4 CSR 120-2.010 Embalmer's Registration and Apprenticeship

PURPOSE: This rule describes the procedures to be used to secure an embalmer's license.

(1) Every person desiring to enter the profession of embalming dead human bodies within Missouri, and who is enrolled in an accredited institution of mortuary science, must register with the board as a practicum student on the form provided by the board. Applications must be accompanied by the applicable fee.

(2) After registration with the board as a practicum student in an accredited institution of mortuary science education, the student may assist in a Missouri licensed funeral establishment preparation room only under the direct supervision of a Missouri licensed embalmer and may assist in the direction of funerals only under the direct supervision of a Missouri licensed funeral director.

(3) After graduating from an accredited institution of mortuary science education, the applicant then must file, with the executive secretary of the board, a transcript of his/her embalming school grades and a certificate from the school showing s/he is a graduate of that school.

(4) If the applicant does not take the examination given by the national conference, the applicant must file with the board, on the form prescribed by the board, an application to take the embalming examination of this board. The application must be filed with the executive secretary of the board at least thirty (30) days before the examination and must be accompanied by the applicable fee.

(5) The embalming examination administered by the board consists of written questions in two (2) sections. The Funeral Service Science section covers embalming, anatomy, pathology, bacteriology, hygiene, chemistry and restorative art. The Funeral Service Arts section covers mortuary administration and the laws and rules governing the care, disposition and the transportation of dead human bodies.

(6) Those applicants achieving a general average of seventy-five percent (75%) on the board's examination, and achieving no score

in either section less than seventy percent (70%), will be deemed to have passed the board's examination. The board will permit an applicant who scores less than seventy-five percent (75%) on either section to retake the section, upon application and payment of the reexamination fee. On any reexamination of a single failed section, the applicant must score at least seventy-five percent (75%) to pass.

(7) In lieu of the embalming examination administered by the board, the board will accept the results of the examination administered by The International Conference of Funeral Service Examining Boards, Inc. Should an applicant who intends to rely upon his/her scores on The International Conference of Funeral Service Examining Boards', Inc. examination fail to achieve a general average of seventy-five percent (75%), with no score less than seventy percent (70%) on either section, the board will administer a reexamination of the failed section, upon application and payment of the applicable reexamination fee. On any reexamination of a single failed section, the applicant must score at least seventy-five percent (75%) to pass.

(8) After the applicant has made a passing grade in both sections and has obtained the seventy-five percent (75%) general average on either the board examination or The International Conference of Funeral Service Examining Boards, Inc., examination, s/he then may apply for registration as an apprentice embalmer. This application must contain the name(s) of the Missouri-licensed embalmer(s) under whom s/he will serve. Each instructor must be registered with, and approved by, the board. Any change in instructors also must be registered and approved. Applications must be submitted on the forms provided by the board and must be accompanied by the applicable fee. Application forms are available from the board's executive secretary.

(9) The period of apprenticeship under this rule must be at least one (1) year. The apprentice embalmer must devote at least thirty (30) hours per week to his/her duties as an apprentice embalmer.

(10) An affidavit provided by the board signed by both the apprentice and the supervisor(s) verifying that the applicant has successfully completed the embalming of twenty-five (25) dead human bodies must be submitted to the board.

(11) After completion of at least a one (1)-year apprenticeship as an apprentice embalmer as provided in this rule, the apprentice

embalmer will be examined orally by the board on practical embalming and on the laws of this state governing the profession of embalming. Those students who achieve a score of seventy-five percent (75%) or greater will be deemed to have passed this examination.

(12) After satisfactory completion of these requirements, an embalmer's license will be issued to an apprentice embalmer upon payment of the applicable fee and subject to the provisions of section 333.121, RSMo.

(13) Should an applicant not appear for the oral examination before the board within five (5) years from the date of his/her graduation, his/her registration as an embalming student and as an apprentice embalmer and any written examination required under section (4) of this rule in which the applicant is required to successfully complete will be cancelled automatically.

(14) Should an individual desire to obtain an embalmer's license after his/her license has become void under section 333.081.3, RSMo, the individual will be required to complete a six (6)-month period of apprenticeship during which time s/he will be required to embalm at least twelve (12) dead human bodies under the supervision of a Missouri licensed embalmer. The applicant will be required to pay the current apprenticeship registration and licensing fees to obtain a new embalmer's license under this rule.

(15) All documents filed with the board under this rule will become a part of its permanent files.

(17) An unlicensed person may transport dead human bodies from the place of death to another location or may transport dead human bodies out of this state if these services are performed under the direction of a licensed funeral establishment.

(18) No person other than a duly licensed and registered funeral director may make the following at-need arrangements with the person having the right to control the incidents of burial:

(A) In connection with the temporary or final entombment or cremation, disinterment, reinterment or other lawful disposition of a dead human body;

(B) For the care, preparation, shipment or transportation of a dead human body; and

(C) For the sale or rental to the public of funeral merchandise, services or paraphernalia from a funeral establishment.

