Chapter 2—Practice and Procedure

4 CSR 265-2.010 Definitions

PURPOSE: This rule defines terms used in the rules comprising 4 CSR 265-2 Practice and Procedure.

Editor's Note: The following material is incorporated into this rule by reference:

1) *Missouri Division of Transportation, Single State Registration System (SSRS) Procedures Manual (Jefferson City, MO: Department of Economic Development Revised July 1, 1994);*

2) *Section 4005 of Title IV of Public Law 102-240 (49 U.S. Code 11506) (Washington: U.S. Government Printing Office, 1993).*

In accordance with section 536.031(4), RSMo, the full text of material incorporated by reference will be made available to any interested person at the Office of the Secretary of State and the headquarters of the adopting state agency.

(1) Administrative law judge means one of the administrative law judges appointed to the division.

(2) Administrative law judge section means the section of the division consisting of the three (3) administrative law judges, acting together or independently.

(3) Applicant means any person on whose behalf application is made before the division for permission or authorization which the division is empowered to grant under its statutory or other delegated authority.

(4) Complainant means any person, corporation or municipality on whose behalf a complaint is filed with the division.

(5) Corporation includes a corporation, company, association or joint stock association, or limited liability company.

(6) Counsel means the counsel to the division and includes all deputies and assistants.

(7) Director means the chief administrative officer of the division.

(8) Division means the Division of Transportation as created by Chapter 622, RSMo.

(9) Division staff means all division personnel other than those individuals assigned to the administrative law judge section.

(10) Intervenor means a person petitioning to intervene before the division, either in support of or in opposition to the relief being requested, and who is granted the right to participate as a party.

(11) Municipality includes a city, town, village, county or other political subdivision.

(12) Participant without intervention means any person allowed by the division to take part in a proceeding before it without formal intervention or designation as a party.

(13) Partnership is an association of two (2) or more persons to carry on as co-owners a business for profit and includes a registered limited liability partnership.

(14) Party includes any applicant, complainant or respondent and any person having intervened in proceedings before the division.

(15) Person includes any individual, business entity or governmental entity.

(16) Pleading means any application, complaint, petition, answer, protest or motion made to the division, including any appendices, documents and exhibits attached to or incorporated by reference in the pleading.

(17) Respondent means any person against whom any complaint is filed or to whom an order or notice is issued by the division on its own initiative instituting a proceeding or an investigation.

(18) Shipper means the person who controls the transportation provided by a carrier, and refers to the actual shipper rather than an intermediary. The shipper may be nominally either the consignor or consignee, but must be one or the other. The payment of the charges for the transportation is evidence that the person who pays is the person who controls the transportation, and the person who pays is presumed to be the shipper. However, this presumption is rebuttable, and can be rebutted by evidence demonstrating that a person not paying the transportation charges actually controls the selection of the carrier and the routing of the shipment, who would be presumed to be the shipper in such an instance.

(19) *Single State Registration System (SSRS) Procedures Manual* means the procedures

manual for the registration of interstate motor carrier operations in this state under the authority of the Interstate Commerce Commission (ICC), which implements the SSRS under Section 4005 of Title IV of P.L. 102-240 (49 U.S.C. 11506), and which is adopted by the division.

4 CSR 265-2.055 Name and Address Changes for Motor Carriers, Railroad Corporations and Certain Contracting Shippers

PURPOSE: This rule requires motor carriers and railroad corporations to notify the division of changes of their names (including fictitious names) and any change of address of their principal place of business, prescribes the procedures for those changes, and requires intrastate motor contract carriers of passengers or household goods to notify the division of changes in the name or address of contracting shippers they are authorized to serve under their contract carrier permits.

Editor's Note: The following material is incorporated into this rule by reference:

1) Missouri Division of Transportation, Single State Registration System SSRS Procedures Manual (Jefferson City, MO: Department of Economic Development, Revised July 1, 1994).

In accordance with section 536.031(4), RSMo, the full text of material incorporated by reference will be made available to any interested person at the Office of the Secretary of State and the headquarters of the adopting state agency.

