since MHA has expressed concerns about the trends in Comment #3 and has also commented (Comment #6) that an exception process is needed related to the trends, MHD is removing all trend references from the proposed regulation and will work with the hospital industry to review the trends and the exception process further. Upon further analysis, MHD will file another proposed amendment to the regulation for the hospital industry to be able to review and comment on.

COMMENT #4: MHD recommended clarification as to whether "the division's MMIS data for the second, third, and fourth prior

years" is based on cost report year, calendar year, or state fiscal year **RESPONSE AND EXPLANATION OF CHANGE:** The MO HealthNet Division has removed subparagraph (2)(C)3.B. from the regulation; therefore, clarification is no longer necessary.

COMMENT #5: MHA recommended that in parts (3)(A)1.A.(IV) and (3)(A)1.B.(III) and subparagraphs (4)(B)1.D. and (4)(B)2.B. the word "and" following the semicolon should be removed as the word is not necessary in either referenced section. **RESPONSE AND EXPLANATION OF CHANGE:** The MO HealthNet Division has amended parts (3)(A)1.A.(IV) and (3)(A)1.B.(III) and subparagraphs (4)(B)1.D. and (4)(B)2.B. to remove one word from each section.

COMMENT #6: MHA comments that in order to ensure the hospital-specific projected UCC considers significant changes in costs and/or payments, they recommend that an exceptions process be added to section (4). MHA further noted that providing for an exception to the trend factor(s) is consistent with the goal of determining a reasonable estimate of projected UCC. **RESPONSE AND EXPLANATION OF CHANGE:** As indicated in the response to Comment #3, since MHA has expressed concerns about the trends and has also commented that an exception process is needed related to the trends, MHD is removing all trend references from the proposed regulation and will work with the hospital industry to review the trends and the exception process further. Upon further analysis, MHD will file another proposed amendment to the regulation for the hospital industry to be able to review and comment on. Also, based on these comments, MHD will be changing the effective date throughout the regulation to SFY 2017 for the basis of the interim DSH payments to be the DSH survey collected by the independent DSH auditor.

COMMENT #7: MHA recommended that clarification be added to paragraph (6)(B)4. regarding the priority of the usage of undistributed Disproportionate Share Hospital (DSH) funds as the term "and/or" provides less clarity regarding the priority for the use of such funds. **RESPONSE:** The MO HealthNet Division appreciates this comment, but does not believe this comment warrants a change to the regulation.

13 CSR 70-15.220 Disproportionate Share Hospital Payments

- (2) Definitions.
- (C) Estimated Medicaid net cost. Estimated Medicaid net cost is the cost of providing inpatient (IP) and outpatient (OP) hospital services for all Medicaid eligible individuals including dual eligible and managed care participants less payments the hospital received for claims. The estimated Medicaid net cost is determined by using Medicare cost reporting methodologies described in this rule and is calculated using data reported on the state DSH survey. Depending on the hospital's response to questions 14, 15, and 16 of the state DSH survey, versions 1, 2, and 3, the source of the Medicaid out-of-state net cost, Medicaid organ acquisition net cost, and Medicaid/Medicare crossover net cost will either be—the hospital's estimated data, an amount estimated by MHD based on the most recent annual independent DSH audit trended to the SFY the DSH payments relate to, or was determined by the hospital to be insignificant or zero.
1. The estimated Medicaid net cost determined from the state DSH surveys prior to SFY 2017 is the sum of the following estimated data from the "Settlement Calculation" tab:
 - A. In-state Medicaid inpatient net cost;
 - B. In-state Medicaid outpatient net cost;
 - C. Out-of-state Medicaid inpatient net cost;
 - D. Out-of-state Medicaid outpatient net cost;
 - E. Medicaid organ acquisition net cost; and
 - F. Medicaid/Medicare crossover net cost.

