115.124. Nonpartisan election in political subdivision or special district, no election required if number of candidates filing is same as number of positions to be filled—exceptions—random drawing filing procedure followed when election is required—municipal elections, certain municipalities may submit requirements of subsection 1 to voters.—1.

Notwithstanding any other law to the contrary, in a nonpartisan election in any political subdivision or special district including municipal elections in any city, town, or village with one thousand or fewer inhabitants that have adopted a proposal pursuant to subsection 3 of this section but excluding municipal elections in any city, town, or village with more than one thousand inhabitants, if the notice provided for in subsection 5 of section 115.127 has been published in at least one newspaper of general circulation as defined in section 493.050 in the district, and if the number of candidates who have filed for a particular office is equal to the number of positions in that office to be filled by the election, no election shall be held for such office, and the candidates shall assume the responsibilities of their offices at the same time and in the same manner as if they had been elected. If no election is held for such office as provided in this section, the election authority shall publish a notice containing the names of the candidates that shall assume the responsibilities of office under this section. Such notice shall be published in at least one newspaper of general circulation as defined in section 493.050 in such political subdivision or district by the first of the month in which the election would have occurred, had it been contested. Notwithstanding any other provision of law to the contrary, if at any election the number of candidates filing for a particular office exceeds the number of positions to be filled at such election, the election authority shall hold the election as scheduled, even if a sufficient number of candidates withdraw from such contest for that office so that the number of candidates remaining after the filing deadline is equal to the number of positions to be filled.

2. The election authority or political subdivision responsible for the oversight of the filing of candidates in any nonpartisan election in any political subdivision or special district shall clearly designate where candidates shall form a line to effectuate such filings and determine the order of such filings; except that, in the case of candidates who file a declaration of candidacy with the election authority or political subdivision prior to 5:00 p.m. on the first day for filing, the election authority or political subdivision may determine by random drawing the order in which such

candidates' names shall appear on the ballot. If a drawing is conducted pursuant to this subsection, it shall be conducted so that each candidate, or candidate's representative if the candidate filed under subsection 2 of section 115.355, may draw a number at random at the time of filing. If such drawing is conducted, the election authority or political subdivision shall record the number drawn with the candidate's declaration of candidacy. If such drawing is conducted, the names of candidates filing on the first day of filing for each office on each ballot shall be listed in ascending order of the numbers so drawn.

****3.** The governing body of any city, town, or village with one thousand or fewer inhabitants may submit to the voters at any available election, a question to adopt the provisions of subsection 1 of this section for municipal elections. If a majority of the votes cast by the qualified voters voting thereon are in favor of the question, then the city, town, or village shall conduct nonpartisan municipal elections as provided in subsection 1 of this section for all nonpartisan elections remaining in the year in which the proposal was adopted and for the six calendar years immediately following such approval. At the end of such six-year period, each such city, town, or village shall be prohibited from conducting such elections in such a manner unless such a question is again adopted by the majority of qualified voters as provided in this subsection.

115.333. Determination of validity or invalidity, when made—refusal to file, procedure to have court determine validity.—1. When any petition is filed with the secretary of state or an election authority under the provisions of this subchapter, the secretary of state or the election authority shall determine whether or not it complies with the provisions of this subchapter. When any petition is filed with the secretary of state or an election authority under the provisions of this subchapter, the secretary of state or the election authority shall, not later than the eleventh Tuesday prior to the general election, issue a statement setting forth such person's determination. When a petition for the formation of a new party or nomination of an independent candidate for a special election is filed with the secretary of state or an election authority, the secretary of state or the election authority shall issue a statement setting forth its determination as soon as possible but in no case too late to permit placement of the party or candidate on the ballot. If the secretary of state or the election authority determines that a petition does not comply with the provisions of this subchapter, such person shall state the reason for such person's determination in the statement.

2. If the secretary of state or the election authority refuses to file a petition for the formation of a new party or the nomination of an independent candidate or refuses to issue a statement setting forth such person's determination within the time prescribed, any registered voter may apply, within ten days after the refusal, to the circuit court for a writ of mandamus to compel such person to file the petition or issue the statement. If it is decided by the court that the petition is legally sufficient, the secretary of state or the election authority shall file it, with a certified copy of the judgment attached thereto, as of the date it was originally offered for filing in such person's office. On showing that any petition filed is not legally sufficient, the court may enjoin all election officials from certifying or printing the name of the independent candidate or new party and its candidates on the official ballot. All such suits shall be advanced on the court docket and heard and decided by the court as quickly as possible. The secretary of state or the election authority shall have specific authority to determine the validity of signatures on petitions filed with his office and shall have authority not to count those which are, in his opinion, forged or fraudulent or the signatures of persons who are not registered voters.

For the purpose of verifying signatures on any new party or independent candidate petition filed with his office, the secretary of state may send copies of petition pages by certified mail to the appropriate election authorities for registration verification. Each election authority receiving a copy of petition pages shall check any signature indicated by the secretary of state against the registration records and return all such copies to the secretary of state by certified mail no later than the day designated by the secretary of state. The secretary of state shall not designate any deadline for returning copies and certifications which is less than ten or more than forty days after the copies have been received by the election authority. If the secretary of state or an elec-

tion authority determines the congressional district number written after the signature of any registered voter is not the congressional district in which he resides, the secretary of state or the election authority shall correct the congressional district number on the petition page. Failure of a voter to give his correct congressional district number shall not alone be sufficient reason to disqualify his signature. Only valid signatures from the county named in the circulator's affidavit shall be counted on any petition page.

3. The secretary of state or election authority shall have authority to verify the signatures on petitions filed with his office by use of random sampling. Random sampling may be used on any petition on which five hundred or more signatures are required. Petitions requiring fewer than five hundred signatures shall have each signature checked and random sampling shall not be used. The random sample of signatures to be verified shall be drawn in such a manner that every signature contained on the filed petition shall be given an equal opportunity to be included in the sample. Such a random sampling shall include an examination of not less than five percent of the signatures so filed.

4. If the random sample verification establishes that the number of valid signatures is less than ninety-five percent of the number of qualified voters needed to find the petition sufficient, the petition shall be deemed to have failed to qualify.

5. If the random sample verification establishes that the number of valid signatures total more than one hundred five percent of the number of qualified voters needed to find the petition sufficient, the petition shall be deemed to qualify in that district.

6. If the random sample verification establishes that the number of valid signatures is more than ninety-five percent but less than one hundred five percent of the number of qualified voters needed to find the petition sufficient, each signature filed shall be examined and verified.

7. The secretary of state is authorized to adopt rules to ensure uniform, complete and accurate checking of petition signatures either by actual counting or random sampling.

8. If copies of petition pages are sent to any local election authority for registration verification under the provisions of this subchapter, the secretary of state's final determination on the number of valid signatures submitted on the petition from the election authority's jurisdiction shall be based on the certification made by the election authority.

The city election authority receiving a copy of petition pages shall check each signature indicated by the county election authority against its registration records and return all such copies to the county election authority no later than the day designated by the county election authority. At the same time the copies are returned, the city election authority shall certify to the county election authority the page number of each page it received and the total number of valid signatures from the city on the pages. The county election authority shall not designate any deadline for returning copies and certifications which is less than six or more than twelve working days after the copies have been received by the city election authority.

2. If copies of petition pages are sent to a city election authority for registration verification under the provisions of this section, the county election authority's final determination on the number of valid signatures submitted on the petition from the city shall be based on the certification made by the city election authority.

115.430. Provisional ballots, used when, exceptions, procedure, counted when, how—rulemaking authority—free access system established—provisional ballot only used, when—no jurisdiction in state courts to extend polling hours.—1. This section shall apply to primary and general elections where candidates for federal or statewide offices are nominated or elected and any election where statewide issue or issues are submitted to the voters.

2. (1) A voter claiming to be properly registered in the jurisdiction of the election authority and eligible to vote in an election, but whose eligibility at that precinct cannot be immediately established upon examination of the precinct register, shall be entitled to vote a provisional ballot after providing a form of personal identification required pursuant to section 115.427 or upon executing an affidavit under section 115.427, or may vote at a central polling place as established in section 115.115 where the voter may vote his or her appropriate ballot for his or her precinct of residence upon verification of eligibility or vote a provisional ballot if eligibility cannot be determined. The provisional ballot provided to a voter under this section shall be the ballot provided to a resident of the voter's precinct determined by reference to the affidavit provided for in this section. If the voter declares that the voter is eligible to vote and the election authority determines that the voter is eligible to vote at another polling place, the voter shall be directed to the correct polling place or a central polling place as established by the election authority pursuant to subsection 5 of section 115.115. If the voter refuses to go to the correct polling place or a central polling place, the voter shall be permitted to vote a provisional ballot at the incorrect polling place, but such ballot shall not be counted if the voter was not eligible to vote at that polling place.

(2) The following steps shall be taken to establish a voter's eligibility to vote at a polling place:

(a) The election judge shall examine the precinct register as provided in section 115.425. If the voter is registered and eligible to vote at the polling place, the voter shall receive a regular ballot;

(b) If the voter's eligibility cannot be immediately established by examining the precinct register, the election judge shall contact the election authority. If the election authority cannot immediately establish that the voter is registered and eligible to vote at the polling place upon examination of the Missouri voter registration system, or if the election judge is unable to make contact with the election authority immediately, the voter shall be notified that the voter is entitled to a provisional ballot.

(3) The voter shall have the duty to appear and vote at the correct polling place. If an election judge determines that the voter is not eligible to vote at the polling place at which a voter presents himself or herself, and if the voter appears to be eligible to vote at another polling place, the voter shall be informed that he or she may cast a provisional ballot at the current polling place or may travel to the correct polling place or a central polling place, as established by the election authority under subsection 5 of section 115.115, where the voter may cast a regular ballot or provisional ballot if the voter's eligibility still cannot be determined. Provisional ballots cast at a polling place shall be counted only if the voter was eligible to vote at such polling place as provided in subsection 5 of this section.

(4) For a voter requesting an absentee ballot in person, such voter shall be entitled to cast a provisional ballot when the voter's eligibility cannot be immediately established upon examination of the precinct registers or the Missouri voter registration system.

(5) Prior to accepting any provisional ballot at the polling place, the election judges shall determine that the information provided on the provisional ballot envelope by the provisional voter is consistent with the identification provided by such person under section 115.427.

3. (1) No person shall be entitled to receive a provisional ballot until such person has completed a provisional ballot affidavit on the provisional ballot envelope.

(2) The secretary of state shall produce appropriate sizes of provisional ballot envelopes and distribute them to each election authority according to their tabulating system. All provisional ballot envelopes shall be printed on a distinguishable color of paper that is different from the color of the regular ballot. The provisional ballot envelope shall be in the form required by subsection 4 of this section. All provisional ballots shall be marked with a conspicuous stamp or other distinguishing mark that makes them readily distinguishable from the regular ballots.

(3) Once voted, the provisional ballot shall be placed and sealed in a provisional ballot envelope.

4. The provisional ballot in its envelope shall be deposited in the ballot box. The provisional ballot envelope shall be completed by the voter for use in determining eligibility. I further understand that knowingly providing false information is a violation of law and subjects me to possible criminal prosecution.

The voter may provide additional information to further assist the election authority in determining eligibility, including the place and date the voter registered to vote, if known.

5. (1) Prior to counting any provisional ballot, the election authority shall determine if the voter is registered and eligible to vote and if the vote was properly cast. The eligibility of provisional votes shall be determined according to the requirements for a voter to cast a ballot in the election as set forth in sections 115.133 and 115.135. A provisional voter ballot shall not be eligible to be counted until the election authority has determined that:

(a) The voter cast such provisional ballot at a polling place established for the voter or the central polling place established by the election authority under subsection 5 of section 115.115;

(b) The individual who cast the provisional ballot is an individual registered to vote in the respective election at the polling place where the ballot was cast;

(c) The voter did not otherwise vote in the same election by regular ballot, absentee ballot, or otherwise; and

(d) The information on the provisional ballot envelope is found to be correct, complete, and accurate.

