(C) Applicants who have received equipment from the program in the past shall be eligible for replacement equipment according to the time schedule established by the program administrator and shall be notified of such replacement period when they receive their initial equipment. The program administrator may also find applicants eligible for replacement equipment if:

1. The device is damaged through natural disasters, such as lightning, electrical storms, floods or other acts of God;

2. There is a change in disability status rendering the adaptive equipment inappropriate to meet their needs;

3. A new device has become available through TAP that is deemed more appropriate to the applicant’s disability than a device previously provided by TAP.

5. Original applicant signature and date.

(B) Applicants may elect to allow the program to release their name, address, and phone number to an agency that provides consumer support. Applicants who have a hearing disability may elect to allow the program to release their name, address, and date of birth to the Missouri Commission for the Deaf to be used solely for completing the commission's census.

(C) In addition to information required on the application and certification form, applicants shall supply any additional information which the program administrator deems reasonably necessary to determine the applicant's eligibility and to assist in determining the adaptive equipment which best meets the applicant's needs.

(D) Certifying agents shall, on forms approved by the program administrator, certify that the applicant, by name, is unable to use traditional telecommunications equipment because of a specific category of disability. Equipment approving agents shall designate that the applicant needs specific adaptive equipment as identified on forms approved by the program administrator. Such training shall include specific information about adaptive telecommunications equipment to support appropriate equipment selection. Upon satisfactory completion of initial training, the program administrator will provide equipment approval designation and will thereafter renew equipment approval designation based on subsequent participation in required training. Equipment approval agents who do not participate in periodic training shall not retain approval designation.

(C) The program administrator will maintain a list of approved certifying and equipment approval agencies and those personnel of the agency who are approved to certify and designate equipment matches. A list of approved certifying and equipment approval agencies will be included with applicant education information and otherwise made available as widely as possible.

(6) Appeals Process. Applicants may appeal any disapproval of an equipment request by filing a written appeal with the Missouri Assistive Technology Advisory Council. No specific form shall be required. The appeal shall describe how the equipment requested is necessary for basic telecommunications access and conforms with adopted program rules. The council may hear appeals during any regularly scheduled council meeting or may call a special meeting of the council for such purpose.

unless their disability needs change. The program administrator may approve equipment replacement within this time period for extenuating circumstances.

6. If an applicant's disability changes, rendering the adaptive telephone equipment inappropriate to meet their needs, the applicant may reapply for new equipment and shall provide a description of the disability change.

(10) TAP for Internet Specific Procedures.

(A) Equipment Provided—Adaptive equipment needed for Internet access shall be provided in sufficient scope to meet the needs of individuals with all types of disabilities and shall be procured in a cost effective manner.