(19) The taking of preliminary information by an unlicensed person will not be construed as the making of at-need funeral arrangements under this rule.

(20) Whenever an unlicensed person makes other than at-need funeral arrangements on behalf of a funeral director or funeral establishment, the unlicensed person at all times must be under the supervision and control of a licensed funeral director.

(21) Violations of this rule will be deemed misconduct in the practice of funeral directing.

(22) The business and practice of funeral directing may be conducted only from a fixed place or establishment which has been licensed by the board.

4 CSR 120-2.070 Funeral Establishments

PURPOSE: This rule clarifies the procedure for operating a funeral establishment.

(1) Application for a funeral establishment license must be made on the forms provided by the board and must be accompanied by the appropriate fee. Applications are available from the board's office.

(2) The application shall indicate that the funeral establishment will be used for the—

(A) Embalming (including transportation to and from the funeral establishment) of dead human bodies;

(B) Cremation (including transportation to and from the funeral establishment) of dead human bodies;

(C) Care and preparation, otherwise than by embalming or cremating, for burial or

transportation of the human dead; and

(D) Visitation and ceremonial funeral services only.

(3) A funeral establishment shall not increase the functions for which it will be used without first submitting a new application showing the function(s) for which the funeral establishment will be used and obtaining a new funeral establishment license based upon the new application. A funeral establishment may reduce the functions for which it is licensed by surrendering the right to use the establishment for one (1) or more functions. To increase the functions authorized after rights surrender, the previously discussed procedure for increase shall be followed.

(4) A funeral establishment shall not be used for any function other than the function(s) indicated in the application upon which its license is based.

(5) The application shall indicate the name and license number of the funeral director who is in charge of the general management and supervision of the funeral establishment. When the funeral director in charge changes for a period of more than thirty (30) days, the new funeral director in charge and the former funeral director in charge, jointly or individually, shall notify the board of the change within thirty (30) days of the date when the change first occurs. Failure to notify the board shall be considered a violation of this rule on the part of each and on the part of the funeral establishment. A change in the funeral director in charge does not require a new funeral establishment license.

(6) Within thirty (30) days after an application for a funeral establishment license has been received in the board's office, the board will cause the establishment to be inspected. The board will act on the application and, within thirty (30) days after the application was received in the board's office, the applicant will be advised whether the license is granted or denied.

(7) Because the board's decision to grant or deny an establishment license will include a review of confidential information and may lead to legal actions, the portion of the meeting at which the board makes its decision, which may be a meeting by telephone conference call, shall be a closed meeting and the board's vote also shall be closed.

(8) The establishment license issued by the board is effective for a fixed place or establishment and for a specific name. Whenever the ownership, location or name of the

licensed establishment is changed, a new license must be obtained. If the establishment maintains a chapel, preparation room or other funeral service facility in a building or portion physically separated from and located at a location designated by an address differing from the office, chapel or other facilities of the applicant, the chapel, preparation room or other funeral facility otherwise located shall be deemed to be a separate funeral establishment. Nothing contained in this rule will be construed or interpreted to require a separate registration for a building if it is joined or connected by a private passage, walk or driveway existing between the registered establishment and the other building.

(A) If a change of ownership is caused by the elimination of one (1) or more owners, for whatever reason (death, sale of interest, divorce) without the addition of any new owner(s), it is not necessary to obtain a new establishment license. However, a new application for an establishment license form must be filed as an amended application within thirty (30) days after the change of ownership. This form must be filled out completely with correct, current information.

(B) A corporation is considered by law to be a separate person. If a corporation owns an establishment, it is not necessary to obtain a new establishment license or to file an amended application for an establishment license form if the owners of the stock change. However, as a separate person, if a corporation begins ownership of an establishment or ceases ownership of an establishment, a new establishment license must be obtained regardless of the relationship of the previous or subsequent owner to the corporation.

(9) The professional business and practice of funeral directing shall be conducted only from a fixed place or establishment which has been licensed by the board except as permitted by section 333.071, RSMo. The funeral establishment physical facility shall be under the actual control of the owner or operator of the establishment. Every funeral establishment must provide and allow access to any member or duly authorized agent of the board for the purpose of inspection as provided by sections 333.061 and 333.101, RSMo. If any representative of the funeral establishment fails or refuses to provide or allow access, it shall be considered a violation of this rule by the funeral establishment and by the funeral director in charge of the funeral establishment. Additionally, if the funeral establishment representative who fails or refuses to provide or allow access holds any license or

registration issued by this board, that person shall be in violation of this rule.

(10) No one licensed by this board may be employed in any capacity by an unlicensed funeral establishment. Violation of this section will be deemed misconduct in the practice of embalming or funeral directing.