(2) When the ballot boxes are delivered to the election authority from the polling places, the receiving teams shall separate the provisional ballots from the rest of the ballots and place the sealed provisional ballot envelopes in a separate container. Teams of election authority employees or teams of election judges with each team consisting of one member of each major political party shall photocopy each provisional ballot envelope, such photocopy to be used by the election authority to determine provisional voter eligibility. The sealed provisional ballot envelopes shall be placed by the team in a sealed container and shall remain therein until tabulation.

(3) To determine whether a provisional ballot is valid and entitled to be counted, the election authority shall examine its records and verify that the provisional voter is properly registered and eligible to vote in the election. If the provisional voter has provided information regarding the registration agency where the provisional voter registered to vote, the election authority shall make an inquiry of the registration agency to determine whether the provisional voter is properly registered and eligible to vote in the election.

(4) If the election authority determines that the provisional voter is registered and eligible to vote in the election, the election authority shall provide documentation verifying the voter's eligibility. Such documentation shall be noted on the copy of the provisional ballot envelope and shall contain substantially the following information:

(a) The name of the provisional voter;

(b) The name of the reviewer;

(c) The date and time; and

(d) A description of evidence found that supports the voter's eligibility.

(5) The local election authority shall record on a provisional ballot acceptance/rejection list the provisional ballot identification number and a notation marking it as accepted.

(6) If the election authority determines that the provisional voter is not registered or eligible to vote in the election, the election authority shall provide documentation verifying the voter's ineligibility. Such documentation shall be noted on the copy of the provisional ballot envelope and shall contain substantially the following information:

(a) The name of the provisional voter;

(b) The name of the reviewer;

(c) The date and time;

(d) A description of why the voter is ineligible.

(7) The local election authority shall record on a provisional ballot acceptance/rejection list the provisional ballot identification number and notation marking it as rejected.

(8) If rejected, a photocopy of the envelope shall be made and used by the election authority as a mail-in voter registration. The actual provisional ballot envelope shall be kept as ballot material, and the copy of the envelope shall be used by the election authority for registration record keeping.

6. All provisional ballots cast by voters whose eligibility has been verified as provided in this section shall be counted in accordance with the rules governing ballot tabulation. Provisional ballots shall not be counted until all provisional ballots are determined either eligible or ineligible and all provisional ballots must be processed before the election is certified. The provisional ballot shall be counted only if the election authority determines that the voter is registered and eligible to vote. Provisional ballots voted in the wrong polling place shall not be counted. If the

voter is not registered but is qualified to register for future elections, the affidavit shall be considered a mail-in application to register to vote pursuant to this chapter.

7. (1) After the election authority completes its review of the provisional voter's eligibility under subsection 5 of this section, the election authority shall deliver the provisional ballots and copies of the provisional ballot envelopes that include eligibility information to bipartisan counting teams, which may be the board of verification, for review and tabulation. The election authority shall maintain a record of such delivery. The record shall include the number of ballots delivered to each team and shall include a signed receipt from two judges, one from each major political party. The election authority shall provide each team with a ballot box and material necessary for tabulation.

(2) If the person named on the provisional ballot affidavit is found to have been properly qualified and registered to cast a ballot in the election and the provisional ballot otherwise qualifies to be counted under the provisions of this section, the envelope shall be opened, and the ballot shall be placed in a ballot box to be counted.

(3) If the person named on the provisional ballot affidavit is found not to have been properly qualified and registered to cast a ballot in the election or if the election authority is unable to determine such person's right to vote, the envelope containing the provisional ballot shall not be opened, and the person's vote shall not be counted. The members of the team shall follow the procedures set forth in subsection 5 of this section for rejected provisional ballots.

(4) The votes shall be tallied and the returns made as provided in sections 115.447 to 115.525 for paper ballots. After the vote on all ballots assigned to a team have been counted, the ballots, ballot envelopes, and copies of ballot envelopes with the eligibility information provided by the election authority shall be enclosed in sealed containers marked "Voted provisional ballots and ballot envelopes from the election held, 20...". All rejected provisional ballots, ballot envelopes, and copies of ballot envelopes with the eligibility information provided by the election authority shall be enclosed in sealed containers marked "Rejected provisional ballots and ballot envelopes from the election held, 20...". On the outside of each voted ballot and rejected ballot container, each member of the team shall write their name and all such containers shall be returned to the election authority. Upon receipt of the returns and ballots, the election authority shall tabulate the provisional votes.

8. Challengers and watchers, as provided by sections 115.105 and 115.107, may be present during all times that the bipartisan counting teams are reviewing or counting the provisional ballots, the provisional ballot envelopes, or copies of the provisional ballot envelopes that include eligibility information provided by the election authority. Challengers and watchers shall be permitted to observe the determination of the eligibility of all provisional ballots. The election authority shall notify the county chair of each major political party of the time and location when bipartisan counting teams will be reviewing or counting the provisional ballots, the provisional ballot envelopes, or the copies of the provisional ballot envelopes that include the eligibility information provided by the election authority.

9. The certificate of ballot cards shall:

- (1) Reflect the number of provisional envelopes delivered; and
- (2) Reflect the number of sealed provisional envelopes with voted ballots deposited in the ballot box.

10. In counties where the voting system does not utilize a paper ballot, the election authority shall provide the appropriate provisional ballots to each polling place.

11. The secretary of state may promulgate rules for purposes of ensuring the uniform application of this section. No rule or portion of a rule promulgated pursuant to the authority of this section shall become effective unless it has been promulgated pursuant to chapter 536, RSMo.

12. The secretary of state shall design and provide to the election authorities the envelopes and forms necessary to carry out the provisions of this section.

13. Pursuant to the Help America Vote Act of 2002, the secretary of state shall ensure a free access system is established, such as a toll-free number or an Internet web site, that any individ-

ual who casts a provisional ballot may access to discover whether the vote of that individual was counted, and, if the vote was not counted, the reason that the vote was not counted. At the time an individual casts a provisional ballot, the election authority shall give the voter written information that states that any individual who casts a provisional ballot will be able to ascertain under such free access system whether the vote was counted, and if the vote was not counted, the reason that the vote was not counted.

14. In accordance with the Help America Vote Act of 2002, any individual who votes in an election as a result of a court order or any other order extending the time established for closing the polls in section 115.407 may vote only by using a provisional ballot, and such provisional ballot shall be separated and held apart from other provisional ballots cast by those not affected by the order. Such ballots shall not be counted until such time as the ballots are determined to be valid. The voter shall mark the ballot, and the election judges shall place the ballot in an envelope and place it in the ballot box.

2. In jurisdictions using voting machines, when any physically disabled voter within two hundred feet of a polling place is unable to enter the polling place, two election judges, one of each major political party, shall take an absentee ballot to the voter. The voter shall mark the ballot, and the election judges shall place the ballot in an envelope and place it in the ballot box.

3. Upon request to the election authority, the election authority in any jurisdiction shall designate a polling place accessible to any physically disabled voter other than the polling place to which that voter would normally be assigned to vote, provided that the candidates and issues voted on are consistent for both the designated location and the voting location for the voter's precinct. Upon request, the election authority may also assign members of the physically disabled voter's household and such voter's caregiver to the same voting location as the physically disabled voter. In no event shall a voter be assigned under this section to a designated location

apart from the established voting location for the voter's precinct if the voter objects to the assignment to another location.

115.439. Procedure for voting paper ballot—rulemaking authority.—1. If paper ballots are used, the voter shall, immediately upon receiving his ballot, go alone to a voting booth and vote his ballot in the following manner:

(1) When a voter desires to vote for a candidate, the voter shall place a distinguishing mark immediately beside the name of the candidate for which the voter intends to vote;

(2) If a write-in line appears on the ballot, the voter may write the name of the person for whom he or she wishes to vote on the line and place a distinguishing mark immediately beside the name;

(3) If the ballot is one which contains no candidates, the voter shall place a distinguishing mark directly to the left of each “yes” or “no” he desires to vote.

No voter shall vote for the same person more than once for the same office at the same election.

2. If the voter accidentally spoils his ballot or ballot card or makes an error, he may return it to an election judge and receive another. The election judge shall mark “SPOILED” across the ballot or ballot card and place it in an envelope marked “SPOILED BALLOTS”. After another ballot has been prepared in the manner provided in section 115.433, the ballot shall be given to the voter for voting.

3. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2002, shall be invalid and void.

(L. 1977 H.B. 101 § 11.080, A.L. 1993 S.B. 31, A.L. 2002 S.B. 675, A.L. 2006 S.B. 1014 & 730, A.L. 2013 S.B. 99)

115.441. Delay by voter prohibited.—Each voter shall vote without undue delay.

(L. 1977 H.B. 101 § 11.085)

Effective 1-1-78

115.443. Paper ballots, how marked—electronic voting machines, how voted.—1. Where paper ballots are used, the voter shall, before leaving the voting booth, fold his ballot so that the distinguishing marks are concealed. The voter shall place his ballot in the ballot box and leave the polling place immediately.

2. Where electronic voting machines are used, the voter shall register his vote as directed in the instructions for use of the machine and leave the polling place immediately.

(L. 1977 H.B. 101 § 11.090, A.L. 2014 H.B. 1136)

115.445. No one but voter in booth, exception.—1. Except as provided in subsections 2 and 3 of this section, no one other than the voter shall be permitted in any voting booth or permitted to be in any position where he may see how a voter is voting.

2. If any voter, after entering a voting booth, asks for further instructions concerning the manner of voting, two election judges of different political parties shall give such instructions. Such judges shall not enter the voting booth unless it is impossible to give the instructions otherwise. After giving the instructions, the judges shall leave the area and take all necessary measures to insure that the voter casts his vote in secret.

3. If any voter declares under oath to the election judges that he cannot read or write, is blind or has any other physical disability and cannot vote his ballot, he may be assisted by the election judges or by any person of his own choice other than a judge. If the voter asks for the assistance of election judges, two judges of different political parties shall go to the voting booth and cast his vote as he directs. If the voter asks for the assistance of someone other than election judges, the assistant shall go to the voting booth with the voter and cast his vote as he directs. No person, other than election judges and members of such voters' immediate families, shall assist more than one voter at one election.

4. A child under the age of eighteen shall be allowed to accompany his or her parent, grandparent, or guardian into a voting booth.

COUNTING OF VOTES

115.447. Definitions.—1. As used in this subchapter, unless the context clearly implies otherwise, the following terms shall mean:

(1) "Counting judges" are the two judges, one from each major political party, who read each vote received by all candidates and each vote for and against all questions at a polling place;

(2) "Receiving judges" are the two judges, one from each major political party, who initial each voter's ballot at a polling place;

(3) "Recording judges" are the two judges, one from each major political party, who tally the votes received by each candidate and for and against each question at a polling place. These terms describe functions rather than individuals, and any election judge may perform more than one function at a polling place on election day.

2. As used in this subchapter, unless the context clearly implies otherwise, the following terms shall mean:

(1) "Defective ballot" is any ballot card on which the number of write-in votes and votes cast on the ballot card for any office exceed the number allowed by law, and any ballot card which is bent or damaged so that it cannot be properly counted by automatic tabulating equipment;

(2) "Rejected ballot" is any ballot on which no votes are counted because the ballot fails to have the initials of the proper election judges, because the number of votes for all offices and on all questions exceeds the number authorized by law, because the voter is deemed by the election judges to be unqualified, because it is an absentee ballot not accompanied by a completed and signed affidavit, or because the ballot was voted with unlawful assistance;

(3) "Spoiled ballot" is any ballot accidentally spoiled by a voter and replaced by election judges in the manner provided in subsection 2* of section 115.439.

