(A) On a quarterly calendar basis, except as noted—

1. Audit the respective quarter's adjusted gross receipts and related taxes from gambling games, and total number and amount of fees received from admissions in order to report on the fair presentation of such amounts. A reconciliation of these audited amounts to similar amounts in monthly financial reports required by 11 CSR 45-8.050 shall be provided;

2. Consider, in connection with the audit of adjusted gross receipts and admission fees referred to in paragraph (1)(A)1., the related internal control structure and report whether there exists any material weaknesses and report any reportable conditions identified. This evaluation shall include, at a minimum, walk-throughs of the internal control system, inquiries of licensee personnel, examination of supporting documents and unannounced observations of pit activity and table games and electronic gaming device drop and count procedures. For purposes of these procedures, unannounced means that no officers, directors or employees of the licensee are given advance information regarding the dates or times of the observations; and

(B) On an annual basis—

1. Report on reportable conditions found during the annual audit of the licensee's financial statements. A reportable condition shall be defined as a significant deficiency in the design or operation of the internal control structure, which would adversely affect the licensee's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. Reportable conditions that are also material weaknesses shall be identified as such in the report; and

2. Audit, in accordance with generally accepted auditing standards, the licensee's annual financial statements covering all financial activities of the licensee's operation in order to report on the fair presentation of the financial statements in conformity with generally accepted accounting principles. The audited annual financial statements must be prepared in a format consistent with the reporting requirements under 11 CSR 45-8.050(2). Unless the commission approves otherwise in writing, these statements must be prepared on a comparative basis. If the licensee or a person controlling, controlled by or under common control with the licensee owns or operates room, food or beverage facilities at the establishment, the financial statements must cover those operations as well as gaming operations;

(C) Sixty (60) days prior to the commencement of the annual financial audit, the independent C.P.A. shall submit to the commission a detailed written audit plan for approval. The audit plan shall include a complete description of procedures to be performed by the licensee's internal auditor, if applicable. At its discretion, the commission may require the independent C.P.A. to perform additional testing and/or procedures; and

(D) The licensee's internal auditor may provide direct assistance to the independent C.P.A. during the annual financial audit only pursuant to commission approval of the audit plan.

(2) The licensee shall prepare and send to the commission a written response to the independent C.P.A. reports required by paragraphs (1)(A)2. and 3., (1)(B)1. and 2. The

(B) Annual reports shall be due not later than ninety (90) calendar days after the last day of the licensee's fiscal year or ten (10) days after Form 10-K is filed with the Securities and Exchange Commission, whichever comes first.

(4) In the event of a license termination, change in business entity or a change in the percentage of ownership of more than twenty percent (20%), the licensee or former licensee, not later than ninety (90) days after the event, shall submit to the commission four (4) copies of audited financial statements covering the period since the period covered by the previous statement. If a license termination, change in business entity or a change in the percentage of ownership of more than twenty percent (20%) occurs within ninety (90) days after the end of business year for which a statement has not been submitted, the licensee may submit statements covering both the business year and the final period of business.

(5) If a licensee changes its business year, the licensee shall prepare and submit audited financial statements to the commission covering the stub period from the end of the previous business year to the beginning of the new business year not later than ninety (90) days after the end of the stub period or incorporate the financial results of the stub period in the statements for the new business year.

(6) If the licensee is publicly held, the licensee shall submit to the commission one (1) copy of any report, including Forms S-1, 8-K, 10-Q and 10-K, required to be filed by the licensee or affiliates with the Securities and Exchange Commission or other domestic or foreign securities regulatory agency, at the time of filing with that commission or agency.

(7) Delays in mailing, mail pickups and post-markings are the licensee's responsibility.

(8) The commission may request additional information and documents from either the licensee or the licensee's C.P.A., through the licensee, regarding the financial statements or

the services performed by the accountant. Failure to submit the requested information or documents is an unsuitable method of operation.

(9) All of the audits and reports required by this rule, and any special audits of a licensee required by the commission or its director, shall be prepared at the sole expense of the licensee.