2. Beginning with SFY 2017 interim DSH payments, the estimated Medicaid net cost is determined from the state DSH survey using the "Report Summary" tab and is calculated as follows:

A. Total Cost of Care for Medicaid IP/OP Services;

B. Less Regular IP/OP Medicaid FFS Rate Payments (excluding any other Medicaid payments as defined in subsection (2)(S)); and

C. Less IP/OP Medicaid MCO Payments.

(D) Estimated uninsured net cost. Estimated uninsured net cost is the cost of providing inpatient and outpatient hospital services to individuals without health insurance or other third party coverage for the hospital services they receive during the year less uninsured payments received on a cash basis for the applicable Medicaid state plan year. The costs are to be calculated using Medicare cost report costing methodologies described in this rule and should not include costs for services that were denied for any reason.

1. The estimated uninsured net cost determined from the state DSH survey prior to SFY 2017 is calculated as the sum of the following:

A. Uninsured inpatient net cost; and

B. Uninsured outpatient net cost.

2. Beginning with SFY 2017 interim DSH payments, the estimated uninsured net cost determined from the state DSH survey using the "Report Summary" tab is the Total IP/OP Uninsured Cost of Care less Total IP/OP Indigent Care/Self-Pay Revenues.

(E) Estimated uninsured uncompensated care cost (UCC).

1. The estimated uninsured uncompensated care cost from the state DSH survey prior to SFY 2017 is the estimated uninsured net cost less Section 1011 payments.

2. Beginning with SFY 2017 interim DSH payments, the estimated uninsured uncompensated care cost from the state DSH survey using the "Report Summary" tab is the Estimated Uninsured Net Cost less the Total Applicable Section 1011 Payments.

(W) State DSH survey. The state DSH survey was designed to reflect the standards of calculating uncompensated care cost established by the federal DSH rules in determining hospital-specific DSH limits. The DSH survey is also similar to, or the same as, the DSH survey that is utilized by the independent auditor during the annual independent DSH audit performed in accordance with the federally-mandated DSH audit rules. The blank state DSH survey is referred to as the state DSH survey template. The following state DSH survey templates and instructions are incorporated by reference and made a part of this rule as published by the Department of Social Services, MO HealthNet Division, 615 Howerton Court, Jefferson City, MO 65109. This rule does not incorporate any subsequent amendments or additions.

1. Version 1 (9/10), also referred to as the 2011 state DSH survey, was used to calculate the SFY 2011 DSH payment adjustments set forth in section (3) and the SFY 2012 interim DSH payments set forth in section (4).

2. Version 2 (9/11) or Version 3 (2/12). The hospital may elect to complete either Version 2 (9/11) or Version 3 (2/12) on which its SFY 2013 interim DSH payments will be calculated. The survey shall be referred to as the SFY to which payments will relate. For example, the survey used to determine interim DSH payments for SFY 2013 will be referred to as the 2013 state DSH survey.

3. Version 3 (2/12) will be used to calculate interim DSH payments beginning with SFY 2014 as set forth in section (4). The survey shall be referred to as the SFY to which payments will relate.

4. Version 4, designated as Myers and Stauffer LC, DSH Version 7.10, will be used to calculate interim DSH payments beginning with SFY 2017 as set forth in section (4). The state DSH survey shall be the most recent DSH survey collected during the independent DSH audit of the fourth prior SFY (i.e., the most recent survey collected by the independent DSH auditor for the SFY 2013 independent DSH audit will also be used to calculate the interim DSH payment for SFY 2017). If Myers and Stauffer LC, DSH Version 7.10, is superseded by an alternate state DSH survey reporting tool, that

tool must be used for the applicable SFY. The survey shall be referred to as the SFY to which payments will relate.

(3) DSH Payment Adjustments.