(L. 1977 H.B. 101 § 12.001)

Effective 1 1 78

**Reprinted due to editorial change caused by renumbering of subsections in section 115.439 as amended by S.B. 99, 2013.*

115.449. Ballots, when and how counted.—1. As soon as the polls close in each polling place using paper ballots, the election judges shall begin to count the votes. If earlier counting is begun pursuant to section 115.451, the election judges shall complete the count in the manner provided by this section. Once begun, no count shall be adjourned or postponed until all proper votes have been counted.

2. One counting judge, closely observed by the other counting judge, shall take the ballots out of the ballot box one at a time and, holding each ballot in such a way that the other counting judge may read it, shall read the name of each candidate properly voted for and the office sought by each. As each vote is called out, the recording judges shall each record the vote on a tally sheet. The votes for and against all questions shall likewise be read and recorded. If more than one political subdivision or special district is holding an election on the same day at the same

polling place and using separate ballots, the counting judges may separate the ballots of each political subdivision and special district and first read one set, then the next and so on until all proper votes have been counted.

3. After the recording of all proper votes, the recording judges shall compare their tallies. When the recording judges agree on the count, they shall sign both of the tally sheets, and one of the recording judges shall announce in a loud voice the total number of votes for each candidate and for and against each question.

4. After the announcement of the vote, the election judges shall record the vote totals in the appropriate places on each statement of returns. If any tally sheet or statement of returns contains no heading for any question, the election judges shall write the necessary headings on the tally sheet or statement of returns.

(L. 1977 H.B. 101 § 12.005, A.L. 2006 S.B. 1014 & 730, A.L. 2013, S.B. 99)

115.451. Judges may read and record votes before polls close, when—procedure to be followed.—If authorized by the election authority, the election judges may read and record votes before the close of the polls. If so authorized, the election judges shall use one ballot box for the deposit of ballots during the first hour of voting. At the end of the hour, the receiving judges shall deliver the ballot box to the counting and recording judges, who shall give the receiving judges a second empty ballot box. The second ballot box shall be shown to be empty and locked in the manner provided in section 115.423. The second ballot box shall not be opened or removed from public view from the time it is shown to be empty until the time the polls close or it is removed for counting pursuant to this section. The ballot box containing the voted ballots shall be taken to a private area within the polling place, and the ballots shall be read and recorded in the manner provided by section 115.449. In no case shall ballot boxes be switched at less than one hour intervals and then only if twenty-five or more ballots have been voted during the hour.

(L. 1977 H.B. 101 § 12.010)

Effective 1-1-78

115.453. Procedure for counting votes for candidates.—Election judges shall count votes for all candidates in the following manner:

(1) No candidate shall be counted as voted for, except a candidate before whose name a distinguishing mark appears preceding the name and a distinguishing mark does not appear in the square preceding the name of any candidate for the same office in another column. Except as provided in this subdivision and subdivision (2) of this section, each candidate with a distinguishing mark preceding his or her name shall be counted as voted for;

(2) If distinguishing marks appear next to the names of more candidates for an office than are entitled to fill the office, no candidate for the office shall be counted as voted for. If more than one candidate is to be nominated or elected to an office, and any voter has voted for the same candidate more than once for the same office at the same election, no votes cast by the voter for the candidate shall be counted;

(3) No vote shall be counted for any candidate that is not marked substantially in accordance with the provisions of this section. The judges shall count votes marked substantially in accordance with this section and section 115.456 when the intent of the voter seems clear. Regulations promulgated by the secretary of state shall be used by the judges to determine voter intent. No ballot containing any proper votes shall be rejected for containing fewer marks than are authorized by law;

(4) Write-in votes shall be counted only for candidates for election to office who have filed a declaration of intent to be a write-in candidate for election to office with the proper election authority, who shall then notify the proper filing officer of the write-in candidate prior to 5:00 p.m. on the second Friday immediately preceding the election day; except that, write-in votes shall be counted only for candidates for election to state or federal office who have filed a declaration of

intent to be a write-in candidate for election to state or federal office with the secretary of state pursuant to section 115.353 prior to 5:00 p.m. on the second Friday immediately preceding the election day. No person who filed as a party or independent candidate for nomination or election to an office may, without withdrawing as provided by law, file as a write-in candidate for election to the same office for the same term. No candidate who files for nomination to an office and is not nominated at a primary election may file a declaration of intent to be a write-in candidate for the same office at the general election. When declarations are properly filed with the secretary of state, the secretary of state shall promptly transmit copies of all such declarations to the proper election authorities for further action pursuant to this section. The election authority shall furnish a list to the election judges and counting teams prior to election day of all write-in candidates who have filed such declaration. This subdivision shall not apply to elections wherein candidates are being elected to an office for which no candidate has filed. No person shall file a declaration of intent to be a write-in candidate for election to any municipal office unless such person is qualified to be certified as a candidate under section 115.346;

(5) Write-in votes shall be cast and counted for a candidate without party designation. Write-in votes for a person cast with a party designation shall not be counted. Except for candidates for political party committees, no candidate shall be elected as a write-in candidate unless such candidate receives a separate plurality of the votes without party designation regardless of whether or not the total write-in votes for such candidate under all party and without party designations totals a majority of the votes cast;

(6) When submitted to the election authority, each declaration of intent to be a write-in candidate for the office of United States president shall include the name of a candidate for vice president and the name of nominees for presidential elector equal to the number to which the state is entitled. At least one qualified resident of each congressional district shall be nominated as presidential elector. Each such declaration of intent to be a write-in candidate shall be accompanied by a declaration of candidacy for each presidential elector in substantially the form set forth in subsection 3 of section 115.399. Each declaration of candidacy for the office of presidential elector shall be subscribed and sworn to by the candidate before the election official receiving the declaration of intent to be a write-in, notary public or other officer authorized by law to administer oaths.

(L. 1977 H.B. 101 § 12.015, A.L. 1979 S.B. 275, A.L. 1983 S.B. 234, A.L. 1997 S.B. 132, A.L. 1999 H.B. 676, A.L. 2002 S.B. 675, A.L. 2006 S.B. 1014 & 730, A.L. 2008 H.B. 1311, A.L. 2014 H.B. 1136)

115.455. Procedure for counting votes on questions.—Election judges shall count votes on each question in the following manner:

(1) If a distinguishing mark appears immediately beside or below the “YES”, the question shall be counted as voted for. If a distinguishing mark appears immediately beside or below the “NO”, the question shall be counted as voted against;

(2) If a distinguishing mark appears immediately beside or below the “YES” and immediately beside or below the “NO”, the question shall neither be counted as voted for nor as voted against.

(L. 1977 H.B. 101 § 12.020, A.L. 2013 S.B. 99)

115.456. Responsibilities of election authority, counting punch card ballots—counting optical scan ballots—counting paper ballots—write-in stickers—marks indicating political party preference, how construed.—1. (1) The election authority shall be responsible for ensuring that the standards provided for in this subsection are followed when counting ballots cast using optical scan voting systems.

(2) Prior to tabulating ballots, all machines shall be programmed to reject blank ballots where no votes are recorded or where an overvote is registered in any race.

(3) In jurisdictions using precinct-based tabulators, the voter who cast the ballot shall review the ballot if rejected, if the voter wishes to make any changes to the ballot, or if the voter would like to spoil the ballot and receive another ballot.

(4) In jurisdictions using centrally based tabulators, if a ballot is so rejected it shall be reviewed by a bipartisan team using the following criteria:

(a) If a ballot is determined to be damaged, the bipartisan team shall spoil the original ballot and duplicate the voter's intent on the new ballot, provided that there is an undisputed method of matching the duplicate card with its original after it has been placed with the remainder of the ballot cards from such precinct; and

(b) Voter intent shall be determined using the following criteria:

a. There is a distinguishing mark in the printed oval or divided arrow adjacent to the name of the candidate or issue preference;

b. There is a distinguishing mark adjacent to the name of the candidate or issue preference; or

c. The name of the candidate or issue preference is circled.

(5) In jurisdictions using optical scan systems, a valid vote for a write-in candidate shall include the following:

(a) A distinguishing mark in the designated location preceding the name of the candidate;

(b) The name of the candidate. If the name of the candidate as written by the voter is substantially as declared by the candidate it shall be counted, or in those circumstances where the names of candidates are similar, the names of candidates as shown on voter registration records shall be counted; and

(c) The name of the office for which the candidate is to be elected.

(6) Whenever a hand recount of votes of optical scan ballots is ordered, the provisions of this subsection shall be used to determine voter intent.

2. (1) The election authority shall be responsible for ensuring that the standards provided for in this subsection are followed when counting ballots cast using paper ballots.

(2) Voter intent shall be determined using the following criteria:

(a) There is a distinguishing mark in the square adjacent to the name of the candidate or issue preference;

(b) There is a distinguishing mark adjacent to the name of the candidate or issue preference; or

(c) The name of the candidate or issue preference is circled.

(3) In jurisdictions using paper ballots, a valid vote for a write-in candidate shall include the following:

(a) A distinguishing mark in the square immediately preceding the name of the candidate;

(b) The name of the candidate. If the name of the candidate as written by the voter is substantially as declared by the candidate it shall be counted, or in those circumstances where the names of candidates are similar, the names of candidates as shown on voter registration records shall be counted; and

(c) The name of the office for which the candidate is to be elected.

(4) Whenever a hand recount of votes of paper ballots is ordered, the provisions of this subsection shall be used to determine voter intent.

3. Notwithstanding any other provision of law, a distinguishing mark indicating a general preference for or against the candidates of one political party shall not be considered a vote for or against any specific candidate.

(L. 2006 S.B. 1014 & 730, A.L. 2013 S.B. 99)

115.457. Uninitialed ballots rejected, exception.—If a ballot appears without the initials of two election judges, the ballot shall be rejected, except when it appears the absence of initials is due to a mistake of the election judges and that the ballot is otherwise legal and proper.

(L. 1977 H.B. 101 § 12.025)

Effective 1-1-78

115.459. Duties of judges after polls close (paper ballots).—At each polling place using paper ballots, after the polling place is closed, the election judges shall

(1) Certify in the tally book the number of ballots cast, the number of identification certificates signed, the number of rejected and spoiled ballots and the number of ballots received at the polling place which were not cast at the election. If the number of signed identification certificates is not the same as the number of ballots cast, the judges shall make a signed statement of the fact and the reasons therefor if known and shall return the statement with the statements of returns;

(2) Certify on two statements of returns the number of votes received by each candidate and for and against each question. No returns shall be signed in blank or before the polls have closed and all proper votes cast at the polling place have been counted;

(3) Certify that each statement made in the tally book and on each statement of returns is correct. If any judge declines to certify that all such statements are correct, he shall state his reasons in writing, which shall be attached to each statement of returns and returned with the statement to the election authority.

115.463. Procedure after statements of returns signed (paper ballots).—Immediately after signing the statements of returns, the election judges shall enclose the voted ballots, tally books, tally sheets, statements of returns and other election supplies in containers designated by the election authority.

(L. 1977 H.B. 101 § 12.040)
Effective 1-1-78

115.465. Procedure for returning voted ballots (paper ballots).—1. If the election authority directs the voted ballots to be returned in a ballot box, the box shall be locked and the key removed. Each election judge shall write his name on a strip of paper which shall be pasted over the keyhole of the ballot box and extended over the upper lid of the box and over the top for some distance. The strip shall be pasted in such a manner that the signatures extend across the keyhole and place of opening so that if the box is opened or the key inserted in the keyhole, the paper will be torn and the signatures destroyed. The paper shall be fastened with an adhesive material which will not permit removal of the strip without defacing it.

2. If the election authority directs the voted ballots to be returned in an envelope or other container, the container shall be sealed. Each election judge shall write his name on a strip of paper which shall be pasted over the opening of the container. The strip shall be pasted in such a

manner that the signatures extend across the place of opening so that if the container is opened, the paper will be torn and the signatures destroyed. The paper shall be fastened with an adhesive material which will not permit removal of the strip without defacing it.