(11) Only one (1) license will be issued by this board for any physical facility which is considered to be a funeral establishment as defined by statute. If a funeral establishment licensed by this board is destroyed by fire or some other disaster or act of God, the board, in its discretion, for a period of not more than six (6) months, may allow the licensed funeral establishment to continue its operation from another licensed funeral establishment or from a facility that has not been licensed as a funeral establishment if the facility meets the minimum requirements for the functions outlined in section (2) of this rule.

(12) All signs, stationery and advertising in newspapers, publications or otherwise must include the establishment name as registered with the board. The only exception to this rule is previous name listings of the establishment placed in the white pages of a telephone directory or a national directory of funeral directors. This exception does not apply to advertisements placed in paid yellow page telephone directories. The funeral establishment, however, shall not advertise its previous name(s) in signs placed in the white pages of a telephone directory of a national directory of funeral directors, unless it owns the right to use that name(s). If the funeral establishment has the right to use its previous name(s), that name must appear first, followed by the current name of the establishment. Advertisements which do not comply with this section will be deemed to be misleading as the word is used in section 333.121, RSMo.

(13) The interior and exterior of the funeral establishment physical plant shall be kept free and clean of litter, dirt, debris and clutter or other objects or conditions which present a potential or actual hazard to the health, safety or welfare of the public.

(14) The interior and exterior of the funeral establishment physical plant shall be maintained in a manner which does not present a potential or actual hazard to the health, safety or welfare of the public.

(15) Each funeral establishment used solely or partially for embalming shall contain a preparation room which shall be devoted to

activities incident or related to the preparation or the embalming, or both, of dead human remains and shall be equipped and maintained as described in 4 CSR 120-2.090.

(16) No person shall be permitted in a preparation room during the course of embalming a dead human body except the employees of the funeral establishment in which the human body is being embalmed, members of the family of the deceased and persons authorized by the members of the family of the deceased or by law.

(17) Each funeral establishment which is used solely or partially for cremations shall be equipped and maintained as described in 4 CSR 120-2.071.

(18) Each funeral establishment which is used solely or partially for the care and preparation, other than by embalming, for burial or transportation of the human dead, but not solely for visitation and ceremonial funeral service, shall contain a separate area for the care and custody of dead human remains and a separate area for confidential funeral arrangement conferences.

(19) Each funeral establishment which is used solely or partially for the care and preparation, other than by embalming, for burial or transportation of the human dead or solely for visitation and ceremonial funeral services shall—

(A) Contain a restroom, available drinking water and an area where funeral services may be conducted;

(B) Be equipped with, or have access to, equipment necessary for conducting and arranging funeral services, such as tables or desks and chairs for arrangement conferences, file cabinets for the confidential storage of funeral records, seating for chapel-visitation room, casket bier, register book stand, officiate stand, flower display stands, organ, piano, music-producing equipment, or any combination of these; and

(C) Not make, through its representative, arrangements for the embalming of remains at a facility unless embalming may be performed legally at that facility according to the law of the jurisdiction in which the facility is located.

(20) Each funeral establishment which is already licensed on September 11, 1987, shall notify the board in writing of the function(s) for which the funeral establishment will be used at or before the time when the funeral establishment renews its license for the renewal period which commences on January 1, 1987.

(21) According to section 333.121.2(17), RSMo, the State Board of Embalmers and Funeral Directors may impose disciplinary action for failure to obtain authorization to embalm from the person entitled to custody or control of the body, if the body is embalmed. If the body is not embalmed, a funeral establishment shall not hold the unembalmed body for any longer than twenty-four (24) hours unless the unembalmed body is refrigerated or encased in an airtight metal or metal-lined burial case, casket or box that is closed and hermetically sealed. If the deceased gave written authorization to embalm and did not revoke the authorization, the authorization shall satisfy this requirement. If the deceased did not give written authorization to embalm, the next of kin of the deceased may give authorization to embalm. Authorization to embalm may be given by the next of kin prior to the death of the person whose body is to be embalmed. Authorization to embalm given prior to death may be in any written document, including a preneed contract. Authorization for embalming may be given by the following:

(A) The next of kin, for purposes of this rule, shall be the following person(s), in the priority listed, if that person is over the age of eighteen (18) years and is mentally competent:

1. Surviving spouse;
2. Any surviving child;
3. Any surviving parent. If the deceased was a minor, a surviving parent who had custody of the minor;
4. Any surviving brother or sister; or
5. Any surviving relative by blood or marriage;

(B) Any person or friend who assumes responsibility for the disposition of the deceased's remains if no next of kin assumes such responsibility;

(C) The county coroner or medical examiner pursuant to the provisions of Chapter 58, RSMo;

(D) If the body is required to be buried at public expense, the body shall be disposed of according to the terms of section 194.150, RSMo;