(A) Beginning in Medicaid state plan year 2011, DSH payments made to hospitals will be revised based on the results of a 2011 state DSH survey. The revisions based on the 2011 state DSH survey will ensure state fiscal year (SFY) 2011 DSH payments are eligible for FFP through compliance with the federal DSH rules. These revisions are to serve as interim adjustments until the federally-mandated annual independent DSH audits are complete. Annual independent DSH audits are finalized three (3) years following the SFY year-end reflected in the audit. For example, the SFY 2011 DSH audit will be finalized in 2014. The interim adjustments shall be determined as follows:

1. 2011 estimated hospital-specific DSH limits were determined based upon the state's calculations using data provided in the 2011 state DSH survey, SFY 2011 other Medicaid payments maintained by MHD, and data provided in the final 2007 independent DSH audit, if applicable. DSH payments will be limited to the hospital's estimated hospital-specific DSH limit. The state's calculations will be based on 2011 state DSH surveys received by MO HealthNet as of May 31, 2011. However, a corrected survey may be accepted if it is supported by documentation and the state determines the correction is appropriate and has a material impact on the survey results. The state's calculations are set forth below—

A. The 2011 estimated hospital-specific DSH limit is calculated as follows:

(I) 2011 estimated Medicaid net cost from the 2011 state DSH survey;

(II) Less actual SFY 2011 other Medicaid payments;

(III) Equals 2011 estimated Medicaid uncompensated care cost;

(IV) Plus 2011 estimated uninsured uncompensated care cost from the 2011 state DSH survey;

(V) Equals 2011 estimated hospital-specific DSH limit;

B. The total 2011 estimated longfall/shortfall for each hospital is calculated as follows:

(I) 2011 estimated hospital-specific DSH limit;

(II) Less DSH payments paid by MHD during SFY 2011;

(III) Less out-of-state DSH payments received by the hospital during SFY 2011;

(IV) Equals total 2011 estimated longfall/shortfall;

C. The total 2011 estimated hospital DSH liability is an overpayment subject to recoupment which will be the SFY 2011 interim DSH payment adjustment for hospitals with an estimated longfall. The total 2011 estimated hospital DSH liability is the lesser of the—

(I) The 2011 estimated longfall; or

(II) DSH payments paid during SFY 2011;

D. Hospitals that merge their operations under one (1) Medicare and MO HealthNet provider number shall have their SFY 2011 DSH payments adjusted based on combining the results of the 2011 state DSH surveys prorated monthly for the time period the merger was effective. If a 2011 estimated DSH liability is identified, the surviving hospital assumes the responsibility for the overpayment. The calculation for combining and prorating the 2011 state DSH surveys is set forth below—

(I) The estimated hospital DSH liability prior to the merger shall be calculated as follows:

(a) The calculations set forth in subparagraphs (3)(A)1.A., (3)(A)1.B., and (3)(A)1.C. will be calculated based on each separate hospital's 2011 state DSH survey, prorated monthly for the time period prior to the merger;

(II) The estimated hospital DSH liability beginning with the month the merger is effective shall be calculated as follows:

(a) The 2011 state DSH surveys for each hospital shall be added together to yield a combined 2011 state DSH survey and prorated monthly for the time period the merger was effective. The calculations set forth in subparagraphs (3)(A)1.A., (3)(A)1.B., and

(3)(A)1.C. will be calculated for the combined 2011 state DSH survey;

(III) The total estimated hospital DSH liability for the merged entity will be the sum of the amounts determined in part (3)(A)1.D.(I) for each hospital plus the combined amount determined in part (3)(A)1.D.(II); and

E. Facilities not providing a 2011 state DSH survey shall have their SFY 2011 DSH payments revised using the most recent hospital-specific information provided to the state by the independent DSH auditor trended to the applicable SFY using the trend factor published in *Health Care Costs* by DRI/McGraw-Hill and listed in 13 CSR 70-15.010. A facility that was not included in the most recent hospital-specific information provided to the state by the independent DSH auditor shall have their entire SFY 2011 DSH payment recouped.

2. DSH payments paid during SFY 2011 that exceed the 2011 estimated hospital-specific DSH limits will be recouped from the hospitals to reduce their payments to their 2011 estimated hospital-specific DSH limit.