(1) A motor carrier's change of address from one (1) state to a different state and a motor carrier's change of name shall not be recognized by the division until approved by order of the division's administrative law judge. Until the carrier has filed with this division the request and documentation required under this rule, and until an order approving any motor carrier's change of address to a different state or motor carrier's change of name has been issued, the division may continue to mail or deliver any notices, orders and other correspondence to the carrier in the previous name and at the previous address as it appears on record with the division, and this mailing or delivery shall be valid as if no change of name or address had occurred.

(2) Motor carriers holding intrastate operating authority from this division shall file with the division, not later than five (5) days after a change of name (including any fictitious name) or change of address of their principal place of business becomes effective, a written request that the division record the carrier's change of name, change of address, or both. The request shall state the numbers of every certificate and permit issued to that carrier by the division and currently in force, including both active and suspended authority. The division shall not recognize or approve a change of name or change of address under this section until the carrier has complied with the following requirements:

(A) New certificates of insurance or surety bonds setting forth the carrier's new name and address shall be filed with and approved by the division, in accordance with 4 CSR 265-10.030;

(B) If the change involves any change of name by a corporation, limited liability partnership or any change of fictitious name of any person holding intrastate operating authority, notice of the change of name or change of fictitious name shall be filed with the Missouri secretary of state, as otherwise required by law; and

(C) If the carrier becomes a nonresident as a result of a change of address and the carrier does not maintain an office or agent in this

state, it shall file with the division a writing which designates the director of this division as the carrier's authorized agent upon whom legal service may be had in all actions arising in this state from any operation of a motor vehicle under authority of any certificate or permit issued to the carrier.

(3) Motor carriers holding Interstate Commerce Commission (ICC) operating authority which have been registered with this division, as required under 4 CSR 265-2.065, shall notify this division of every change of name or address as required by the *Single State Registration System (SSRS) Procedures Manual*.

(4) Motor carriers holding an interstate permit issued by this division authorizing operations exempt from ICC regulation shall notify this division of every change of name (including fictitious names), and every change of address of their principal place of business, in writing, within five (5) days after the effective date of the change. The division shall not recognize or approve a change of name or change of address under this section until the carrier has complied with the following requirements:

(A) In the case of a change of name, the carrier shall file with the division a new Uniform Application for Registration of Interstate Operations Exempt from Economic Jurisdiction of ICC (Form A-1), clearly marked in the upper right-hand corner with the words Name Change Only or Name and Address Change and the carrier's interstate permit number assigned by this division; and

(B) New certificates of insurance or surety bonds setting forth the carrier's new name and address shall be filed with and approved by the division, in accordance with 4 CSR 265-10.030.

(5) If a motor carrier's change of name involves any change in the form of business entity owning the operating authority, such as changing from an individual to a partnership or corporation, or changing from a corporation or partnership to an individual, these changes are transfers within the meaning of section 390.111, RSMo. Except as otherwise provided under subsections (3)(A) and (4)(A) of this rule, both the transfer or and transferee shall apply to the division for approval of every transfer as required under 4 CSR 265-2.066.

(6) Motor carriers holding authority from this division to operate both in intrastate and interstate commerce shall comply with all applicable provisions of sections (1)–(5) of this rule.

(7) Every railroad corporation, within the meaning of section 386.020, RSMo, which owns, holds, operates, controls or manages a railroad located within this state shall notify this division of every change of its true name, fictitious or assumed name, address of its principal office, and mailing address, if different, within five (5) days after the change of name or address becomes effective, by filing with the division a written request by an authorized employee, officer or agent of the railroad corporation, that the division record the carrier's new name and address. Until the carrier has filed with this division the request and documentation required under this rule, and until an order approving any rail carrier's change of address to a different state or rail carrier's change of name has been issued, the division may continue to mail or deliver any notices, orders and other correspondence to the carrier in the previous name and at the previous address as it appears on record with the division, and this mailing or delivery shall be valid as if no change of name or address had occurred.