(E) If the funeral establishment receives no authorization to embalm from any of the persons identified in subsections (21)(A), (B), or (C) of this rule, the funeral establishment may proceed with embalming if it has attempted to locate a person from whom authorization to embalm may be obtained for at least six (6) hours and it has a written statement from city, county, or state law enforcement officials that they have assisted the funeral establishment in attempting to locate such a person. However, the embalmer

may proceed to embalm sooner if the condition of the body is such that waiting for six (6) hours would substantially impair the ability to effectively embalm the body or if the deceased died as a result of a communicable disease, was subject to isolation at the time of death, and has not been properly embalmed; and

(F) If an embalmer proceeds to embalm a body under the provisions of subsection (21)(E), the funeral establishment which employs the embalmer shall not require payment for the embalming unless the funeral arrangements which are subsequently made are those that embalming is required.

(22) Each funeral establishment shall maintain documentation of the following information regarding authorization to embalm a body which is embalmed by or on behalf of the funeral establishment:

(A) When authorization to embalm is given in writing—

1. The name and signature of the person who is authorizing embalming;
2. The relationship of that person to the deceased;
3. The time and date authorization to embalm was given; and
4. The name and title of the person receiving authorization to embalm on behalf of the funeral establishment; and

(B) Authorization to embalm must be given in writing if the person authorizing embalming is present in the funeral establishment or in the physical presence of the person receiving authorization to embalm on behalf of the funeral establishment. If verbal authorization to embalm is given, the funeral establishment must document—

1. The name of the person who is actually authorizing embalming (surviving spouse), if different from the person who is verbally communicating authorization to embalm to the funeral establishment;
2. The relationship of that person to the deceased;
3. The name of the person who is verbally communicating authorization to embalm and that person's relationship to the person who is actually authorizing embalming;
4. The time and date authorization to embalm was given; and
5. The name and title of the person receiving authorization to embalm on behalf of the funeral establishment.

(23) Each funeral establishment must maintain the following documents for a minimum of one (1) year:

- (A) Embalming logs;

- (B) Purchase agreements;
 (C) Authorizations to embalm;
 (D) Preneed contracts which have been cancelled or fulfilled;
 (E) Authorizations to cremate; and
 (F) General price list.

(24) No dead human body shall be buried, interred, cremated, or be removed from this state, unless the burial, interment, cremation, removal, or other authorized disposition, is performed under the direction of a Missouri licensed funeral establishment or Missouri licensed funeral director who is engaged in the practice of funeral directing in a licensed funeral establishment in an adjacent and contiguous county to the state of Missouri.

(25) Whenever a dead human body is donated to a medical or educational institution for medical and/or scientific study and arrangements for return of the body to the legal next of kin have not been made, then delivery of the body to the medical or educational institution shall constitute final disposition. If, however, arrangements for return of the body to the legal next of kin have been made, then final disposition shall be the burial, interment, cremation, or removal of the body out of this state, after the medical or educational institution has returned the body.

4 CSR 120-2.071 Funeral Establishments Containing a Crematory Area

PURPOSE: This rule outlines the requirements and procedures for operating a crematory establishment in Missouri.

(1) Definitions.

(A) Cremated remains—the bone fragments which remain after the cremation process is completed.

(B) Cremation—the technical heating process which reduces remains to bone fragments through heat and evaporation; the final disposition of dead human remains.

(C) Cremation box—a container into which cremated remains are placed for transportation or short-term storage.

(D) Cremation chamber—the total mechanical unit for the actual cremation process.

(H) Short-term storage—storage for a period of thirty (30) days or fewer.

(I) Urn—the receptacle into which the cremated remains are placed for other than transportation or short-term storage.

(2) No body shall be cremated in this state unless a license has been issued previously by this board for the facility in which the body is cremated to be operated as a funeral establishment.

(3) Each funeral establishment which contains a crematory area shall maintain permanent records which shall include:

(A) A written authorization for cremation executed prior to cremation by the person entitled to custody or control of the body which shows the time and date when authorization for cremation was given; and

(B) Information regarding the cremation which shall include:

1. The full name of the deceased;
2. The last place of residence of the deceased;
3. The place of death of the deceased;
4. The place of birth of the deceased;
5. The date and place of the funeral;
6. The name of the funeral director with whom the arrangements were made;
7. The name of the person(s) who made the arrangements with the funeral director and the relationship to the deceased;

8. The date and time when cremation was begun;

9. The name and address of the person to whom the cremated remains were released or the location where the cremated remains were placed; and

10. If the cremated remains were delivered or placed other than by an employee of the funeral establishment, the name of the person who made the delivery or placement or the name of the business by which the cremated remains were shipped along with the receipt number.

(4) If the deceased gave written authorization to cremate and did not revoke the authorization, that authorization shall satisfy the requirement for authorization to cremate. If the deceased did not give written authorization to cremate, the next of kin of the deceased may give authorization to cremate. Authorization to cremate given prior to the death may be in any written document, including a preneed contract.