3. The amount of SFY 2011 DSH payments to be recouped from a hospital by the MO HealthNet Division will be limited in each state fiscal year to two percent (2%) of the hospital's taxable revenue set forth as follows. For recoupments made during SFY 2012 the recoupment amount will be limited to two percent (2%) of the hospital's SFY 2011 taxable revenue. Any balance remaining to be recouped during SFY 2013 will be limited to two percent (2%) of the hospital's SFY 2012 taxable revenue. Any balance remaining to be recouped will be incorporated in the final DSH adjustment, if applicable. The limitation on recoupment of DSH payments shall only apply to recoupments determined in accordance with section (3). No limitation on the recoupment of DSH payments shall apply if the hospital DSH liability is determined as a result of the final annual independent DSH audit set forth in section (6).

(4) Interim DSH Payments.

(B) The interim DSH payments will be calculated as follows:

1. The estimated hospital-specific DSH limit is calculated as follows:

A. Estimated Medicaid net cost from the state DSH survey calculated in accordance with subsection (2)(C);

B. Less estimated other Medicaid payments calculated by MHD in accordance with 13 CSR 70-15.010;

C. Equals estimated Medicaid uncompensated care cost;

D. Plus estimated uninsured uncompensated care cost from the state DSH survey calculated in accordance with subsection (2)(E);

E. Equals estimated hospital-specific DSH limit;

2. The estimated uncompensated care costs potentially eligible for MHD interim DSH payments excludes out-of-state DSH payments and is calculated as follows:

A. Estimated hospital-specific DSH limit;

B. Less estimated out-of-state (OOS) DSH payments;

C. Equals estimated uncompensated care cost (UCC) net of OOS DSH payments;

3. Hospitals determined to have a negative estimated UCC net of OOS DSH payments (payments exceed costs) will not receive interim DSH payments because their estimated payments for the SFY are expected to exceed their estimated hospital-specific DSH limit; and

4. Qualified DSH hospitals determined to have a positive estimated UCC net of OOS DSH payments (costs exceed payments) will receive interim DSH payments. The interim DSH payments are subject to the federal DSH allotment and the estimated hospital-specific DSH limits less estimated OOS DSH payments. The interim DSH payments will be calculated as follows:

A. Interim DSH payments to qualified DSH hospitals determined to have a positive estimated UCC net of OOS DSH payments will be calculated as follows:

(I) Up to one-hundred percent (100%) of the available federal DSH allotment will be allocated to each hospital with a positive estimated UCC net of OOS DSH payments, and the allocation shall result in each hospital receiving the same percentage of their estimated UCC net of OOS DSH payments. The allocation percentage will be calculated at the beginning of the SFY by dividing the available federal DSH allotment to be distributed by the total hospital industry's positive estimated UCC net of OOS DSH payments; and

(II) The allocated amount will then be reduced by one percent (1%) for hospitals that do not contribute through a plan that is approved by the director of the Department of Health and Senior Services to support the state's poison control center and the Primary Care Resource Initiative for Missouri (PRIMO) and Patient Safety Initiative.

(8) State DSH Survey Reporting Requirements.

(A) Prior to SFY 2017, each hospital participating in the MO HealthNet program shall submit a state DSH survey prescribed by the state MO HealthNet agency and must be submitted by December 31 of each year. However, a corrected survey may be accepted if it is supported by documentation and the state determines the correction is appropriate and has a material impact on the survey results. The state DSH survey for each interim DSH payment period shall be completed based on the third prior year Medicare cost report adjusted to reflect anticipated operations for the interim DSH payment period. The historical Medicare cost report data may be adjusted for inflationary trends, volume adjustments, changes in reimbursement methodology, and/or other business decisions (i.e., expanded or terminated services, etc.) For example, the state DSH survey that will be used to determine SFY 2013 interim DSH payments will be based on the state DSH survey completed using the 2010 Medicare cost report data adjusted by the hospital to 2013.

1. If a new facility does not have a third prior year Medicare cost report, the state DSH survey shall be completed using the second prior year Medicare cost report, if available, adjusted to reflect anticipated operations for the interim DSH payment period.