3. On the outside of the ballot box or other container in which the ballots are returned, the location of the polling place and the date of the election shall be printed.

(L. 1977 H.B. 101 § 12.045)

Effective 1-1-78

115.467. Duties of judges after polls close (electronic voting).—1. As soon as the polls close in each polling place using an electronic voting system, the election judges shall secure the marking devices against further voting and begin to count the write-in votes. If earlier counting of write-in votes is begun pursuant to section 115.469, the election judges shall complete the count in the manner provided in this section. Once begun, the count shall not be adjourned or postponed until all proper write-in votes in the ballot box have been counted.

2. The election judges shall remove the ballot cards from the ballot box and separate the ballots with write-in votes from those without write-in votes. If there is a separate form for write-in votes, all forms on which write-in votes have been recorded shall be consecutively numbered, starting with the number one, and the same number shall be placed on the ballot card of the voter. Where tallying of write-in votes is to be done at the polling place, the election judges shall compare the write-in votes with the votes cast on the ballot card. If the total number of votes including write-in votes for any office exceeds the number allowed by law, or if a voter has voted more than once for the same person for the same office at the same election, a notation of the fact shall be noted on the back of the ballot card, and it shall be returned with the write-in form, if any, to the counting location in an envelope marked “DEFECTIVE BALLOTS”.

3. All proper write-in votes shall be read, recorded and counted as provided in sections 115.449 and 115.453. No write-in vote shall be counted for any candidate for any office whose name appears on the ballot label as a candidate for the office, except when more than one person is to be nominated or elected to an office. When more than one person is to be nominated or elected to an office, the voter may write in the names of one or more persons whose names do not appear on the ballot label with or without the names of one or more persons whose names do appear.

4. If any ballot card is damaged so that it cannot properly be counted by the automatic tabulating equipment, the fact shall be noted on the back of the ballot card and it shall be returned to the counting location in the envelope marked “DEFECTIVE BALLOTS”.

(L. 1977 H.B. 101 § 12.050, A.L. 1978 S.B. 582)

115.468. Write-in votes may be tallied at counting center.—At the discretion of the election authority, the verification and tallying of write-in votes may be done at the counting center by teams of election authority employees in lieu of at the polling place.

(L. 1978 S.B. 582)

115.469. Write-in votes, when counted—procedure to follow.—1. If authorized by the election authority, the election judges at any polling place using an electronic voting system may read and record write-in votes before the close of the polls and may send other voted ballots to the counting place. If so authorized, the election judges shall use one ballot box for the deposit of ballots during the first five hours of voting. Between eleven o'clock in the morning and twelve noon, the receiving judges shall deliver the ballot box to the counting and recording judges, who shall give the receiving judges a second empty ballot box. The second ballot box shall be shown to be empty and locked in the manner provided in section 115.423. The second ballot box shall not be opened or removed from public view from the time it is shown to be empty until the time the polls close. The ballot box containing the voted ballots shall be taken to a private area within

the polling place, and the write-in votes shall be read and recorded in the manner provided in section 115.467.

2. If early counting of write-in votes is begun pursuant to this section, the election judges shall, after counting and recording all proper write-in votes, separate all ballot cards, except defective ballot cards, from the write-in forms if any. The ballots which do not have write-in votes shall then be sent to the counting place in the same manner as ballots are sent upon the close of the polls. The election judges shall enclose the ballot cards, the envelope marked "DEFECTIVE BALLOTS", and all write-in forms containing proper votes, in a container designated by the election authority. The container shall be securely sealed in a manner that if the container is opened, the seal will be broken beyond repair. On the outside of the container, the location of the polling place and the date of the election shall be printed. After sealing, the container shall be closely watched by the election judges until it is delivered to the counting location.

3. If early counting of write-in votes is begun pursuant to this section, the election authority shall appoint a team of employees or election judges who shall, between the hours of eleven o'clock in the morning and three o'clock in the afternoon, receive the ballot container from the election judges at the polling place and immediately deliver it to the counting location. Each team appointed pursuant to this subsection shall consist of two members, one from each major political party. If any ballot container is not sealed when it is delivered to the counting location, the election official receiving the container shall make a statement of the fact which includes the location of the polling place and the date of the election printed on the container and the reason the container is not sealed, if known.

4. After delivery to the counting location, any ballot which is damaged and cannot be properly counted by the automatic tabulating equipment may be handcounted or duplicated in the manner provided in subsection 3 of section 115.477.

5. After delivery to the counting location, the proper votes on each ballot card may be transferred to magnetic tapes. Under no circumstances shall any such tape be read or interpreted until after the time fixed by law for the close of the polls and then only in the manner provided in section 115.477.

6. Write-in ballots may also be counted as provided in section 115.451.

*(L. 1977 H.B. 101 § 12.053, A.L. 1979 S.B. 275, A.L. 1982 S.B. 526)
Effective 5-20-82*

115.471. Certification of tally book and statements of returns as to write-in votes (electronic voting).—At each polling place using an electronic voting system, after the polling place is closed, the election judges shall

(1) Certify in the tally book: the number of ballots cast by reconciling the ballot stubs against the number of identification certificates signed, the number of defective and spoiled ballots, the number of ballots with write-in votes, and the number of ballots received at the polling place which were not cast at the election. If the number of signed identification certificates is not the same as the number of ballots cast, the judges shall make a signed statement of the fact and the reasons therefor, if known, and shall return the statement with the statements of returns;

Each duplicate ballot shall be clearly labeled “duplicate”, shall bear a serial number which shall be recorded on the defective ballot, and shall be counted in lieu of the defective ballot.

2. The election judges shall open the counting compartment on each voting machine or, if a machine is equipped with a device for printing, embossing or photographing the registering counters, the judges shall operate the machine to produce a record of the counters. One counting judge shall read the total vote cast for each candidate and for and against each question on each machine. The other counting judge shall watch and verify each total as it is being read from the recording counters or from the record of the counters. The two recording judges shall each record the votes cast for each candidate and for and against each question as they are called out and verified by the counting judges.

3. All proper write-in votes shall be read, recorded and counted as provided in sections 115.449 and 115.453. Immediately after the petition is filed, the clerk of the circuit court shall send by certified or registered mail a certified copy of the petition to the election authority responsible for issuing a statement announcing the results of the contested election and to each election authority responsible for conducting the election in any area where an alleged irregularity occurred.

3. Not later than fifteen days after the petition is filed, the contestee may file an answer to the petition, specifying reasons why his nomination should not be contested. If the contestee wishes to contest the validity of any votes given to the contestant, he shall set forth in his answer the votes he wishes to contest and the facts he will prove in support of such contest and shall pray leave to produce his proof.

(L. 1977 H.B. 101 § 13.310)

Effective 1-1-78

115.581. Case to be tried, when.—Immediately upon the filing of a petition and answer, if there is any, the court shall proceed to try the case and may at once appoint a commissioner to take testimony in the same way and manner as provided for the contest of state offices in section 115.561.

(L. 1977 H.B. 101 § 13.315)

Effective 1-1-78

115.583. Recount of votes ordered, when.—If the court or legislative body hearing a contest finds there is a prima facie showing of irregularities which place the result of any contested election in doubt, the court or legislative body shall order a recount of all votes brought in question by the petition or its answer. Where the issue is drawn over the validity of certain votes cast, a prima facie case is made if the validity of a number of votes equal to or greater than the margin of defeat is placed in doubt. The court or legislative body may order a recount of all votes brought in question by the petition or its answer at any time if it finds that the election result is placed in doubt. All materials and records relating to the contested election may be subpoenaed, and all information contained therein shall be subject to the rules of discovery in civil cases. During a recount, the court may hear additional evidence offered by any party bearing on any issue relating to the contested election.

(L. 1977 H.B. 101 § 13.400)
Effective 1-1-78

115.585. Recounts, how conducted.—1. Whenever a recount is ordered pursuant to section 115.583 or 115.601, the court or legislative body trying the contest shall issue a writ to each election authority responsible for conducting the election in any area in which an alleged irregularity occurred, commanding the election authority to prepare its office and all records and materials relating to the contested election for the recount. Such writ shall be served immediately on the election authority by the sheriff of the county. Upon receipt of a writ, each election authority shall set a day, not more than twenty days after receiving the writ, on which it will have its office and all records and materials relating to the contested election prepared. Immediately upon setting the day, the election authority shall send by certified or registered mail a notice to the court or legislative body issuing the writ. The notice shall set forth the day selected by the election authority for the recount.

2. Whenever a recount is ordered pursuant to section 115.583, the court or legislative body shall have authority to pass upon the form and determine the legality of the votes brought into question and to determine the qualifications of any voter whose vote is brought into question, provided that the name of a voter upon a precinct register for the polling place shall be prima facie evidence of the proper qualifications of the voter. A comparison may be made between the signatures on the identification certificates and those which appear in the precinct registers, and no votes shall be counted except the votes of registered voters and those entitled to vote as provided in subsection 2 of section 115.137 and section 115.277 without being registered. No votes of any person found by the court to be unqualified to vote at the election shall be counted.

3. Whenever a recount of votes cast on paper ballots is ordered pursuant to section 115.583 or 115.601, the court or legislative body shall proceed to open and count the votes and, after the count has been completed, shall tabulate by voting district the votes cast for the contestant and the contestee.

4. Whenever a recount of votes cast on any voting machine is ordered pursuant to section 115.583 or 115.601, the court or legislative body shall make visible the registering counters of the machine and, without unlocking the machine against voting, shall record the votes cast on the machine.

5. Whenever a recount of votes cast on ballot cards is ordered pursuant to section 115.583 or 115.601, the court or legislative body shall supervise a test of the automatic tabulating equipment conducted in the manner provided in section 115.233 and shall cause the votes to be recounted automatically, or may order a hand count of the votes. In its discretion, the court or legislative body may order a new computer program to be made, which shall be tested in the manner provided in section 115.233 before the votes in question are recounted automatically.

(L. 1977 H.B. 101 § 13.410, A.L. 1993 S.B. 31)

115.587. Persons conducting recount, how selected.—Whenever a recount is ordered pursuant to section 115.583 or 115.601, the court or legislative body shall determine the number of persons necessary to assist with the recount and shall appoint such persons equally from lists submitted to the court or legislative body by the contestant and the contestee. Each person appointed pursuant to this section shall be a disinterested person and a registered voter of the area in which the contested election was held. Each person so appointed shall take the oath prescribed for and receive the same pay as an election judge in the jurisdiction where he is registered. After being sworn not to disclose any facts uncovered by the recount, except those which are contained in the court or legislative report, the contestant and the contestee shall be permitted to be present in person or represented by an attorney at the recount and to observe the recount. Each recount shall be completed under the supervision of the court or legislative body, and the persons appointed to assist with the recount shall perform such duties as the court or legislative body shall direct. Upon completion of any duties prescribed by the court or legislative body, the persons appointed to assist with the recount shall make a written and signed report of their findings to the court or legislative body. The findings of the persons appointed to assist with the recount shall be prima facie evidence of the facts stated therein, but any person present at the examination of the votes may be heard as a witness to contradict the findings. No one other than the election authority, representatives of the court or legislative body, the contestant and contestee, their attorneys, and those specifically appointed by the court or legislative body to assist with the recount shall be present during any recount ordered pursuant to the provisions of section 115.583 or 115.601.

Effective 1-1-78

115.589. Records to be corrected to reflect judgment.—Each court or legislative body authorized to determine contested elections shall hear and determine each contest at the earliest opportunity after the official announcement of the results of the election has been made. Upon completion of the procedures provided for in this subchapter, the court or legislative body shall render its judgment based upon the issues of law and fact and cause a certified copy of its judgment to be transmitted to each affected election authority and to the secretary of state. Each election authority to which a copy of the judgment is sent and the secretary of state shall correct their records to conform to the judgment.