(A) The next of kin, for purposes of this rule, shall be the following person(s), in the priority listed, if that person is over the age of eighteen (18) years and is mentally competent:

1. Surviving spouse;
2. Any surviving child;
3. Any surviving parent. If the deceased was a minor, a surviving parent who had custody of the minor;
4. Any surviving brother or sister; or
5. Any surviving relative by blood or marriage;

(B) Any person or friend who assumes responsibility for the disposition of the deceased's remains if no next of kin assumes such responsibility;

(C) The county coroner or medical examiner pursuant to the provision of Chapter 58, RSMo; and

(D) If the funeral establishment receives no authorization for cremation from any of the persons identified in subsections (4)(A), (B), or (C) of this rule, the funeral establishment may proceed with cremation if it has attempted to locate a person from whom authorization to cremate may be obtained for at least ten (10) days and it has a written statement from city, county, or state law enforcement officials that they have assisted the funeral establishment in attempting to locate a person from whom authorization for cremation could be obtained but have been unable to locate such a person. However, the funeral establishment may proceed with cremation prior to the elapse of twenty-four (24) hours if the deceased died as a result of a communicable

disease, was subject to isolation at the time of death, and has not been properly embalmed.

(5) The cremation chamber shall be constructed specially to withstand high temperatures and protect the surrounding structure.

(6) The crematory area shall include a work center area equipped with forced air ventilation adequate to protect the health and safety of the operator and any other person(s) present.

(7) No person shall be permitted in the crematory area while any dead human body is in the crematory area awaiting cremation or being cremated or while the cremation remains are being removed from the cremation chamber except employees of the funeral establishment in which the body is being cremated, members of the family of the deceased and persons authorized by the members of the family of the deceased or by law.

(8) When there is no funeral establishment employee in the area, the crematory area shall be secure from entry by persons other than funeral establishment employees.

(9) Each body shall be delivered to the crematory in a cremation container, or casket made of wood, wood product or metal. The cremation container shall be composed of a combustible, nonexplosive, opaque material which is adequate to assure protection to the health and safety of any person in the crematory area. The casket or container shall be leak resistant if the body enclosed is not embalmed or if death was caused by a contagious disease.

(10) The funeral director with whom the arrangements are made shall make inquiry to determine the presence or existence of any body prosthesis, bridgework or similar items.

(11) No body shall be cremated with a pace-maker in place. The funeral director with whom the arrangements are made shall take all steps necessary to ensure that any pace-makers are removed prior to cremation.

(12) No body shall be cremated until after a completed death certificate has been filed with the local registrar as required by section 193.175, RSMo.

(13) Each cremation container or casket into which a body is placed shall be placed into the cremation chamber with the body and be cremated and each cremation box or urn into which the cremated remains are placed after removal from the cremation chamber shall be

labeled clearly with the full name of the deceased and the name of the funeral establishment with whom the arrangements were made.

(14) The remains of only one (1) body shall be in the cremation chamber at one (1) time unless simultaneous cremation has been authorized in writing by the person(s) entitled to custody or control of each body.

(15) Following the completion of the cremation process, all residual of the cremation process including the cremated remains and any other matter shall be thoroughly removed from the cremation chamber prior to placing another body in the cremation chamber.

(16) If the cremated remains do not fill the interior of the cremation box adequately, the extra space may be filled with shredded paper or clean absorbent cotton.

(17) If the cremated remains will not fit within the receptacle designated in the arrangements, the remainder shall be placed in a separate receptacle or, if written permission is obtained from the person entitled to custody or control of the body, disposed of in some other manner.

(18) The cremation box shall be composed of rigid materials which shall be sealed in order to prevent the leakage of cremated remains or the entry of foreign objects.

(19) If the cremated remains are to be shipped, the cremation box shall be packed securely in a corrugated cardboard box which is securely closed with tape acceptable to the shipper.

(20) Cremated remains shall be shipped only by a method which has an internal tracing system available and which provides a receipt signed by the person accepting delivery.

(21) Each urn into which cremated remains are placed shall be made of a durable material which shall enclose the cremated remains entirely.

(22) Each funeral establishment which comes into possession of cremated remains, whether or not it is the funeral establishment at which the cremation occurred, shall retain the cremated remains until they are delivered, placed or shipped pursuant to the instructions of the person(s) entitled to custody or control of the body. However, nothing in this rule shall prohibit a funeral establishment from disposing of cremated remains in another fashion if the funeral establishment has

obtained written permission for other disposition contingent upon the funeral establishment attempting to dispose of the cremated remains according to instructions but being unable to do so through no fault of the funeral establishment and provided that other disposition shall not occur prior to thirty (30) days after cremation.