(8) Every contract carrier holding a contract carrier permit issued by the division under section 390.061, RSMo, which authorizes the intrastate transportation of passengers or household goods, shall file with the division, not later than five (5) days after learning of any change of name or change of address of a contracting shipper named in the permit, a written request that the division record the shipper's change of name, change of address, or both. The request shall state the carrier's own name and the number assigned to the contract carrier permit by the division, together with the former name and address of the shipper, and the new name and address of the shipper. The carrier shall attach a copy of a letter or other writing from the shipper giving notice of the change of name or address, or both. This section shall also apply if the shipper's change of name involves any change of the entity under contract with the carrier, by incorporation, merger or consolidation of the shipper, or by the shipper's assignment or delegation of the contract or contract rights to another entity.

**4 CSR 265-2.057 Interpretation of Federal Preemption Under Section 601 of the Federal Aviation Administration Authorization Act of 1994**

PURPOSE: This rule sets forth the division's interpretation of the effects of federal preemption on its regulation of intrastate motor carriers of property (except household goods) in Missouri intrastate commerce.

Editor's Note: The following material is incorporated into this rule by reference:

- 1) *Federal Aviation Administration Authorization Act of 1994 (H.R. 2739, 103d Congress, 2d Session) (49 U.S. Code sections 11501(h) and 41713(B));*
- 2) *49 Code of Federal Regulations section 172.101; and*
- 3) *49 Code of Federal Regulations parts 100—177.*

In accordance with section 536.031(4), RSMo, the full text of material incorporated by reference will be made available to any interested person at the Office of the Secretary of State and the headquarters of the adopting state agency.

(1) Effective January 1, 1995, under Section 601 of the Federal Aviation Administration Authorization Act of 1994 (H.R. 2739, 103d Congress, 2d Session) (49 U.S.C. sections 11501(h) and 41713(b)), the states generally can no longer enact or enforce any law, regulation or other provision having the force and effect of law relating to the prices, routes, or services of any motor carrier with respect to the transportation of property (except household goods). This preemption does not restrict the regulatory authority of the state with respect to motor vehicle safety, which the division interprets as including the safe transportation of hazardous materials by motor vehicle, or the authority of a state to regulate motor carriers with regard to minimum amounts of financial responsibility relating to insurance requirements and self-insurance authorization. This section sets forth the division's interpretation of the effects of this preemptive federal law.

(2) The federal preemption does not relieve any person who engages in the business of a motor carrier of property on the public highways, and whose vehicles are not exempted under section 390.030, RSMo, from the requirement of having in force a certificate under section 390.051.1., RSMo, or a permit under section 390.061.1., RSMo. But, the division interprets the preemption as modifying the standards and procedures applicable to issuing such certificates and permits. Until

receiving further legislative direction from the Missouri general assembly as provided by law, the division shall issue new certificates and permits authorizing the transportation of property (except household goods) under the standards and procedures prescribed by law which are not preempted by Section 601 of the Federal Aviation Administration Authorization Act of 1994, as interpreted by this rule and any other applicable division rules.

(3) Certificates or permits issued by the division and in force on December 31, 1994, and which authorize a person to transport any property as a common carrier or contract carrier by motor vehicle, shall remain in force (unless suspended or revoked by order of the division as provided by law), and shall be interpreted after December 31, 1994, as certificates and permits authorizing that person to transport property (except household goods) as a common carrier and as a contract carrier by motor vehicle on the public highways between all points within Missouri; except that no certificate or permit issued by the division shall be interpreted as authorizing the intrastate transportation of any hazardous material as designated in 49 CFR section 172.101, in any quantity or manner which is subject to regulation under 49 CFR parts 100—177, except hazardous materials expressly authorized in that certificate or permit.

