# Executive Departments

Government exists to serve, and a broad network of government organizations has been created to accomplish the purpose. The Missouri Constitution (Article II, Section 1) states: "The powers of government shall be divided into three distinct departments—the legislative, executive and judicial." This section also prohibits persons within each branch from exercising powers of the other branches. From these three branches spring the variety of organizations which deliver services of state government.

The many different names used by these groups—departments, divisions, agencies, boards, commissions, bureaus, units, sections, programs and others—can make it difficult to determine which area of government is responsible for certain services, and sorting out responsibilities or relationships within the governmental framework.

It is through the executive branch that the greatest proportion of state services are delivered. The Constitution (Article IV, Section 12) and the Reorganization Act of 1974 have established a number of "executive departments" to deal with specific areas of interest. A chart showing the present state departments is shown on the following page.

The Missouri Constitution provides for 16 specific departments: the Office of Administration and the departments of Agriculture, Conservation, Corrections, Economic Development, Elementary and Secondary Education, Health and Senior Services, Higher Education, Insurance, Financial Institutions and Professional Registration, Labor and Industrial Relations, Mental Health, Natural Resources, Public Safety, Revenue, Social Services and Transportation.

Within each executive department exists a variety of offices of varying size and scope which deal with specific services. Traditionally, "divisions" are the next-largest organizations within departments and function to bring together smaller-sized groups, such as "bureaus," "sections" or "units." Divisions may be governed by a "board" or "commission" composed of members who are either appointed by the governor, made members by law or appointed by a department official. State agencies may administer certain sections of state law as defined by the *Revised Statutes of Missouri*, may develop their own rules and regulations as promulgated in the Missouri Register and Code of State Regulations or may institute programs and policies which address the needs of their areas of service.

Generally speaking, the legislative and judicial branches rely on committees or other small, appointed groups to perform research, develop policy, provide advocacy services or handle administrative duties. In these two branches services are delivered through the offices of the elected officials themselves and not by related agencies.

## The Missouri Constitution

Since achieving statehood and joining the union on August 10, 1821, Missouri has operated under four Constitutions. The first was adopted in 1820 and was presented to Congress before Missouri was allowed to enter the union of states. The state's second Constitution, born in the bitterness and strife of the Civil War, was drafted and adopted in 1865. It was replaced by a third Constitution only ten years later, in 1875. Missourians approved their current Constitution in 1945, and it has been amended a number of times in order to meet the changing needs of our state and its people.

The Constitution of the State of Missouri is published by the Office of Secretary of State pursuant to the *Revised Statutes of Missouri* (RSMo 2.110). Copies of the Missouri Constitution, which also includes the text of the U.S. Constitution, are available without charge by contacting:

The Division of Facilities Management, Design and Construction (FMDC) operates, maintains and manages state-owned office buildings and other structures at the seat of government and other locations within the state. FMDC oversees leased property for agencies statewide and is also responsible for design, construction, renovation and repair of state facilities. Review of all requests for appropriations for capital improvements also falls under the responsibilities of FMDC.

The division's **Administrative/Planning Unit** consists of the following sections: project management, Capitol Improvements, Budget/Planning, Fiscal/Accounting and the Operating Budget. The unit also has oversight of the state's ID Badge Security System and the division's overall administrative and fiscal issues.

The division's **Operations unit** maintains state-owned buildings and grounds for agencies that are tenants in state-owned office buildings as well as buildings for the Department of Corrections, Elementary and Secondary Education, Mental Health and the Missouri Highway Patrol. The division manages 22 structures in the capitol complex comprising approximately 1.75 million square feet of usable space, including the State

The division, through its energy section, is responsible for monitoring energy consumption in state-owned buildings and is developing and implementing programs to help departments

comply with the Governor's *Executive Order 09-18*, mandating a reduction of energy consumption in state owned buildings. This unit also assists SEMA in providing emergency services during disaster relief efforts.

The division's **Real Estate Services unit** coordinates real estate transactions on behalf of the state to include conveyance of state-owned property, purchase of property and granting easements. The unit also oversees leases within state-owned property, purchase of property and granting easements. The unit also oversees leases within state-owned and leased space for state agencies throughout Missouri. The mission of the Information Technology Services Division (ITSD) is to provide technology and communication services and solutions to the state's departments and agencies so that they can efficiently and effectively serve the citizens of Missouri.

Under the leadership of the chief information officer, Missouri's information technology services division combines the staff and resources from fourteen of the executive branch departments into the ITSD as a single unified entity. The new organizational model allows for enterprise standards and guidance in the common areas of security, networking, data management, server administration, end user support, technical architecture and application management while maintaining a department focused perspective on service delivery.