(L. 1977 H.B. 101 § 13.420)

Effective 1-1-78

115.591. Contestant to post bond, when.—In each case of a contested election, the court or legislative body may require the contestant to post bond for the costs and expenses of the election contest. The costs and expenses of any election contest, including the cost and expense of a recount, may be adjudged against the unsuccessful party with payment of the costs and expenses enforceable as in civil cases.

(L. 1977 H.B. 101 § 13.425, A.L. 1988 H.B. 933, et al.)

115.593. New election ordered, when.—If the court or legislative body trying a contested election determines there were irregularities of sufficient magnitude to cast doubt on the validity of the initial election, it may order a new election for the contested office or on the contested question. The order shall set the date of the election and shall be sent by the clerk of the court or the secretary of the senate or the chief clerk of the house of representatives, as the case may be, to each election authority responsible for conducting the special election. In its order, the court or legislative body shall specify the name of each candidate for the office to be voted on at the special election, or the ballot title of the question to be voted on at the special election, and the election shall be conducted and the votes counted as in other elections. Notice of the election shall be given in such manner as the court or legislative body directs. The person receiving the

highest number of votes at the special election shall be deemed elected and entitled to assume office, or the question submitted at the special election shall be deemed approved if a majority of the votes at the special election are cast in favor of the question.

(L. 1977 H.B. 101 § 13.430)

Effective 1-1-78

(1989) Because voting by unqualified voters is an irregularity examined by the court in conducting a recount, it follows that such an irregularity may be considered in determining whether a new election should be ordered. When a number of voters are found to be disqualified and that number equals or exceeds the margin of the apparent victor, there are "irregularities of sufficient magnitude to cast doubt on the validity of the initial election." (Mo. banc) Marre v. Reed, 775 S.W.2d 951.

115.595. Person holding certificate of election to hold office pending outcome—question shall be deemed decided as shown by returns pending outcome.—1. In each case of a pending election contest for an office, the person holding the certificate of election may qualify and take the office at the time specified by law and exercise the duties of the office until the contest has been decided. If the contest is decided against the contestee, the court or legislative body trying the contest shall make an order for him to give up the office to the person determined to be entitled to the office and to deliver to such person all books, records, papers, property and effects pertaining to the office. The court or legislative body trying the contest may enforce the order by attachment or other proper process. If for any reason the person determined to be entitled to the office does not or cannot take office, a vacancy shall exist to be filled in the manner provided by law.

2. In each case of a pending election contest on a question, the question shall be deemed approved or disapproved as shown by the official returns of the election until the contest is decided. When the contest is decided, the question shall be deemed approved or disapproved in accordance with the decision as of the day the contest is decided, or as of the day it would otherwise have been deemed approved or disapproved, whichever is later.

(L. 1977 H.B. 101 § 13.435)

Effective 1-1-78

115.597. Appeal from circuit court decisions allowed, procedure for.—In all cases of contested elections, except contested elections heard by the supreme court or the state senate or house of representatives, the right of appeal shall exist, and appeals may be taken in the same time or manner and to the same courts as is provided by law for appeals in cases in equity. The practice and procedure prescribed in civil actions shall be followed in all respects not inconsistent with the provisions of sections 115.553 to 115.583. Upon the filing of any such appeal, the court shall give the case preference in the order of hearing to all other cases and modify its rules to the extent necessary to conclude the appeal as quickly as possible. In every case of such appeal, a bond with sufficient sureties conditioned for the payment of the costs accrued and to accrue in the cause may be required by any court in which the case is pending.

(L. 1977 H.B. 101 § 13.440)

Effective 1-1-78

115.599. Parties may subpoena witnesses and take depositions.—In all cases of contested elections, primary and other, the contestant and the contestee shall be allowed process for witnesses, and either party may take depositions, as in civil cases, to be read as evidence at the trial, as is authorized in civil cases. All such depositions shall be filed before the trial is commenced, and may be read in evidence no matter where the witnesses reside.

(L. 1977 H.B. 101 § 13.445)

Effective 1-1-78

115.600. Recount or new election, procedure—petition by election authority.—The election authority, if convinced that errors of omission or commission have occurred on the part of the election authority, election judges, or any election personnel in the conduct of an election,

may petition the circuit court for a recount or a new election and the court is authorized to order a new election if the evidence provided demonstrates that the irregularities were sufficient to cast doubt on the outcome of the election.

(L. 1983 S.B. 234, A.L. 1997 S.B. 132)

(1990) Remedies available to the Board are limited to filing a petition for a recount. Circuit court was without jurisdiction to order a new election. (Mo. banc) Board of Election Commissioners of St. Louis County v. Knipp, 784 S.W.2d 797.

115.601. Recount authorized when less than one percent difference in vote—recount, defined.— 1. Any contestant in a primary or other election contest who was defeated by less than one percent of the votes cast for the office and any contestant who received the second highest number of votes cast for that office if two or more are to be elected and who was defeated by less than one percent of the votes cast, or any person whose position on a question was defeated by less than one percent of the votes cast on the question, shall have the right to a recount of the votes cast for the office or on the question.

2. In cases where the candidate filed or the ballot question was originally filed with an election authority as defined in section 115.015, such recount shall be requested in accordance with the provisions of section 115.531 or 115.577 and conducted under the direction of the court or the commissioner representing the court trying the contest according to the provisions of this subchapter.

3. In cases where the candidate filed or the ballot question was originally filed with the secretary of state, the defeated candidate or the person whose position on a question was defeated by less than one-half of one percent of the votes cast on the question shall be allowed a recount pursuant to this section by filing with the secretary of state a request for a recount stating that the person or the person's position on a question was defeated by less than one-half of one percent of the votes cast. Such request shall be filed not later than seven days after certification of the election. The secretary of state shall notify all concerned parties of the filing of the request for a recount. The secretary of state shall authorize the election authorities to conduct a recount pursuant to this section if the requesting party or his position on a question was defeated by less than one-half of one percent of the votes cast. The secretary of state shall conduct and certify the results of the recount as the official results in the election within twenty days of receipt of the aforementioned notice of recount.

4. Whenever a recount is requested pursuant to subsection 3 of this section, the secretary of state shall determine the number of persons necessary to assist with the recount and shall appoint such persons equally from lists submitted by the contestant and the opponent who received more votes or a person whose position on a question received more votes than the contestant's position on that question. Each person appointed pursuant to this section shall be a disinterested person and a registered voter of the area in which the contested election was held. Each person so appointed shall take the oath prescribed for and receive the same pay as an election judge in the jurisdiction where the person is registered. After being sworn not to disclose any facts uncovered by the recount, except those which are contained in the report, the contestant and the opponent who received more votes or a person whose position on a question received more votes than the contestant's position on that question shall be permitted to be present in person or represented by an attorney at the recount and to observe the recount. Each recount shall be completed under the supervision of the secretary of state with the assistance of the election authorities involved, and the persons appointed to assist with the recount shall perform such duties as the secretary of state directs. Upon completion of any duties prescribed by the secretary of state the persons appointed to assist with the recount shall make a written and signed report of their findings. The findings of the persons appointed to assist with the recount shall be prima facie evidence of the facts stated therein, but any person present at the examination of the votes may be a witness to contradict the findings. No one other than the secretary of state, the election authorities involved, the contestant and the other witnesses described in this subsection, their attorneys, and those

specifically appointed by the secretary of state to assist with the recount shall be present during any recount conducted pursuant to this section.

5. For purposes of this section, “recount” means one additional counting of all votes counted for the office or on the question with respect to which the recount is requested.

(3) Causes a voter to sign a petition other than the one the voter intended to sign; or

(4) Forges or falsifies signatures; or

(5) Knowingly accepts or offers money or anything of value to another person in exchange for a signature on a petition.

2. Any person who knowingly causes a petition circulator's signatures to be submitted for counting, and who either knows that such circulator has violated subsection 1 of this section or, after receiving notice of facts indicating that such person may have violated subsection 1 of this section, causes the signatures to be submitted with reckless indifference as to whether such circulator has complied with subsection 1 of this section, shall also be deemed to have committed the crime of petition signature fraud.

3. A person who violates subsection 1 or 2 of this section, shall, upon conviction thereof, be guilty of a class A misdemeanor punishable, notwithstanding the provisions of section 560.021 to the contrary, by a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both.

The secretary of state shall not accept any initiative petition submitted later than 5:00 p.m. on the final day for filing initiative petitions. All pages shall be submitted at one time. When an initiative or referendum petition is submitted to the secretary of state, the signature pages shall be in order and numbered sequentially by county, except in counties that include multiple congressional districts, the signatures may be ordered and numbered using an alternate numbering scheme approved in writing by the secretary of state prior to submission of the petition. Any peti-

tion that is not submitted in accordance with this section, disregarding clerical and merely technical errors, shall be rejected as insufficient. After verifying the count of signature pages, the secretary of state shall issue a receipt indicating the number of pages presented from each county. When a person submits a petition he or she shall designate to the secretary of state the name and the address of the person to whom any notices shall be sent under sections 116.140 and 116.180.

(L. 1980 S.B. 658, A.L. 1983 S.B. 234, A.L. 1997 S.B. 132, A.L. 1999 H.B. 676)

Effective 6-16-99

116.110. Signature may be withdrawn, when, how, effect, penalty.—Any voter who has signed an initiative or referendum petition may withdraw his or her signature from that petition by submitting to the secretary of state, before the petition is filed with the secretary of state, a sworn statement requesting that his or her signature be withdrawn and affirming the name of the petition signed, the name the voter used when signing the petition, the address of the voter and the county of residence. It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, to knowingly file a false withdrawal statement with the secretary of state.

(L. 1980 S.B. 658, A.L. 1999 H.B. 676)

Effective 6-16-99

116.115. Withdrawal of petition, when—vacation of official ballot title, when.—Any person who submits a sample sheet to or files an initiative petition with the secretary of state may withdraw the petition upon written notice to the secretary of state. If such notice is submitted to the secretary of state, the proposed petition shall no longer be circulated by any person, committee, or other entity. The secretary of state shall vacate the certification of the official ballot title within three days of receiving notice of the withdrawal.

(L. 2013 H.B. 117)

Effective 11-04-14

116.120. Secretary of state to determine sufficiency of form and compliance—invalid signatures not counted—signatures may be verified by random sampling, procedure and requirements.—1. When an initiative or referendum petition is submitted to the secretary of state, he or she shall examine the petition to determine whether it complies with the Constitution of Missouri and with this chapter. Signatures on petition pages that have been collected by any person who is not properly registered with the secretary of state as a circulator shall not be counted as valid. Signatures on petition pages that do not have the official ballot title affixed to the page shall not be counted as valid. The secretary of state may verify the signatures on the petition by use of random sampling. The random sample of signatures to be verified shall be drawn in such a manner that every signature properly filed with the secretary of state shall be given an equal opportunity to be included in the sample. The process for establishing the random sample and determining the statistically valid result shall be established by the secretary of state. Such a random sampling shall include an examination of five percent of the signatures.

2. If the random sample verification establishes that the number of valid signatures is less than ninety percent of the number of qualified voters needed to find the petition sufficient in a congressional district, the petition shall be deemed to have failed to qualify in that district. In finding a petition insufficient, the secretary of state does not need to verify all congressional districts on each petition submitted if verification of only one or more districts establishes the petition as insufficient.

3. If the random sample verification establishes that the number of valid signatures total more than one hundred ten percent of the number of qualified voters needed to find the petition sufficient in a congressional district, the petition shall be deemed to qualify in that district.

4. If the random sampling shows the number of valid signatures within a congressional district is within ninety to one hundred ten percent of the number of signatures of qualified voters needed to declare the petition sufficient in that district, the secretary of state shall order the examination and verification of each signature filed.