(4) The statutory difference between "common carrier" and "contract carrier", as those terms are defined in section 390.020, RSMo, is directly related to the service provided by the motor carrier, in that a common carrier serves the general public, but a contract carrier is restricted to serving contracting shippers only, under individual transportation contracts. The division concludes that under the federal preemption no meaningful distinction between common carriers and contract carriers can be enforced by the state with respect to the transportation of property (except household goods). After December 31, 1994, every applicant who demonstrates that it is qualified to engage in the business of a motor carrier of property (except household goods) in intrastate commerce, as required by this rule, shall be granted a certificate and permit to operate in intrastate commerce both as a common carrier and as a contract carrier. Contract carriers of property (except household goods) in Missouri intrastate commerce after December 31, 1994, shall no longer be required to file transportation contracts with the division. After December 31, 1994, contract carrier permits issued by the division shall be interpreted as not limiting

the transportation of property (except household goods) for any specific contracting parties, and shall not name specific contracting shippers with respect to the transportation of property (except household goods).

(5) Section 601 of the Federal Aviation Administration Authorization Act of 1994 expressly states that its general rule of preemption shall not restrict the safety regulatory authority of a state with respect to motor vehicles. All applicants for intrastate certificates and permits under this rule shall be carefully examined to determine their safety fitness to transport property by motor vehicle upon the public highways. Under the division's safety regulatory authority, it has previously authorized and will continue to authorize the transportation of hazardous materials (as defined in 49 CFR part 172) by motor vehicle upon the public highways to the extent that applicants demonstrate their qualifications to transport those commodities safely, and their satisfactory compliance with all applicable laws and regulations governing the transportation of hazardous materials by motor vehicle.

(6) Whenever a motor carrier which holds an intrastate certificate or permit or both requests from this division a copy of its certificate or permit or both, or the division reissues a motor carrier's intrastate certificate or permit or both for any other lawful reason, except as otherwise provided in 4 CSR 265-2.060(8) and 4 CSR 265-2.065(7)(C), the division staff may file a pleading proposing a restatement of the carrier's operating authority, as modified by the federal preemption and interpreted in the division's rules. A motor carrier may also request the division to restate its intrastate certificate or permit or both, by a pleading filed with the division at any time in accordance with the requirements of division rule 4 CSR 265-2.080.

(A) The division shall serve the proposed, restated certificate or permit or both on the motor carrier, with an order of an administrative law judge directing that the carrier may object to the proposed restatement of the certificate or permit or both, by filing a written pleading to be received by the division within twenty (20) days after the date of service of the division staff's proposed, restated certificate or permit or both. The motor carrier may informally discuss the proposed restatement of the certificate or permit or both, and any objections, with the division's counsel, but absent an appropriate order from the administrative law judge, that shall not extend the time for pleading any objections.

(B) If no objection is timely received, then the division shall issue a restated certificate or permit or both in conformity with the proposed, restated certificate or permit or both, without further proceedings.

(C) If a written objection is timely received, the division's general counsel shall consider the basis for the objection, and may direct the reissuance of a proposed certificate or permit or both, as amended in response to the motor carrier's objection. If the general counsel concludes that the objection is not well-founded, s/he shall serve notice of this conclusion on the carrier, which shall also notify the carrier that it may request a hearing on the objection before an administrative law judge, by the filing of a written request for a hearing, to be filed within twenty (20) days after service of the notice.

(D) If the carrier timely files a request for hearing on the carrier's objection to the proposed, restated certificate or permit or both, then the division shall set the matter for hearing and decision by an administrative law judge.

**4 CSR 265-2.065 Applications for Interstate Motor Carrier Permits and Intrastate Regular Route Passenger Certificates Issued Pursuant to 49 U.S.C. Section 10922(c)(2)**

PURPOSE: This rule sets forth the requirements which an application for interstate motor carrier permits, certain intrastate regular route passenger certificates and transfer of those certificates must meet.