Working in tandem with other state agencies through the Information Technology Advisory Board and other committees, ITSD aims to deliver available, reliable and accessible IT systems and services in an environment striving for optimization, collaboration, productivity and cost savings.

The Division of Personnel is responsible for the state's human resource management system and the Uniform Classification and Pay System, as established in the State Personnel Law (Chapter 36 RSMo).

The Missouri Merit System is based on the principles of merit and fitness as determined by competitive examinations for employment, as well as objective and consistent human resource management policies and procedures. The system also grants employees the ability to appeal disciplinary actions. Approximately 34,000 state employees in six state departments and sections of three other departments comprise the Missouri Merit System.

The Uniform Classification and Pay (UCP) system is designed to promote equity in pay among state employees in most executive branch agencies and to provide coordinated compensation policies. The UCP system covers approximately 40,000 employees of merit system agencies and employees from several other departments. The Division of Personnel is also responsible for the oversight of the statewide performance appraisal system.

The Division of Personnel is comprised of two sections:

**Employee Services** reviews applications for employment; ensures employees are assigned to appropriate job classes; develops and administers position classifications for agencies covered by the UCP; and develops, updates and administers merit system examinations.

**Pay, Leave and Reporting** provides information on the UCP system pay plan; interprets policies on pay, leave and hours of work; provides workforce reports and assistance with the SAM II HR/Payroll System; maintains lists of individuals from whom agencies can select for Merit System jobs; ensures personnel transactions are in compliance with state personnel law; coordinates labor relations activities statewide, develops and delivers statewide supervisory training and management programs; and provides administration of statewide employee recognition programs.

equipment and professional or general services. Certain agencies (e.g. MoDOT) are considered exempt in some areas. The division executes procurement functions in accordance with applicable statutes by maximizing competition in the procurement process, conducting evaluations and negotiations as appropriate, and awarding contracts to the "lowest and best" bidders.

The materials management section, the State Agency for Surplus Property (SASP), is responsible for transfers and disposal of state surplus property to obtain the maximum return on investment. SASP acquires property declared excess by federal government agencies to distribute to eligible Missouri entities. SASP is also responsible for the statewide in-house recycling program.

The Office of Supplier and Workforce Diversity (OSWD) assists and monitors state agencies in promoting and ensuring equal opportunity within state government through employment, provision of services and operation of facilities. OSWD is currently drafting a new executive order, but under current *Executive Order 05-03*, OSWD is responsible for assisting state agencies in promoting contracting and procurement opportunities for minority and women-owned businesses. In addition, OSWD continues to monitor the implementation of state employment practices to ensure that Missouri has a diversified and well balanced state workforce. tive tribunal that decides disputes involving state agencies and another party, usually a private person or corporation. The AHC typically decides the cases after a trial-type hearing. It hears evidence and arguments from the state agency and from the other party. Any party, including the state agency, may seek review of the AHC decision from the judicial branch.

The statutes authorize jurisdiction for the AHC to resolve disputes over decisions of more than 100 state agencies. Chief among them are the director of the Department of Revenue's tax decisions, professional licensing decisions of many boards of the Department of Insurance, Financial Institutions and Professional Registration and other departments, the Department of Social Services' decisions on payments to Medicaid service providers and the Missouri Health Facilities Committee's decisions on certificates of need. The statutes commit other specific matters to AHC also. AHC resolves about 2,000 cases per year.

AHC consists of not more than three members, appointed by the governor and confirmed by the Senate, who serve six-year terms.

### Board of Fund Commissioners

The Board of Fund Commissioners issues, redeems and cancels state general obligation bonds and performs other administrative activities related to state general obligation debt as assigned by law.

The board is composed of the governor, lieutenant governor, attorney general, state auditor, state treasurer and commissioner of administration. The governor is president of the board, and the state treasurer is secretary. An executive secretary performs staff functions for the board.

### Board of Public Buildings

The Board of Public Buildings (BPB) is composed of the governor, lieutenant governor and attorney general. The governor serves as the chair, and the lieutenant governor is the secretary. The speaker of the house of representatives and the President Pro Tempore of the Senate

serve as *ex officio* members of the BPB but do not have the power to vote.

Missouri law provides that the BPB has general supervision and charge of state facilities at the seat of government. The BPB also has the authority to issue revenue bonds for the construction of state office buildings and certain other facilities.

The board works with the Division of Facilities Management, Design and Construction and the Division of Accounting in carrying out its responsibilities.

### Board of Unemployment Fund Financing

The Board of Unemployment Fund Financing is composed of the governor, lieutenant governor, attorney general, director of the Department of Labor and Industrial Relations and the commissioner of administration. The governor serves as chair, the lieutenant governor serves as vice chair and the commissioner of administration serves as secretary. Staff support is provided by the commissioner of administration.