2. If a new facility does not have a second prior year Medicare cost report, the state DSH survey shall be completed using the prior year Medicare cost report, if available, adjusted to reflect anticipated operations for the interim DSH payment period.

3. If a new facility does not have a prior year Medicare cost report, the state DSH survey shall be completed using facility projections to reflect anticipated operations for the interim DSH payment period. Interim DSH payments determined from this state DSH survey are limited to the industry average estimated interim DSH payment as set forth in subsection (4)(F).

(B) DSH surveys collected during SFY 2016 will be used to calculate SFY 2017 interim DSH payments. Beginning in SFY 2016, each hospital must complete and submit the state DSH survey set forth in paragraph (2)(W)4. to the independent DSH auditor, the MO HealthNet Division's authorized agent, in order to be considered for an interim DSH payment. The state DSH survey is due to the independent DSH auditor by the March 1 preceeding the beginning of each state fiscal year (i.e., the state DSH survey used for SFY 2017 interim DSH payments will be due to the independent DSH auditor by March 1, 2016). Hospitals that do not submit the state DSH survey by March 1 will not be eligible to receive an interim DSH payment for that SFY.

1. A new facility that does not have cost report data for the fourth prior year may complete the state DSH survey using actual, untrended cost and payment data from the most recent twelve- (12-) month cost report filed with the division.

2. A new facility that has not yet filed a Medicaid cost report with the division may complete the state DSH survey using facility projections to reflect anticipated operations for the interim DSH payment period. Trends shall not be applied to the data used to complete the state DSH survey. Interim DSH payments determined from this

state DSH survey are limited to the industry average estimated interim DSH payment as set forth in subsection (4)(F).

3. Hospitals may elect not to receive an interim DSH payment for a SFY by completing a DSH Waiver form. Hospitals that elect not to receive an interim DSH payment for a SFY must notify the division, or its authorized agent, that it elects not to receive an interim DSH payment for the upcoming SFY. If a hospital does not receive an interim DSH payment for a SFY, it will not be included in the independent DSH audit related to that SFY, and will not be eligible for final DSH audit payment adjustments related to that SFY unless it submits a request to the division to be included in the independent DSH audit.

4. If a hospital received an interim DSH payment and later determined that it did not have uncompensated care costs for Medicaid and the uninsured to support part or all the interim DSH payment that it received or is receiving, the hospital may request that the interim DSH payments be stopped or it may return the entire interim DSH payment it received.

5. **Extraordinary Circumstances.** A hospital may submit a request to the division to complete the state DSH survey using the actual, untrended cost and payment data from the most recent twelve- (12-) month cost report filed with the division in lieu of the fourth prior year if it experiences extraordinary circumstances. The division may, at its discretion and for good cause shown, accept such survey and use it in determining the interim DSH payment for the upcoming SFY. The request must be submitted to the division within fourteen (14) days of receiving the state DSH survey template for the SFY and include an explanation of the extraordinary circumstance, the impact it had on the state DSH survey period, and how it causes the data to be materially misstated or unrepresentative. The division shall review the facility's request and notify the facility of its decision regarding the request. The state DSH survey shall be completed using the data period approved by the division and is due by the March 1 preceeding the beginning of each SFY.

A. Extraordinary circumstances include unavoidable circumstances that are beyond the control of the facility and include the following:

(I) Act of nature (i.e., tornado, hurricane, flooding, earthquake, lightning, natural wildfire, etc.);

(II) War;

(III) Civil disturbance; or

(IV) If the data to complete the state DSH survey set forth in paragraph (2)(W)4. is not available due to a change in ownership because the prior owner is out of business and is uncooperative and unwilling to provide the necessary data.

B. A change in hospital operations or services (i.e., terminating or adding a service or a hospital wing; or, a change of owner, except as noted in part (8)(B)5.A.(IV), manager, control, operation, leaseholder or leasehold interest, or Medicare provider number by whatever form for any hospital previously certified at any time for participation in the MO HealthNet program, etc.) does not constitute an extraordinary circumstance.