*(L. 1980 S.B. 658, A.L. 1988 S.B. 647, A.L. 1999 H.B. 676)
Effective 6-16-99*

116.130. Election authorities may be requested to verify signatures either by random sampling or checking signatures, when, how.—1. The secretary of state may send copies of petition pages to election authorities to verify that the persons whose names are listed as signers to the petition are registered voters. Such verification may either be of each signature or by random sampling as provided in section 116.120, as the secretary shall direct. If copies of the petition pages are sent to an election authority for verification, such copies shall be sent pursuant to the following schedule:

(1) Copies of all pages from not less than one petition shall be received in the office of the election authority not later than two weeks after the petition is filed in the office of secretary of state;

(2) Copies of all pages of a total of three petitions shall be received in the office of the election authority not later than three weeks after the petition is filed in the office of the secretary of state;

(3) If more than three petitions are filed, all copies of petition pages, including those petitions selected for verification by random sample pursuant to section 116.120, shall be received in the office of the election authority not later than the fourth week after the petition is filed in the office of the secretary of state.

Each election authority shall check the signatures against voter registration records in the election authority's jurisdiction, but the election authority shall count as valid only the signatures of persons registered as voters in the county named in the circulator's affidavit. Signatures shall not be counted as valid if they have been struck through or crossed out.

2. If the election authority is requested to verify the petition by random sampling, such verification shall be completed and certified not later than thirty days from the date that the election authority receives the petition from the secretary of state. If the election authority is to verify each signature, such verification must be completed, certified and delivered to the secretary of state by 5:00 p.m. on the last Tuesday in July prior to the election, or in the event of complete verification of signatures after a failed random sample, full verification shall be completed, certified and delivered to the secretary of state by 5:00 p.m. on the last Tuesday in July or by 5:00 p.m. on the Friday of the fifth week after receipt of the signatures by the local election authority, whichever is later.

3. If the election authority or the secretary of state determines that the congressional district number written after the signature of any voter is not the congressional district of which the voter is a resident, the election authority or the secretary of state shall correct the congressional district number on the petition page. Failure of a voter to give the voter's correct congressional district number shall not by itself be grounds for not counting the voter's signature.

4. The election authority shall return the copies of the petition pages to the secretary of state with annotations regarding any invalid or questionable signatures which the election authority has been asked to check by the secretary of state. Chapter 8—Provisional Voting Procedures

15 CSR 30-8.010 Provisional Ballots and Envelopes

PURPOSE: This rule ensures the uniform application of section 115.430, RSMo.

(1) The following steps will be taken to determine whether a person may vote a provisional ballot:

(A) The election judge shall examine the precinct register. If the voter's eligibility cannot be immediately established, then—

(B) The election judge shall contact the election authority. If the election authority cannot immediately establish the voter's eligibility upon examination of its records on file, or if the election judge is unable to make contact with the election authority immediately, then the voter will be entitled to a provisional ballot.

(C) In the case of a voter requesting an absentee ballot, such voter shall be entitled to a provisional ballot when the voter's qualifications cannot be immediately established upon examination of the records on file with the election authority.

(2) No person shall be entitled to receive a provisional ballot until they have completed a provisional ballot affidavit on the provisional ballot envelope. The secretary of state shall produce two (2) sizes of provisional ballot envelopes and distribute them to each election authority according to their tabulating system. One (1) size, three and five-eighths inches by seven and three-fourths inches ($3 \frac{5}{8} \times 7 \frac{3}{4}$ ") shall be distributed to jurisdictions using punch card and manual tabulating systems and a second size, fourteen and one-half inches by nine and one-fourth inches ($14 \frac{1}{2} \times 9 \frac{1}{4}$ ") shall be distributed to jurisdictions using optical scan. All provisional envelopes shall be printed on a distinguishable color of paper.

(A) On each side of the outside of the provisional envelopes, produced by the secretary of state, there shall appear information in substantially the format available at the secretary of state's website. A copy of the form may be requested in writing from the Elections Division, PO Box 1767, Jefferson City, MO 65102 or in person at the Elections Division, 600 W. If rejected, a photocopy of the envelope shall be made and used by the election authority as a mail-in voter registration. The actual provisional ballot envelope shall be kept as ballot material and the copy of the envelope shall be used by the election authority for registration record keeping.

(6) Provisional ballots shall not be counted until all provisional ballots are determined either eligible or ineligible. All provisional ballots cast by voters, whose eligibility has been verified, shall be counted in accordance with the rules governing ballot tabulation.

(7) If a provisional ballot is cast in the wrong congressional district, the incorrect congressional vote shall not be counted but all other votes cast on that ballot shall be counted.

15 CSR 30-8.020 Procedures to Determine Eligibility for Provisional Ballots to Be Counted

PURPOSE: This rule sets out the procedures for provisional voting in addition to those found in Chapter 115, RSMo.

(1) Prior to accepting any provisional ballot at the polling place, the election judges shall determine that the information provided on the provisional ballot envelope by the provisional voter is consistent with the identification provided by such person pursuant to section 115.427, RSMo.

(2) When the ballot boxes are delivered to the election authority from the polling places, the receiving teams shall separate the provisional ballots from the rest of the ballots and place the sealed provisional ballot envelopes in a separate container. Teams of election authority employees or teams of election judges with each team consisting of one (1) member of each major political party shall photocopy each provisional ballot envelope, such photocopy to be used by the election authority to determine provisional voter eligibility. The sealed provisional ballot envelopes shall be placed, by the team, in a sealed container and shall remain therein until tabulation.

(3) Prior to any provisional ballots being counted, the election authority shall determine the eligibility of the provisional voter. The eligibility of provisional voters shall be determined according to the requirements for a voter to cast a ballot in the election as set out in sections 115.133 and 115.135, RSMo.

(4) To determine whether a provisional ballot is valid and entitled to be counted, the election authority shall examine its records and verify that the provisional voter is duly registered and qualified to vote in the election. If the provisional voter has provided information regarding the registration agency where the provisional voter registered to vote, the election authority shall make an inquiry of the registration agency to determine whether the provisional voter is duly registered and qualified to vote in the election.

(5) If the election authority determines that the provisional voter is registered and qualified to vote in the election, the election authority shall provide documentation verifying the voter's eligibility. This documentation shall be noted on the copy of the provisional ballot envelope and shall contain substantially the following information:

- (A) Name of provisional voter;
- (B) Name of reviewer;
- (C) Date and time; and
- (D) Description of evidence found that supports the voter's eligibility.

(6) The local election authority shall record on a provisional ballot acceptance/rejection list the provisional ballot identification number and a notation marking it as accepted.

(7) If the election authority determines that the provisional voter is not registered and/or qualified to vote in the election, the election authority shall provide documentation verifying the voter's ineligibility. This documentation shall be noted on the copy of the provisional ballot envelope and shall contain substantially the following information:

- (A) Name of the provisional voter;
- (B) Name of reviewer;
- (C) Date and time; and
- (D) Description of why voter is ineligible.

(8) The local election authority shall record on a provisional ballot acceptance/rejection list the provisional ballot identification number and notation marking it as rejected.

(9) After the election authority completes its review of the provisional voter's eligibility pursuant to sections (4), (5), and (7), of this rule, the election authority shall deliver the provisional ballots, and copies of the provisional ballot envelopes which include the eligibility information, to bi-partisan counting teams, which may be the board of verification, for review and tabulation. The election authority shall maintain a record of the delivery. The record shall include the number of ballots delivered to each team and shall include a signed receipt from two (2) judges, one (1) from each major political party. The election authority shall provide each team with a ballot box, and material necessary for tabulation.

(10) Challengers and watchers, as provided by sections 115.105 and 115.107, RSMo may be present during all times that the bi-partisan counting teams are reviewing and/or counting the provisional ballots, the provisional ballot envelopes, and/or the copies of the provisional ballot envelopes which include the eligibility information provided by the election authority. The election authority shall notify the county chair of each major political party of the time and location when the bi-partisan counting teams will be reviewing and/or counting the provisional ballots, the provisional ballot envelopes, and/or the copies of the provisional ballot envelopes which include the eligibility information provided by the election authority.

(11) If the person named on the provisional ballot affidavit is found to have been duly qualified and registered to cast a ballot in the election, the envelope shall be opened, and the ballot shall be placed in a ballot box to be counted.

(12) If the person named on the provisional ballot affidavit is found to have not been duly qualified and registered to cast a ballot in the election, or if the election authority is unable to determine such person's right to vote, the envelope containing the provisional ballot shall not be opened and the person's vote shall not be counted. The members of the team shall then follow the procedures set out in 15 CSR 30-8.010(5) for rejected provisional ballots.

(13) The vote shall then be tallied and the returns made as provided in sections 115.447 to 115.525, RSMo for paper ballots. After the vote on all ballots assigned to a team have been counted, the ballots, ballot envelopes, and copies of ballot envelopes with the eligibility information provided by the election authority shall be enclosed in sealed containers marked "voted provisional ballots and ballot envelopes from the election held _____, 20____." All rejected provisional ballots, ballot envelopes and copies of ballot envelopes with the eligibility information provided by the election authority shall be enclosed in sealed containers marked "rejected provisional ballots and ballot envelopes from the election held _____, 20____." On the outside of each voted ballot and rejected ballot container, each member of the team shall write their name, and all such containers shall be returned to the election authority. Upon receipt of the returns and ballots, the election authority shall tabulate the provisional vote.

1. If a ballot is determined to be damaged, the bipartisan team shall spoil the original ballot and duplicate the voter’s intent on the new ballot, provided that there is an undisputed method of matching the duplicate card with its original after it has been placed with the remainder of the ballot cards from that precinct; and

2. The provisions of sections (3), (4), (5) and (6) of this rule.

(3) The following marks shall be considered expressions of voter intent:

Title 15—ELECTED OFFICIALS
Division 30—Secretary of State
Chapter 10—Voting Machines (Electronic)

15 CSR 30-10.010 Definitions

PURPOSE: This rule provides definitions of terms in addition to those found in Chapter 115, RSMo for the conduct of elections.

(1) Election authority shall mean the county clerk or board of election commissioners. The election authority shall be the chief custodian of the electronic voting system and its components and shall be responsible for the proper maintenance and all necessary preparation for elections. The election authority is authorized to appoint as many custodians as deemed necessary and is permitted by law.

(2) Electronic voting system is a system of casting votes by use of marking devices, and counting votes by use of automatic tabulating or electronic data processing equipment and includes computerized voting systems.

(3) Automatic tabulating equipment shall mean a system consisting of a mechanical or photoelectric ballot card reader, or both, an electronic central processing unit and visually readable tabulated results of the voters' markings on the ballot card. Integral to the system is a capacity to determine the number of ballots processed and the votes cast on each candidate and each ballot question by precinct, jurisdiction total and any other needed total such as ward or township. Absentee totals shall be determinable.

(4) Program shall mean the prepared election computer program or the section of the computer program that contains the information for the particular election being tabulated. Additionally the term shall extend to all programs in the system including, but not limited to, system software, utilities software and compilers, which may be used during the operation of the application software which tabulates the ballots. The program may be stored on cards, tapes, discs, integrated circuits or other electronic, magnetic, optical or paper storage media.

(5) Ballot card is a ballot which is voted by making a punch or sensor mark which can be tabulated by automatic tabulating equipment. All types of automatic or electronic system ballots shall be known as ballot cards regardless of size or stock thickness.

(6) Ballot label is the card, paper, booklet, page or other material containing the names of all offices, candidates and questions to be voted on.

(7) Systems which use a single unit for the ballot card and the ballot label shall conform to the rules for both.

(8) Accessible voting station is a voting station equipped for individuals with disabilities.

(9) Audio ballot is a ballot in which a set of offices and issues is presented to the voter in audible, rather than visual form.

(10) Audit trail is recorded information that allows election officials to review the activities that occurred on the voting equipment to verify or reconstruct the steps followed without compromising the ballot or voter secrecy.

(11) Audit trail for direct recording equipment is a paper printout of votes cast, produced by direct-recording electronic voting machines (DREs), which election officials may use to cross-check electronically tabulated totals.