The board is authorized to issue debt or credit instruments to provide funds for the payment of unemployment benefits or maintaining an adequate fund balance in the unemployment fund, and as an alternative to borrowing or obtaining advances from the federal unemployment trust fund or for refinancing these loans or advances.

In 1994, Missouri voters approved the creation of the "Missouri Citizens' Commission on Compensation for Elected Officials." This commission was established to ensure that the power to control the rate of compensation of elected officials of this state is retained and exercised by tax-paying citizens of the state.

Beginning in 1996 and every two years thereafter, the commission will review the relationship of compensation to the duties of all elected state officials. The commission's recommendation of a salary schedule shall become effective unless disapproved by the General Assembly. The 22-member commission serves four-year terms.

The Governor's Council on Disability (GCD) serves as the voice and advocate in state policy making for 949,000 Missourians with disabilities. GCD educates people with disabilities about their rights and responsibilities; increases employment opportunities for job seekers with disabilities; expands access to equal and full participation for all individuals with disabilities in their communities at the local, state and federal levels. GCD provides youth leadership programming for young people with disabilities.

In 1947, President Harry S. Truman issued an executive order establishing the President's Committee on Employment of the Handicapped. This federal agency was created to assist disabled World War II veterans with re-entry into the civilian workforce. Following President Truman's lead, Missouri established the Governor's Committee in 1949 after it became obvious that a local network was needed to disseminate information about work-related problems facing people with disabilities.

The mission of GCD has naturally evolved from strictly promoting employment to addressing all of the barriers to employment and full participation in community life. To more accurately reflect the mission, the 1994 General Assembly renamed this agency the Governor's Council on Disability. GCD was transferred by executive order in 2004 from the Department

of Labor and Industrial Relations (DOLIR) to the Office of Administration (OA) to better meet its mission.

The GCD consists of 21 council members, including the chair and one member from each state congressional district, as well as the executive director. The majority of GCD is comprised of people with disabilities representing various disability groups. Family members of people with disabilities, persons who represent other disability-related groups and other advocates fill the remaining positions.

The governor appoints the chair with the advice and consent of the Senate. The governor also appoints the 21 members-at-large. GCD meets at least quarterly to act as an advisory body to its staff and to discuss and suggest ways to address current issues affecting persons with disabilities in Missouri.

In the administration of its duties, GCD also offers assistance to help the various departments, divisions and branches of government to comply with all laws regarding persons with disabilities. To further that goal, the director of each state department designates at least one employee to act as a liaison with the council. The assistance offered includes educational programming and consultation on the rights of persons with disabilities.

### Missouri Minority Business Advocacy Commission

State Capitol, Rm. 125  
Telephone: (573) 751-1851 / FAX: (573) 751-1212

The Missouri Minority Business Advocacy Commission (MBAC) identifies and assesses the needs of minority businesses throughout the state; initiates aggressive programs to assist minority businesses in obtaining state and federal procurement; makes recommendations regarding state policies, programs and procedures; and provides a focal point to assist and counsel minority small businesses in their dealing with federal, state and local governments. MBAC also initiates and encourages minority business education programs, analyzes current legislation and regulations as they affect minority businesses; and receives complaints and recommendations concerning policies and activities of federal, state and local governmental agencies which affect minority small businesses. The purpose of MBAC is to increase economic opportunity for minority businesses so that we can improve the overall climate of the state of Missouri; and to develop and establish the inclusionary process for state departments so that they can meet or exceed the goals and objectives of the legislation and executive order designed to increase minority participation in state procurement.

The Health and Educational Facilities Authority of the State of Missouri was created in 1975 by an act of the Missouri General Assembly. It is empowered to make loans to qualified health or educational institutions and to refund outstanding obligations, mortgages or advances previously issued, made or given for the cost of such facilities and to do all things necessary to carry out the purposes of the act. The authority consists of seven members appointed by the governor with the advice and consent of the Senate. Each member must be a resident of the state and no more than four members may be our of the same political party.

The mission of the authority is to provide access to the capital markets in an effort to lower the cost of health and educational services in Missouri by providing high quality, readily available, low cost financing alternatives for Missouri public and private, non-profit health and educational institutions.

This bipartisan authority consists of five commissioners who are qualified voters of the state of Missouri and residents of Jackson County. The Jackson County Legislature submits a list of candidates to the governor to replace members of the authority whose terms have expired. The governor then appoints the succeeding members from that list of candidates. The commissioners serve staggered terms of five years and hold office until a successor has been appointed and qualified. No more than three members may be of the same political party. The authority is empowered to issue bonds.