Editor's Note: The following material is incorporated into this rule by reference:

- 1) *Missouri Division of Transportation, Single State Registration System (SSRS) Procedures Manual (Jefferson City, MO: Department of Economic Development, Revised July 1, 1994);*
 - 2) *49 U.S. Code section 10922(c)(2); and*
 - 3) *Trucking Industry Regulatory Reform Act of 1994 (H.R. 2178, 103d Congress, 2d Session) (49 U.S. Code section 10936).*
- In accordance with section 536.031(4), RSMo, the full text of material incorporated by reference will be made available to any interested person at the Office of the Secretary of State and the headquarters of the adopting state agency.*

(1) Registration of ICC Authorized Operations—Applications for permits registering interstate motor carrier operations authorized by a certificate or permit issued by the Interstate Commerce Commission (ICC) shall be made as required by the *Single State Registration System (SSRS) Procedures Manual*, which is adopted by the division. Except as otherwise specifically provided in this chapter or 4 CSR 265-10 with reference to operations under ICC authority, the SSRS Procedures Manual shall govern the registration, licensing, proof of insurance coverage and designation of process agents of all vehicles operated in Missouri under ICC authority.

(2) Registration of ICC Exempt Operations—If the applicant for an interstate permit is to perform a service that is exempt from ICC regulation, but which is not exempt under the provisions of Chapter 390, RSMo, the application shall be made on Form A-1—Uniform Application for Registration of Interstate Operations Exempt from Economic Jurisdiction of ICC. The forms for the applications may be obtained from the Division of Transportation, P.O. Box 1216, Jefferson City, MO 65102.

(3) Required Documentation—Except as provided in section (1) of this rule, or other rules of the division, all applications and exhibits

required under this rule shall not be accepted for filing with the division until the division has received the following:

(A) Completed Application Form and Exhibits—A completed application on the prescribed form, if any, including any exhibits required, which shall be verified as required by subsection (3)(D) and signed as required by section (5) of division rule 4 CSR 265-2.080;

(B) Liability Insurance and Fees—Form E—Uniform Motor Carrier Bodily Injury and Property Damage Liability Certificate of Insurance, or Form G—Uniform Motor Carrier Bodily Injury and Property Damage Surety Bond, executed in triplicate by the applicant's insurance provider, which shall provide liability insurance coverage in the required form and shall be filed with and approved by the division only in accordance with the requirements of 4 CSR 265-10.030; or in the alternative, notice that the applicant has been approved for self-insurance by order of this division, in accordance with the requirements of section 390.126.1., RSMo, and division rules 4 CSR 265-10.030 and 4 CSR 265-2.068;

(C) Vehicle Licensing and Fees—Form B-1—Uniform Application for Licensing of Vehicles or Driveaway Operations, showing the number and type of vehicle licenses requested by the applicant for each motor vehicle to be operated in Missouri under the requested operating authority during the current license year, together with payment by a certified check or money order payable to Director of Revenue, of the aggregate license fees payable under 4 CSR 265-10.020; and

(D) Verification—The application shall be completed and verified under oath or penalty of perjury by the applicant, or by an authorized representative of the applicant, and if the application involves the transfer of a certificate or permit or both, the transferor's statement shall also be completed and verified under oath or penalty of perjury by the transferor, or by an authorized representative of the transferor. All verifications shall be made upon personal knowledge, or reasonable information and belief of the matters verified. The application shall include the original signature of the natural person who verifies it, and the original signature of the applicant's attorney, if any.

(4) Registration of Both ICC Authorized and ICC Exempt Operations—If operations to be performed by the applicant include service as authorized by the ICC as well as service under an exemption from ICC jurisdiction, the applicant shall comply with sections (1)—(3) of this rule.