(23) Nothing in this rule shall be construed to prohibit a funeral establishment which contains a crematory area from establishing more restrictive standards for its own operation.

4 CSR 120-2.090 Preparation Rooms

PURPOSE: This rule outlines the laws and rules governing the standards required of funeral establishment preparation rooms.

Editor's Note: The secretary of state has determined that the publication of this rule in its entirety would be unduly cumbersome or expensive. The entire text of this rule has been filed with the secretary of state. The entire text of the rule may be found at the headquarters of the agency and is available to any interested person at a cost established by state law.

(1) Whenever used in this rule, the phrase preparation room refers to that room in a licensed funeral establishment where dead human bodies are embalmed.

(2) The following requirements for the maintenance and cleanliness of preparation rooms apply at all times, regardless of whether a dead human body is being embalmed or not.

(3) Floors, Walls and Ceilings. All preparation room floor surfaces must be smooth, nonabsorbent materials and so constructed as to be kept clean easily. Floor drains must be provided where the floor is to be subjected to cleaning by flooding. All walls and ceilings must be easily cleanable and light colored, and must be kept and maintained in good repair. All walls shall have washable surfaces.

(4) Plumbing.

(A) All plumbing must be sized, installed and maintained so as to carry adequate quantities of water throughout the funeral establishment, prevent contamination of the water supply, properly convey sewage and liquid waste from the preparation room to the sewage disposal system and prevent creation of an unsanitary condition or nuisance.

(B) All plumbing must be sized, installed and maintained in accordance with local plumbing laws and ordinances. Where local codes are not in force, the *BOCA National Plumbing Code* published by Building Officials & Code Administrators International, Inc., 4051 West Flossmoor Road, Country Club Hills, IL 60478-5795, shall apply.

(5) Sewage and Liquid Waste Disposal.

(A) All sewage and water-carried wastes from the entire establishment, including the preparation room, must be disposed of in a public sewage system or an approved disposal system which is constructed, operated and maintained in conformance with the minimum standards of the Department of Health.

(B) The following aspirators are approved for preparation rooms:

1. Electric aspirators;

2. Water-operated aspirators. All water-operated aspirators shall be protected from back siphonage by the minimum of an atmospheric vacuum breaker approved by the American Society of Sanitary Engineering or by the *Uniform Plumbing Code* and installed a minimum of twelve inches (12") above the maximum possible height of the embalming table; and

3. Water-controlled unit. All water-controlled units shall be installed and maintained according to the *Uniform Plumbing Code*, and properly protected from back siphonage with a back-flow prevention device approved by the American Society of Sanitary Engineering or the *Uniform Plumbing Code*.

(6) Solid Waste Disposal.

(A) Refuse, bandages, cotton and other solid waste materials must be kept in leakproof, nonabsorbent containers which

must be covered with tight-fitting lids prior to disposal.

(B) All waste materials, refuse, and used bandage and cotton must be destroyed by reducing to ashes through incineration or must be sterilized and buried. Sterilization may be accomplished by soaking for thirty (30) minutes in a solution of five percent (5%) formaldehyde, one (1) pint of formalin to seven (7) pints of water.

(7) Disposal of Body Parts. Human body parts not buried within the casket must be disposed of by incineration in a commercial or industrial-type incinerator or buried to a depth which will insure a minimum of three feet (3') of compacted earth cover (overlay).

(8) A mechanical exhaust system is required. Care must be taken to prevent the discharge of exhaust air into an area where odors may create nuisance problems.

(9) All preparation rooms and all articles stored in them must be kept and maintained in a clean and sanitary condition. All embalming tables, hoppers, sinks, receptacles, instruments and other appliances used in embalming or other preparation of dead human bodies must be so constructed that they can be kept and maintained in a clean and sanitary condition. The following minimum standards shall apply:

(A) An eye wash kit (bank) must be present and operable;

(B) Facilities must exist for the proper sterilization of embalming instruments and the embalming table;

(C) Facilities for the proper storage of embalming instruments must be maintained. At a minimum, a chest or cabinet must be used for the storage of embalming instruments;

(D) All types of blocks used in positioning a dead human body on an embalming table must be made of nonabsorbent material. All wooden blocks must be sealed and painted with enamel; and

(E) When not in use, embalming tables must be cleaned, sterilized and covered with a sheet.

(10) Food and Beverages.

(A) There may be no direct opening between the preparation room and any room where food and beverages are prepared or served.

(B) The Department of Health sanitation laws and rules governing food sanitation apply to the operation, construction and sanitation of food service facilities, where provided for the comfort and convenience of a funeral party; provided, however, that coffee

service utilizing single-service cups and spoons and a coffee maker of easily cleanable construction shall be deemed acceptable where this service is the only food service offered.

(C) A funeral home providing coffee service utilizing single-service items and coffee makers of easily cleanable construction must provide a water supply faucet at a suitable sink of easily cleanable construction for the filling and cleaning of this equipment in an area separate from the preparation room and restrooms.