6. **Interim DSH Payment Adjustment.** A hospital may request an adjustment to its interim DSH payment if it can provide a revised state DSH survey completed using actual, untrended cost and payment data from the most recent twelve- (12-) month cost report filed with the division that demonstrates the hospital's revised estimated hospital-specific DSH limit is materially different from the estimated hospital-specific DSH limit calculated by the division. The division may, at its discretion and for good cause shown, accept such survey and use it in determining a revised interim DSH payment for the SFY. The division will process interim DSH payment adjustments once a year. After all requests are received, the division will determine whether revisions to the interim DSH payments are appropriate. Any revisions to the interim DSH payments are subject to the unobligated DSH allotment remaining for the SFY and availability of state funds.

A. The request must meet the following criteria to be considered:

(I) The request must be submitted by December 31 of the current SFY for which interim DSH payments are being made;

(II) The request must be accompanied by a completed, revised state DSH survey based on actual, untrended cost and payment data from the most recent twelve- (12-) month cost report filed with the division;

(III) The request must include an explanation of the change in the hospital's operations, services, or other circumstances causing the original state DSH survey to be materially misstated or unrepresentative, including the impact it had on the state DSH survey period and how it causes the data to be materially misstated or unrepresentative; and

(IV) The revised estimated hospital-specific DSH limit must be at least eighty percent (80%) higher than the estimated hospital-specific DSH limit calculated by the division. No trends shall be applied to the revised state DSH survey in determining the revised estimated hospital-specific DSH limit.

B. Interim DSH payment adjustments will be calculated as follows:

(I) The DSH allotment for the SFY that has not otherwise been obligated will be distributed proportionally to the hospitals determined to meet the above criteria, based on the revised estimated hospital-specific DSH limit, less OOS DSH payments, subject to the availability of state funds.

19 CSR 10-33.010 Reporting Patient Abstract Data by Hospitals and Ambulatory Surgical Centers is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 2, 2015 (40 MoReg 239–260). No changes were made to the text of the rule, however the file specifications document was removed, as it should not have been published in the rule due to it being incorporated by reference. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Health and Senior Services (DHSS) received one (1) comment from a DHSS staff member.

COMMENT #1: A DHSS staff member commented that an incorrect version of the file layout was printed in the *Missouri Register*. In addition, the file layout is incorporated by reference, and was not intended to be printed in the actual rule. The “Patient Abstract System File Specifications” on pages 243–258 should not have been published.

RESPONSE AND EXPLANATION OF CHANGE: The DHSS agrees that this is an error. The correct file layout is posted on the DHSS website at <http://health.mo.gov/data/pdf/paslayout.pdf>, is incorporated by reference in the rule, and will not be published in the rule in the *Code of State Regulations*. The “Patient Abstract System File Specifications” version 10-27-2014 has been incorporated by reference and not printed within the text of the rule.

Chapter 2—General Rules**

ORDER OF RULEMAKING

By the authority vested in the Missouri Dental Board under section 332.031, RSMo 2000, the board amends a rule as follows:

20 CSR 2110-2.210 is amended.

SUMMARY OF COMMENTS: The board received one (1) comment on the proposed amendment.

SUMMARY OF COMMENTS: Harvey Tettlebaum with Husch Blackwell commented on behalf of the Missouri Dental Association that the proposed amendment could be interpreted to require dentists to report information about a patient who receives an injury regardless of whether the injury is a result of care provided by the dentist.
RESPONSE AND EXPLANATION OF CHANGE: Based upon this comment, section (1) will be changed to add language specifying that the injury requiring a report to the board is related to treatment provided by the reporting dentist.

20 CSR 2110-2.210 Notice of Injury or Death

(1) A dentist who practices in this state shall submit a report to the board within thirty (30) days of any mortality or any injury requiring medical attention and/or treatment from a licensed healthcare provider which occurs to a patient during treatment or within twenty-four (24) hours of receiving treatment from the dentist that resulted in mortality or injury.