(5) Intrastate Transportation of Passengers over Interstate Regular Routes—Not later than thirty (30) days after a motor carrier begins providing intrastate transportation of passengers within Missouri over its interstate regular routes, as authorized in a certificate issued by the ICC under 49 U.S.C. section 10922(c)(2), the carrier shall apply for the issuance of an intrastate certificate under this section. These applications shall be filed on Form MO-2, Application for a Certificate or Permit to Operate in Intrastate Commerce Transporting Household Goods or Passengers, which shall be completed and filed in triplicate with the division and shall not be accepted for filing with the division until the division has received the information required in section (3) of this rule and the following:

(A) A registration receipt issued by the carrier's registration state under the SSRS showing Missouri as an authorized state of travel;

(B) A copy of the ICC certificate which authorizes the applicant to provide regular route transportation of passengers in intrastate commerce over its authorized interstate routes within Missouri; and

(C) The carrier's time schedule for the intrastate passenger transportation service, as required under 4 CSR 265-10.050(11).

(6) Interpretation of Trucking Industry Regulatory Reform Act (T.I.R.R.A.)—The provisions of Section 211, Title II, of the Trucking Industry Regulatory Reform Act of 1994 (H.R. 2178, 103d Congress, 2d Session) (49 U.S.C. section 10936) preempt the requirements of state laws and regulations relating to intrastate fares for the transportation of passengers by bus, by an interstate motor carrier of passengers, over a route authorized by the ICC. Because of this federal preemption, the division will no longer require the filing of rate tariffs for the transportation of passengers in Missouri intrastate commerce by ICC-authorized interstate bus operators, over routes authorized by the ICC. This preemption of intrastate rate and tariff requirements for such carriers does not relieve any carrier from the requirements of obtaining intrastate operating authority under section 49 U.S.C. section 10922(c)(2) or section 390.051.1., et seq., RSMo.

(7) Transfer of an Interstate Permit—Applications to transfer ownership of an interstate permit issued by this division, except as provided in a change of name under 4 CSR 265-2.055(3)(A) and (4)(A), shall be filed as follows:

(A) If the interstate permit to be transferred registers interstate operations within this state as authorized by the Interstate Commerce Commission (ICC), the transfer or shall notify the registration state to cancel its interstate registration, and the transferee shall file completed documents to register the transferred interstate operating authority in the registration state like all new registrants. The registration receipts of the transfer or shall be reissued in accordance with the SSRS Procedures Manual;

(B) If the interstate permit to be transferred registers interstate operations that are exempt from ICC regulation, an original Uniform Application for Registration of Interstate Operations Exempt from Economic Jurisdiction of ICC (Form A-1) (see 4 CSR 265-2.055), clearly marked in the upper right-hand corner with the word Transfer and the carrier's interstate permit number assigned by the division; and

(C) Division staff's review of each proposed transfer of a certificate or permit shall include a consideration of how the proposed transfer will affect the transferor's and transferee's other operating authority, if any. Division staff may file, together with any recommendation or motion in the case, a proposed certificate or permit for the transferee and, if the transfer or is to retain any authority from the division after the transfer, a proposed certificate or permit for the transfer or also, setting forth the proposed authority as if the proposed transfer were approved by the division. In setting forth the proposed operating authority, division staff shall apply the principles of merger with reference to duplicated or overlapping authority as provided in 4 CSR 265-2.190 and, in accordance with those principles, may edit or modify the authority to delete extra pieces of authority that are deemed to be merged and no longer effective as separate pieces of authority, or to correct spelling, typographical, grammatical or format errors not altering the substance of the authority. Division staff shall serve copies of the proposed certificate(s) or permit(s) upon both the transfer or and the transferee. If neither of the applicants objects to the proposed certificate(s) or permit(s) before the effective date of the order of transfer, then their objections, if any, shall be waived and the division may issue the resulting certificate(s) or permit(s) as proposed by division staff, unless otherwise ordered by the administrative law judge. The administrative law judge shall determine any timely-filed objections to division staff's proposed certificate(s) or permit(s).

(8) Hearing—The division, at its discretion, in specific cases, may require an application made under this rule to be set for hearing.

(9) Form of Applications—The following requirements also apply to motor carrier applications under this rule:

(A) Photocopied Forms, Original Signatures—Photocopies of the prescribed application and exhibit forms may be filed in lieu of the printed forms, if they are clearly legible, but the application shall include the original signature of every person whose signature is required;