(11) A separate wash sink (separate from slop drain sink) must be present or in close proximity to the preparation room for a personal hand wash facility for embalmers and the disinfecting of embalming equipment. If the wash sink is not present in the preparation room, it shall be in a location close to the preparation room which is not accessible to the public and it shall be at a distance of no further than ten feet (10').

(12) Preparation rooms shall contain only the articles, instruments, and items that are necessary for the preparation, embalming, and final disposition of dead human bodies.

4 CSR 120-2.110 Public Complaint Handling and Disposition Procedure

PURPOSE: This rule establishes a procedure for the receipt, handling and disposition of public complaints by the board, pursuant to the mandate of section 4.16(6) of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo.

Editor's Note: The form mentioned in this rule follows 4 CSR 120-2.115.

(1) The State Board of Embalmers and Funeral Directors shall receive and process each complaint made against any licensee, permit holder, registrant of the board or unlicensed individual or entity, which complaint alleges certain acts or practices which may constitute one (1) or more violations of the provisions of Chapter 333, RSMo. Any member of the public or the profession, or any federal, state or local officials may make and file a complaint with the board. Complaints shall be received from sources outside Missouri and processed in the same manner as those originating within Missouri. No member of the State Board of Embalmers and Funeral Directors shall file a complaint with this board while s/he holds that office, unless that member excuses him/herself from further board deliberations or activity concerning the matters alleged within that complaint. The executive secretary or any staff member of the board may file a complaint pursuant to

this rule in the same manner as any member of the public.

(2) Complaints should be mailed or delivered to the following address: Executive Secretary, State Board of Embalmers and Funeral Directors, 3605 Missouri Boulevard, P.O. Box 423, Jefferson City, MO 65102-0423. However, actual receipt of the complaint by the board at its administrative offices in any manner shall be sufficient. Complaint may be made based upon personal knowledge, or upon information and belief, reciting information received from other sources.

(3) All complaints shall be made in writing and shall fully identify the complainant by name and address. Complaints shall be made on forms provided by the board and available upon request. Oral or telephone communications will not be considered or processed as complaints, but the person making these communications will be provided with a complaint form and requested to complete it and return it to the board in written form. Any member of the administrative staff of the board or any member of the board may make and file a complaint based upon information and belief, in reliance upon oral, telephone or written communications received by the board, unless those communications are believed by that staff member to be false.

(4) Each complaint received under this rule shall be logged in a book maintained by the board for that purpose. Complaints shall be logged in consecutive order as received. The logbook shall contain a record of each complainant's name and address; the name and address of the subject(s) of the complaint; the date each complaint is received by the board; a brief statement of the acts complained of, including the name of any person injured or victimized by the alleged acts or practices; a notation whether the complaint resulted in its dismissal by the board or informal charges being filed with the Administrative Hearing Commission; and the ultimate disposition of the complaint. This logbook shall be a closed record of the board.

(5) Each complaint received under this rule shall be acknowledged in writing. The acknowledgment shall state that the complaint is being referred to the board for consideration at its next regularly scheduled meeting. The complainant shall be informed as to whether the complaint is being investigated, and later, as to whether the complaint has been dismissed by the board, or is being referred to legal counsel for filing with the Administrative Hearing Commission. The complainant shall be notified of the ultimate

disposition of the complaint, excluding judicial appeals and shall be provided with copies of the decisions (if any) of the Administrative Hearing Commission and the board at that time. Provided, that the provisions of this section shall not apply to complaints filed by staff members of the board based on information and belief, acting in reliance on third-party information received by the board.

(6) The chairman of the board, from time-to-time and as s/he deems necessary, may instruct the board inspector/investigator to investigate any complaint before the complaint has been considered at a regularly scheduled board meeting. The inspector/investigator shall report any actions taken to the board at its next regularly scheduled meeting.

(7) Both the complaint and any information obtained as a result of the investigation shall be considered a closed record and shall not be available for inspection by the general public. However, a copy of the complaint and any attachments shall be provided to any licensee who is the subject of that complaint, or his/her legal counsel, upon written request to the board.

(8) This rule shall not be deemed to limit the board's authority to file a complaint with the Administrative Hearing Commission charging a licensee of the board with any actionable conduct or violation, whether or not the complaint exceeds the scope of the acts charged in a preliminary public complaint filed with the board, and whether or not any public complaint has been filed with the board.

(9) The board interprets this rule, which is required by law, to exist for the benefit of those members of the public who submit complaints to the board and for those persons or entities within the legislative and executive branches of government having supervisory or other responsibilities or control over the professional licensing boards. This rule is not deemed to protect, or inure to the benefit of, those licensees or other persons against whom the board has instituted or may institute administrative or judicial proceeding concerning possible violations of the provisions of Chapter 333, RSMo.

