Op. Atty. Gen. No. 132, Russell (7-18-79). Ethanol used solely as a fuel for motor vehicle purposes is not a section 311.020, RSMo "intoxicating liquor." Also, manufacturers of ethanol for fuel purposes need not be licensed under Chapter 311, RSMo if the ethanol is denatured by some means.

Op. Atty. Gen. No. 37, Mueller (1-17-79). Wines used as part of religious services are not "for beverage purposes" since they are not being consumed for the mere pleasure of drinking or for physical or mental exaltation. Therefore, these "sacramental wines" are not intoxicating liquors as defined in Chapter 311, RSMO.

Brown-Forman Distillers Corp. v. Stewart, 520 SW2d 1 (Mo. banc 1975). Separate licenses are required for every phase of the liquor traffic and manufacturers, wholesalers and retailers are statutorily categorized as distinct separate phases thereof. The statutes indicate a legislative intent to preclude a licensee in one phase of the liquor traffic from controlling traffic in liquor in its entirety.

Pinzio v. Supervisor of Liquor Control, 334 SW2d 20 (1960). A review of the statutes makes it clear that the legislature has vested sole discretion in the supervisor (of liquor control) to issue or refuse to issue each license, whether one of original issue or a renewal and that a hearing is not an essential prerequisite to the lawful exercise of that sole discretion. Failure to hold a hearing prior to the refusal to issue a denial of due process is in violation of the pertinent provisions of the state and federal constitutions.

State ex rel. Floyd v. Philpet et al., 266 SW2d 704 (Mo. banc 1954). The exclusive authority to determine whether statutory qualifications for an applicant for a state license to sell intoxicating liquor at retail had been met and the authority to issue such licenses is vested in the state supervisor of liquor control.

The consent shall be so drawn that the surety(ies) remain liable on the bond of the licensee at the new location. Forms of the consent required by the regulation will be supplied by the supervisor upon request.

(4) Whenever a license shall be lost or destroyed without fault on the part of the licensee or his/her agents or employees, a duplicate license in lieu of the lost or destroyed license will be issued by the supervisor of liquor control without cost to the licensee. (A) Date upon which license was lost or destroyed;

(B) Circumstances under which license was lost or destroyed; and

(A) In the event the office of the managing officer of a corporation becomes vacant, it will be necessary for the corporation to secure a managing officer within fifteen (15) days after the vacancy occurs, with a managing officer being qualified under the provisions of sections 311.060 and 312.040, RSMo.

AUTHORITY: section 311.660, RSMo Supp. 1989. This version of rule filed Feb. 8, 1973, effective Feb. 18, 1973.

(2) No wholesale licensee shall deliver or cause any intoxicating liquors or nonintoxicating beer to be delivered to any licensee while the licensee is under suspension by the supervisor of liquor control.

AUTHORITY: section 311.660, RSMo Supp. 1989. This version of rule filed Feb. 8, 1973, effective Feb. 18, 1973. Amended: Filed April 23, 1981, effective Aug. 13, 1981.

11 CSR 70-2.060 Manufacturers

PURPOSE: This rule establishes procedures for labeling, bottling and delivery of products.

Editor's Note: The secretary of state has determined that the publication of this rule in its entirety would be unduly cumbersome or expensive. The entire text of the material referenced has been filed with the secretary of state. This material may be found at the Office of the Secretary of State or at the headquarters of the agency and is available to any interested person at a cost established by state law.

(1) Regulations announced by the Federal Alcohol Administration relating to labeling of distilled spirits, wine and malt beverages, packaged for shipment in interstate commerce, are made a part of this regulation as though fully set forth and are promulgated with respect to Missouri; these regulations shall apply to distilled spirits, wine and malt beverages packaged purely for interstate shipment insofar as the regulations are not contrary to or inconsistent with the laws of Missouri. In addition to the regulations, the label of every container of spirituous liquor, wine, malt liquor or nonintoxicating beer, unless already required by the regulations, shall set forth the name and address of the manufacturer, brewer, distiller, rectifier or producer of the spirituous liquor, wine, malt liquor or nonintoxicating beer as the case may be; provided that if the name of the brewer or manufacturer of malt liquor which appears on the label is not the owner of the facility where the malt liquor was brewed or manufactured, then the name, owner and address of the facility shall also be set forth on the label.

(2) Every manufacturer or brewer manufacturing or brewing any nonintoxicating beer in this state and every manufacturer, brewer or wholesaler outside of the state, shipping any intoxicating beer into this state, shall cause to be printed upon the large label around and upon the body of each bottle of nonintoxicating beer, one of the following inscriptions: "Alcoholic content not in excess of three and two-tenths percent (3.2%) by weight," or "Alcoholic content not in excess of four percent (4%) by volume," or in lieu of those inscriptions, shall cause the inscription to be printed on the crown of the bottle and in addition to those inscriptions on a separate label from the manufacturer's label previously described, which label shall be placed around the neck or body of the bottle in a secure manner so that it will adhere to the bottle after being iced so that it shall be on the bottle when the beer is served to the consumer. There shall be printed, stamped or embossed upon every can containing nonintoxicating beer, the statement, "Three and two-tenths percent (3.2%) by weight" or "Alcoholic content not in excess of three and two-tenths percent (3.2%) by weight."

(3) All licensees engaged in bottling intoxicating liquor and alcoholic beverages, before filling any bottle, shall cause the same to be sterilized by one (1) of the following methods:

(A) All new bottles, unless sterile, shall be sterilized or cleaned by thoroughly rinsing with clean sterile water or by blowing or vacuuming with proper machines for sterilization or cleansing.

(B) All used bottles shall be sterilized by soaking in a hot caustic solution which shall contain not less than three percent (3%) caustic or alkali expressed in terms of sodium hydrate. The period of time in the solution shall be governed by the temperature and strength of the solution. Then the bottles must be rinsed thoroughly in clean sterile water until free from alkali or sodium hydrate.

(4) All manufacturers and wholesalers at all times shall keep their premises and equipment in a clean and sanitary condition.

(5) No malt liquor or nonintoxicating beer in bottles, cans or jugs shall be brought in or transported within this state for the purpose of sale to any licensee or be sold to any licensee in other than cases the sizes of which have been approved by the Bureau of Alcohol, Tobacco and Firearms.

(A) A "facility which brews or manufactures malt liquor" is defined as a brewery or manufacturing plant premises licensed by either, or both, the state within which it is located and/or the United States Federal Alcohol Administration; and

(B) An "owner" of a facility which brews or manufacturers malt liquor is defined as a person, corporation, limited liability company, partnership or other legal business entity, who holds the entire facility in fee simple, or has a leasehold interest for a term of years in that entire facility, and is the person or business entity licensed for that entire facility by either or both, the state within which the facility is located and/or the United States Federal Alcohol Administration.