(12) Ballot marking device is any approved device which will enable the votes cast on paper ballots to be counted by automatic tabulating equipment.

(13) Ballot style is the particular set of contests and issues to appear on the ballot for a particular election district, their order, the list of ballot positions for each contest or issue, and the binding of candidate names and issues to ballot positions.

(14) Cast vote record is the permanent record of all votes cast by a single voter whether in electronic, paper or other form.

(15) Counter is the register on each Direct Recording Electronic (DRE) unit which increments by one each time a ballot is cast on the unit. The election counter is the register which is reset for each election and records the number of ballots cast on a DRE unit in a particular election. The system counter is the register which cannot be reset and records the number of ballots cast on a DRE unit over the course of the life of the unit.

(16) DRE is an electronic voting system that utilizes electronic components for the functions of ballot presentation, vote capture, vote recording and tabulation, which are logically and physically integrated into a single unit. A DRE produces a tabulation of the voting data stored in a removable memory component and in printed hard copy.

(17) Election management system is a set of processing functions and databases within a voting system that define, develop and maintain election databases, perform election definition and setup functions, format ballots, count votes, consolidate and report results, and maintain audit trails.

(18) Electronically-assisted ballot marking device is a device that provides assistance to voters who are visually impaired, who have difficulty reading English, or who have difficulty correctly marking by hand a preprinted paper ballot that is to be counted in optical scan systems. The device marks, or assists the voter to mark, selected choices on a previously inserted, preprinted paper ballot. The device then provides audio, tactile, or visual feedback to the voter with regard to the choices the voter has made on the ballot. The completed ballots are later tabulated on the same unit that processes other paper ballots.

(19) Logic and accuracy testing is the testing of the tabulator setups of a new election definition to ensure that the content correctly reflects the election being held (i.e., contests, candidates, number to be elected, ballot styles, etc.) and that all voting positions can be voted for the maximum number of eligible candidates and that results are accurately tabulated and reported.

(20) Paper cast vote record is a paper record of all votes cast by a single voter that can be directly verified by the voter. It is the record created from the voter verifiable audit record after the selections are verified and the vote is cast by the voter.

(21) Precinct count voting system is a voting system that tabulates ballots at the polling place. These systems typically tabulate ballots as they are cast and are capable of printing the results after the close of polling.

Emergency rule filed Oct. 5, 1982, effective Nov. 2, 1982, expired Feb. 2, 1983. Rescinded and readopted: Filed Oct. 5, 1982, effective Feb. 11, 1983. 15 CSR 30-10.020 Certification Statements for New or Modified Electronic Voting Systems

PURPOSE: This rule provides that voting machine manufacturers file an initial affidavit stating that the voting machine complies with all applicable rules and laws and a second affidavit stating that when any changes are made in the system the voting machine's ability to continue to comply with the applicable rules and laws will not be affected and that voting machine manufacturers deposit into an escrow account the source code for each version of their voting system qualified for sale and use in Missouri .

(1) As a prerequisite to approval from the secretary of state, each manufacturer or supplier of electronic voting systems or equipment shall have completed and submitted to the secretary of state a certification statement in substantially the same form as contained in section (5), and shall have received certification from an independent testing authority approved by the secretary of state.

(2) Beginning on July 1, 2006, when no amendments have been made to an approved system or machine subsequent to qualification, the manufacturer or supplier shall notify the Secretary of State that no amendments have been made on a semi-annual basis on January 1st and July 1st starting on the notification date immediately following approval.

(3) As a prerequisite to approval from the secretary of state, each manufacturer or supplier of electronic voting systems or equipment shall execute an escrow agreement with an escrow agent for the manufacturer's source code for each system fully qualified by the Office of the Secretary of State. At a minimum, the agreement must:

- (A) Identify an escrow agency;
- (B) Provide the software source code for all voting system components in a minimum of two formats (one human readable and one machine readable) to the escrow agent;
- (C) Provide the software documentation to the escrow agent;
- (D) Contain a statement confirming that the State of Missouri will, within seven (7) days of the occurrence of one of the following events, receive full access to the source code and unlimited rights to continue using and supporting the software at no cost to the State or the agency should the manufacturer:
 - 1 Become insolvent; or
 - 2 Make a general assignment for the benefit of creditors; or
 - 3 File a voluntary petition of bankruptcy; or
 - 4 Suffer or permit the appointment of a receiver for its business or assets; or
 - 5 Become subject to any proceeding of bankruptcy or insolvency law, whether foreign or domestic; or
 - 6 Wind up or liquidate its business voluntarily or otherwise and the State has reason to believe that the vendor will fail to meet future obligations; or
 - 7 Discontinue support of the provided products or fail to support the products in accordance with its maintenance obligations and warranties.
- (E) Contain a statement agreeing to notify in writing the Independent Testing Authority (ITA) that certified the system, giving the State of Missouri full access to "final build", records and test results related to the certification tests at no charge to the State; and
- (F) Contain a statement agreeing that the escrow will stay in place as long as the system is used in Missouri, at no cost to the State.

(4) If any modification, deletion or improvement to approved voting or tabulating equipment, procedures or systems is made, the manufacturer, programmer or supplier shall notify the secretary of state and a certification amendment statement shall be submitted.

- (A) No certification need be submitted if one (1) of the following conditions are met:

15 CSR 30-10.025 Election Authority's Certification Statement

PURPOSE: This rule provides a method by which the election authority and the secretary of state are assured that the systems being purchased are approved for use in Missouri.

(1) No election authority shall authorize payment for software or hardware used for the tabulation of ballots unless the following actions have been taken:

(A) They shall have on file in their office a copy of the letter of authorization from the secretary of state to the manufacturer of the equipment, software, or both, being purchased which states that the equipment, software, or both, is approved for use in Missouri; and

(B) They shall have filed with the elections division of the Secretary of State's office a sworn statement that they do have the letter referenced in section (S) in their file and they believe that the software, equipment, or both, purchased is the same as that approved by the secretary of state.

15 CSR 30-10.030 Voter Education and Voting Device Preparation

PURPOSE: This rule provides for the conduct of voter education and voting device preparation.

PUBLISHER'S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. Therefore, the material which is so incorporated is on file with the agency who filed this rule, and with the Office of the Secretary of State. Any interested person may view this material at either agency's headquarters or the same will be made available at the Office of the Secretary of State at a cost not to exceed actual cost of copy reproduction. The entire text of the rule is printed here. This note refers only to the incorporated by reference material.

(1) Before elections in which an electronic voting system is to be used for the first time, the election authority shall conduct a public information program to acquaint voters who will be using the system with the manner in which ballots are voted and counted.

(2) Vote Recording Preparation—Polling Place. In addition to those supplies required for the conduct of elections generally, the election authority shall cause to have prepared and delivered to each polling place using the electronic voting system no later than forty-five (45) minutes prior to the opening of the polls, a sufficient quantity of the following:

(A) Each polling place in a primary or general election shall be provided with at least one (1) voting device for each one hundred fifty (150) registered voters. A sufficient number of machines shall be provided for other elections. There shall always be one (1) extra specimen voting device per polling place for use in the instruction of voters. Exceptions to this regulation for specific elections may be granted upon application therefor to the secretary of state. In primary elections there shall be at least one (1) voting device for each eligible political party or ticket. The voting

devices shall be put in order, set, adjusted and ready for voting when delivered to the polling places;

(B) Ballot label assemblies for use on voting devices requiring ballot labels, in the format approved by the secretary of state, properly sequenced, mounted in each voting device supplied. The type of election and the date of election shall be plainly marked on the front cover of each ballot label assembly. In preparing a voting device for an election, it shall be arranged so that it will in every particular case meet the requirements for voting and counting at that election;

(C) Ballot cards in the form required for processing by the electronic data processing equipment. The number of ballot cards supplied shall be sufficient to comply with section 115.247, RSMo;

1. The ballot card shall be in the format approved by the secretary of state. In the case of ballot cards of the 5081 size, the ballot stub and the ballot card shall not contain any common identifying mark, number or symbol which would permit them to be matched after having been detached in the voting process. Systems using larger sheets for ballot cards shall likewise be void of matching marks.

2. All arrows on the ballot label indicating where a voter may mark to designate his/her vote shall point to the center of the appropriate hole in the mask or the proper area for marking. All play in the ballot label of the 5081 size cards shall be limited so that the point of the arrow always points to the hole.

3. Demonstration ballot cards of a distinctive color, clearly marked for demonstration for use in the instruction voting device to educate the voter in the use of the system shall be supplied in such number as may be determined by the election authority.

4. Sample ballots, demonstration ballot cards or ballot labels which shall be exact copies of the official ballots except for wording indicating the sample status of the sheet.

5. All ballot cards shall be delivered to the polling places in a sealed package or container;

(D) Envelopes, sufficient in size to cover the voting area of the ballot card, if ballot cards of the 5081 format are used, made of stiff paper into which the ballot card is inserted by the voter after voting. The envelope shall cover the voting area of the ballot card and shall be of sufficient width to prevent insertion into a voting device. Ballot envelopes shall contain space so that the voter may cast write-in votes, if allowable for that election. The number of ballot envelopes shall equal the number of ballot cards supplied. Envelopes shall not be required in systems where the voter inserts the ballot card into the electronic counting device him/herself;

(E) Paper ballots, if any part of the election is to be voted on paper ballots;

(F) Ballot boxes as required by general election law;

(G) A transfer case sufficiently large to hold, transfer to the counting location from the polling place and store the ballot cards which have been voted in a polling place and the spoiled ballots envelope. The transfer case shall be constructed of metal and sealed with a numbered non-reusable seal;

(H) Envelopes and containers in which to enclose voted paper ballots, if used; spoiled ballot cards; envelopes; unused paper ballots; and unused ballot cards;

(I) A ballot card certificate, in the form set out with this rule, together with an envelope addressed to the election authority;

(J) Two (2) sample ballots of each ballot type to be voted on in the polling place;

(K) Pencils, seals and any other supplies and forms deemed necessary; and

(L) Instruction Guide for Election Judges and Clerks issued by the secretary of state.

15 CSR 30-10.040 Electronic Ballot Tabulation—Counting Preparation

PURPOSE: This rule provides for procedures in connection with the preparation for vote recording and tabulation including appointment of judges, equipment and program preparation and pre-election testing.

(1) The election authority shall be responsible for insuring that the electronic tabulating system s/he chooses to use accurately records, and/or counts, all proper votes cast and complies with all applicable state statutes and rules.

(2) The election authority shall be responsible that all steps have been taken to insure that the electronic tabulating equipment operates properly at the time of the pre-election public logic and accuracy test and during the tabulation of ballots on election night.

(3) The election authority shall be responsible for making necessary arrangements for a backup ballot tabulating system.

(4) The election authority shall be responsible for providing a duplicate of the counting program for the computer system on which the ballot tabulation is to be done, regardless of the backup counting system used.

(5) Prior to each election day, the election authority shall be responsible for appointing one (1) or more bipartisan teams composed of equal numbers of members from the two (2) major parties to carry out the functions of—certifying the accuracy of the electronic tabulating equipment, receiving election materials from the polls, duplicating damaged or defective ballots, processing ballots through the electronic tabulating system and preparing election materials for final storage. Each person so appointed shall have the qualifications of and take the oath of office prescribed for election judges in section 115.091, RSMo. These persons will be selected from lists compiled as outlined in section (6) except where an election authority is a board of election commissioners, the election authority may designate persons of its own choosing.