AUTHORITY: sections 4.16(6) of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo 1986 and 333.III.1, RSMo Supp. 1993. Original rule filed Jan. 13, 1982, effective April 12, 1982. Amended: Filed Dec. 4, 1989, effective March 12, 1990.*

**Original authority: 333.III.1, RSMo 1965, amended 1981, 1993.*

4 CSR 120-2.115 Procedures for Handling Complaints Against Board Members

PURPOSE: This rule establishes a procedure for the receipt, handling and disposition of complaints filed against members of the board.

(1) Complaints against members of the board will be handled in the same manner as complaints against other licensees with minor variations specifically described in this rule.

(2) When a complaint against a board member is received by the staff, the staff shall take steps to make sure that the complaint is on the proper form(s) (that is, the Uniform Complaint Form). Once the complaint is received in the proper form, the complaint will be mailed to all members of the board except the member who is the subject of the complaint. The member who is the subject of the complaint will automatically receive a summary of the complaint and will receive all agendas or other notices pertaining to when and where the complaint will be discussed. If the member who is the subject of the complaint requests additional information in writing, that information will be provided by the staff in consultation with the chairman (or vice-chairman, if the chairman is the subject of the complaint). In no event will the member who is the subject of the complaint be given information by the board or its staff which would reveal the name of the complainant, unless the member would have access if s/he were not a member of the board. If the board member learns the complainant's identity from the complainant, other board members and the staff subsequently may include the complainant's name in communication with the board member.

(3) At the meeting when the complaint is discussed, the board member who is the subject of the complaint shall not be present during discussion of the complaint unless by vote or consensus the remaining board members request the presence of the board member in question. The board member shall not participate in discussion of the complaint as a member of the board but shall participate in the same manner as any other licensee who is invited to appear before the board to discuss a complaint. The board member may be asked to leave the room at any time during the discussion. The board member shall leave the room prior to any vote which will determine

the manner in which the complaint will be handled.

(4) After the remaining board members have completed voting on all action to be taken as a result of the complaint, the board member may return to the room. At that time, the board chairman (or vice-chairman, if the chairman is the subject of the complaint) will inform the board member of the action which the board has decided to take.

(5) If the board decides to have the complaint investigated, a copy of the investigative report will be mailed to all board members except the board member who is the subject of the complaint. The board member who is the subject of the complaint will be sent a copy of any notice or agenda which indicates that the investigative report will be discussed. The meeting at which the investigative report is discussed will follow the same procedures outlined in section (4) for the meeting at which the complaint is discussed.

(6) If the board chooses to take no further action as a result of the complaint or the investigative report, the board member will be informed of this decision. The board member will not subsequently have access to the investigative report or the complaint unless the member would have that access if s/he were not a member of the board.

(7) If the board chooses to refer the case to the attorney general's office, the board member will be informed of that fact. The board member will not be allowed access to the complaint or investigative report by virtue of his/her status as a board member. If the attorney assigned to the case chooses to release these documents to the board member or if the attorney is required for legal reasons to release these documents to the board member, the board member will be permitted access to the documents released by the attorney.

(8) The board member will not be present during any discussion of the case once the board has voted to refer the case to the attorney general's office. The exception to this rule will be only for prearranged formal meetings to discuss settlement, if the attorneys for both parties agree. The other board members will not discuss the case with the board member who is the subject of the case except at the formal meeting.

(9) The board member has the right to be represented by counsel at all formal or informal proceedings. Admissions made by the board

member at or outside a board meeting may be used against the board member at hearing.

(10) The board member shall not have access to that portion of the minutes of any meeting which reflects discussion, motions or votes related to the complaint or case against the board member. These minutes shall be kept separately as special closed minutes and shall not be shared with the board member by the other board members or the staff unless the board member would be entitled to access to the minutes if s/he were not a board member.

(11) The provisions of sections (1)–(10) of this rule shall apply to any complaint against a funeral establishment at which a member of the board is employed or with which a member of the board is associated.

(12) The provisions of sections (1)–(10) of this rule shall apply to any complaint against any preneed registrant by which a member of the board is employed or with which a member of the board is associated, including, but not limited to, a complaint against a preneed seller who sells for a funeral establishment with which a member of the board is associated. A board member will be considered to be employed by or associated with a preneed registrant if the board member receives a salary or wages from the preneed registrant or if a board member has an ownership interest in a preneed registrant. However, these procedures shall not apply to a board member who only receives commissions from the preneed registrant. Each member of the board shall keep the board's executive director notified of the preneed registrants by which the board member is employed and with which the board member is associated.

(13) The remaining members of the board may vote to exclude a member from participating in any matter based upon a conflict of interest. The vote must be a majority vote of all of the members present and voting except the member who is the subject of the vote. Participation shall include, but not be limited to, receipt of materials, presence during discussion and voting.