(10) Any audits conducted in accordance with this rule, shall be conducted by independent C.P.A.s registered or licensed in Missouri under Chapter 326, RSMo, and selected by the commission. The commission shall consider the following:

11 CSR 45-8.130 Tips or Gratuities

PURPOSE: This rule establishes regulations for tips.

(1) Unless as provided in this rule, no occupational licensee may accept tips or gratuities. Level II occupational licensees may accept tips or gratuities for work, or paid leave based on work, that is performed in a nonsupervisory capacity as a dealer, cage cashier, slot attendant, food and beverage personnel, valet, ticketing personnel or other personnel as approved by the director. No occupational license applicant or occupational licensee shall solicit any tip or gratuity from any player or patron of the riverboat gaming operation where employed or working.

(2) Occupational license applicants or occupational licensees eligible to accept tips or gratuities shall receive such tips or gratuities only in the form of currency, chips and tokens.

(3) No dealers, cage cashiers or slot attendants shall accept currency as a tip or gratuity from any player or patron unless the Class A licensee allows such a practice and has provided procedures for accepting such tip or gratuity in its internal controls which have been approved by the commission. All tips and gratuities given to dealers, cage cashiers and slot attendants shall be—

(A) Immediately deposited into a transparent locked box reserved for that purpose. If nonvalue chips are received at a roulette table, the marker button indicating their specific value shall not be removed from the slot or receptacle attached to the outer rim of the roulette wheel until after a dealer in the presence of a supervisor has converted them into value chips which are immediately deposited in a transparent locked box reserved for the purpose;

(B) Accounted for by a recorded count conducted by a randomly selected dealer, cage cashier or slot attendant for each respective count, and a randomly selected nongaming employee of the accounting department; and

(C) Placed in separate pools for *pro rata* distribution among the dealers, cage cashiers and slot attendants on a basis that coincides with the normal pay period, with the distribution based upon the number of hours each dealer, cage cashier or slot attendant has worked. Tips or gratuities from this pool shall be deposited into an account established by the Class A licensee. Distributions to dealers, cage cashiers and slot attendants from this pool shall be made following the Class A licensee's payroll accounting practices and shall be subject to all applicable state and federal withholding taxes.

1. The provisions of subsection (3)(C) of this rule notwithstanding, the commission may, in its discretion, allow poker dealers that do not make decisions that can effect the outcome of the gambling game and are not eligible to receive winnings from the gambling game as an agent of the Class A licensee, to pool tips paid to the dealer by a patron with other dealers operating the same type of gambling game. For the purposes of this subsection, winnings from a gambling game shall not include commissions, commonly referred to as the "rake," withheld from amounts wagered in a game. The commission shall allow such poker dealers to pool tips only upon the request of a Class A licensee that has submitted internal controls governing such practice. The internal controls submitted by the licensee must be approved by the commission.

(4) Upon receipt from a patron of a tip or gratuity, a dealer, cage cashier or slot attendant shall extend his/her arm in an overt motion and deposit the tip or gratuity into the transparent locked box reserved for such purposes.

(5) State and federal taxes shall be withheld on tips and gratuities received by occupational license applicants or occupational licensees.

11 CSR 45-8.150 Cash Reserve Requirements

PURPOSE: This rule establishes cash reserve requirements.

(1) The licensee shall maintain in cash or cash equivalents an amount sufficient to protect patrons against defaults in gaming debts owed by the licensee. Cash equivalents are investments with an original maturity of three (3) months or less which would be permissible investments under Missouri law for state moneys held by the state treasurer. The commission shall distribute to licensees and make available to all interested persons a formula approved by the commission by which licensees determine the minimum bankroll requirements of this rule (see Appendix A). If, at any time, the licensee's available cash or cash equivalents should be less than the amount required by this rule, the licensee must immediately notify the commission of this deficiency. Failure to maintain the minimum bankroll required by this rule, or a higher bankroll as required by the commission pursuant to this rule, or failure to notify the commission of any deficiencies, is an unsuitable method of operation.