(6) Beginning in 1987, not less than sixty (60) days prior to the first election date of each calendar year, each election authority, except as noted in section (5), shall notify by mail, the chairpersons of the two (2) major political parties within their jurisdiction of the number of persons from their parties needed for the bipartisan teams used in processing and counting ballots. Each chairperson shall have thirty (30) days to provide a list to the election authority, in writing, of twice as many persons meeting the qualifications of section 115.091, RSMo, as the election authority has indicated are necessary. If the chairpersons cannot respond in that thirty (30)-day period with the list of names or enough persons to fill all positions, the election authority shall select persons from that party to fulfill those functions. Nothing contained in this rule shall prohibit an election authority from requesting a new list of names for the bipartisan teams for each election provided that the lists are requested sixty (60) days prior to the election and that the chairpersons have thirty (30) days for response. For elections in 1986, the election authority shall select members of the bipartisan teams in a manner consistent with the way in which s/he has previously selected these personnel. If the election authority has not previously utilized automated tabulating equipment, it shall follow the same schedule as will be used in succeeding years except that the chairpersons shall be notified not later than sixty (60) days prior to the August primary.

(7) Prior to election day the election authority shall supervise a public logic and accuracy test of the electronic tabulating equipment conducted by the accuracy certification team.

(A) The logic and accuracy test shall be open to any member of the public; and the election authority, by some appropriate method, shall notify the public of the time and date of the test.

(B) Persons, other than candidates and other individuals required to be notified under section 115.233, RSMo, wishing to participate in the testing process shall file a written request with the election authority at least twenty-four (24) hours prior to the publicized beginning of the logic and accuracy test.

(C) The election authority shall prepare an appropriate logic and accuracy test deck which will include the following conditions:

1. Each ballot position must be tested;
2. No two (2) candidates for the same office may receive the same number of votes, but each candidate must receive one (1) vote;
3. No ballot question may receive the same number of votes for and against;
4. In situations where a voter can legally vote for more than one (1) person for an office, at least one (1) card shall be voted for the maximum number of allowable candidates;
5. One (1) card shall be marked to have one (1) more vote for each candidate or question than is allowable;
6. One (1) card shall have no votes recorded on it;
7. In general partisan elections, each party shall receive at least one (1) straight party vote. Additionally each party shall receive at least one (1) straight party vote where a candidate of another party receives a vote on the ballot;
8. Ballots should be punched or marked to test all name rotations, if used; and
9. One (1) card (if possible) shall contain a vote for a candidate for whom persons using that ballot format are not entitled to vote.

(D) The accuracy certification team may run the test deck as provided by the election authority again, making as many additions, subtractions or changes in the ballot cards as they desire.

(E) The public logic and accuracy team shall compare the results of the electronic test to those from a manual count of the test ballots. If the results are incorrect, then changes and/or corrections will be made until an errorless count is made. An electronic ballot tabulation machine shall not be used on election day until an errorless count is made on that machine.

(F) After the team is satisfied that the equipment is tabulating the ballots properly, each candidate on the ballot or any representative of a group which has notified the election authority pursuant to subsection (7)(B) may inspect and manually recount the test deck.

(G) If the results match with the manual count, the team shall certify that the system is accurate and properly counting ballots. All logic and accuracy test materials including the deck shall be sealed in a tamperproof container and sealed with a numbered seal. All team members shall verify, by signature or initials, the seal number on a certificate placed on the outside of the container.

(H) The election authority shall have custody of the logic and accuracy test materials including the program until called for by the accuracy certification team.

15 CSR 30-10.060 Electronic Ballot Tabulation—Election Procedures

PURPOSE: This rule provides for procedures to be used by election authorities using electronic tabulating equipment to count voted ballots.

- (1) Voted and unvoted ballots shall be processed using the following rules:
 - (A) Voted ballots shall always be handled or moved either by a bipartisan team or in the direct view of a bipartisan team;
 - (B) In those cases where the election authority determines it is more efficient to move voted ballots by use of a single person, those items shall be placed into a tamperproof container and sealed with a numbered seal. Members of a bipartisan team shall witness the sealing and verify the number of the seal by their signatures on a certificate placed on the exterior of the container.

The container shall only be opened in the presence of a bipartisan team which shall verify the accuracy of the seal number before the seal is broken;

(C) The election authority shall be responsible for insuring that sufficient certificates are made on each transfer of ballot responsibility to accurately recreate each movement of the ballot from one (1) team to the next. Each transfer shall include a statement that no election material was added, subtracted or altered except as provided by statute or rule and that no irregularities were noticed unless otherwise noted; and

(D) The election authority or his/her representative shall be on hand at all times in the counting center when ballots are unsealed.

(2) Ballot counting shall be conducted as follows:

(A) The election authority shall have the authority to limit access by persons, other than those previously appointed to bipartisan teams, in those areas where ballots are unsealed or are being counted;

(B) Ballot duplication for damaged ballots shall be done by bipartisan teams using whatever method is selected by the election authority provided that—

1. The system provides an exact duplicate of the voter's intent, pursuant to 15 CSR 30-9.010, 15 CSR 30-9.020 and 15 CSR 30-9.030;

2. Both members of the team participate in the process;

3. Both members can review the other's work;

4. There is an undisputed method to match the duplicate card with its original after it has been placed with the remainder of the ballot cards from that precinct; and

5. Allowances are made for watchers appointed pursuant to section 115.107, RSMo to perform their statutory duties;

(C) Any changes to the operating system, application programs, files or counters used in the ballot counting shall be documented by the election authority;

(D) The last transaction with the electronic tabulating system prior to counting ballots shall be the public logic and accuracy test; and

(E) The election authority may conduct other logic and accuracy tests as s/he deems necessary including the hand count of ballots.

(3) Prior to certification of the election results, the accuracy and certification team shall recount the test deck used prior to the start of ballot tabulation on each electronic tabulating machine as follows:

(A) In the event that the counts are not identical, the team shall not certify that the electronic tabulating system was operating properly;

(B) Necessary corrections shall be made to the tabulating program until the test deck is counted properly, and all ballots shall be recounted; and

(C) If the counts are identical, the team shall certify that the system is operating properly.

(4) After the accuracy certification team has approved the count and before the ballots are sealed for final storage, the team processing the ballots shall select one (1) precinct by mutual consent to be recounted. The results of that recount shall be reported on certificates supplied by the secretary of state. One (1) copy shall be filed with the secretary of state within four (4) weeks of the election date and one (1) copy shall be filed with the public records of the election.

(5) After the recount of the selected precinct, bipartisan teams shall place all ballots and other support materials into appropriate tamperproof containers which are sealed in such a way as to prevent any undisclosed entry. If numbered seals are used, those numbers shall appear on the exterior of the container and shall be witnessed by the signatures of the team members.

- BALLOT CARD (which is mounted on styrofoam backing)
- Ballot Card Secrecy envelope (gray)
- Absentee ballot envelope in which Ballot Card and Secrecy envelope will be inserted
- Official Absentee ballot sheet listing offices, candidates and/or questions
- Absentee Voting Instructions (this sheet)
- Wire Punch device (paper clip)

If you spoil your ballot card in any manner—you may return the ballot packet to the Election Authority and request a new ballot card.

TO VOTE

Read the Official Absentee Ballot sheet noting the offices, the candidate names, questions and other special instructions. Next to the name of each candidate and question is a NUMBER or set of numbers which correspond to numbers on the ballot card.

Using the wire punch device supplied, firmly punch out the small “black dot” on the ballot card above the number of the candidate or issue.

Punch with sufficient force so that the “black dot” is completely punched out of the ballot card.

AFTER VOTING THE BALLOT CARD

- Place the ballot card in the gray secrecy envelope.
- In the presence of a notary public fill out the envelope including your signature. Let the notary sign, date and emboss the envelope.
- Place the ballot card (inside the secrecy envelope) inside the large envelope after the notary fills out his section and completes the embossing.
- Seal the large envelope.
- Return the envelope to the Election Authority either in person or by the U.S. Postal Service.

The envelope containing your ballot must be received by the Election Authority not later than 7 p.m. on the day of the election.

ABSENTEE VOTING INSTRUCTIONS
INSTRUCTIONS FOR MARKING BALLOT(S)

USE ONLY THE PENCIL PROVIDED

VOTE BOTH SIDES OF BALLOT

1. On receipt of this ballot the voter, using the pencil provided, shall prepare the ballot for voting in the following manner.

- *(1) Should the voter desire to vote a “straight party ticket” he shall place a cross (X) mark in the circle immediately below the party name. If the voter desires to vote for one or more candidates on more than one party ticket, by voting what is commonly known as a “split ticket” he may place a cross (X) mark in the circle immediately below one party name and mark cross (X) marks in the squares at the left of the names of candidates on other tickets for whom he wishes to vote.

*[*The option to vote a “straight party ticket” was repealed in SB 1014 during the Ninety-third General Assembly, Second Regular Session (2006).]*

- (2) If the voter desires to vote for one or more candidates whose name or names do not appear on the printed ballot, he may do so by writing the name of the person for whom he desires to vote, and placing a cross (X) mark in the square at the left of such name on the printed ballot in the column provided for write-ins.
- (3) Where there are two or more candidates for like office in a group, a cross (X) mark in the square to the left of a candidate’s name automatically votes against the candidate whose name appears within the same horizontal lines in the column under the circle in which appears the cross (X) mark.

2. All candidates of the party whose circle is marked shall be counted as voted for, excepting where squares are crossed preceding the names of the candidates in other columns. If two or more candidates for the same office are thus designated, neither shall be counted. If the cross (X) is not placed in the circle immediately below the party name at the head of the column, but does appear in the squares opposite the various candidates’ names, then only these names shall be counted for, and none other. A cross (X) mark is any line crossing any other line at any angle within the voting space and no ballot shall be declared void because a cross (X) mark therein is irregular in form.

3. It is unlawful to deface or tear a ballot in any manner or to erase any printed name, figure, word or letter therefrom, or to erase any mark made thereon by the voter.

4. A ballot without any marks shall not be counted. Ballots shall be counted only for the person for whom the marks thereon are applicable; when a voter places a mark against two or more names for the same office, and only one candidate is to be chosen for the office, none of the candidates is deemed to have been voted for and the ballot shall not be counted for either candidate.

5. DO NOT FOLD BALLOT. All ballots must be returned to the election authority no later than 7:00 p.m. on election day in order to be counted.

15 CSR 30-10.090 Procedure for Recount or Contested Election

PURPOSE: This rule provides program tabulating and accuracy tests in addition to those set out in 15 CSR 30-10.020 for tabulating a recount or contested election.

(1) Procedure for Recall Contest Using Electronic Data Processing System. A recall contest has two (2) parts. Part 1 consists of a yes or no vote for the recall proposal. Part 2 consists of candidates for the vacant office in the event a majority of yes votes are cast for the recall proposal. Only voters casting valid votes in Part 1 are eligible to vote in Part 2. Ballot cards which do not contain a vote in Part 1 and ballot cards which contain both yes and no votes in Part 1 represent invalid ballots not eligible to vote in Part 2, and must be manually removed from the ballot cards to be tabulated with the electronic processing system. Once the invalid ballot cards have been identified manually and have been put aside, and the total removed has been verified, the remaining valid ballot cards are processed to determine the number of yes and no votes for the recall proposal and the candidate(s) elected to succeed the incumbent.

(2) Standard electronic data processing tests and auditing procedures shall be used to test the accuracy and validity of the programming of the electronic data processing system.

15 CSR 30-10.110 Manual Recount

PURPOSE: This rule provides a method for the election authority, the secretary of state and the general public to compare electronically tabulated vote results with manual recounts of selected races and ballot issues in certain election precincts.

(1) Definitions.

(A) County—whenever the word county is used in this rule, it includes the cities of St. Louis and Kansas City.

(B) Precinct—the election authority, at his/her discretion, may consider polling sites containing more than one (1) precinct to be counted as a single precinct for all purposes of this rule.

(2) Prior to the certification of the election results, the accuracy certification team shall randomly select not less than five percent (5%) of all election precincts through the use of a random drawing, but not less than one (1) precinct, in order to conduct a manual recount of selected contested races and ballot issues in the selected precinct(s). Random selection of the precincts shall be open to any member of the public, and the election authority shall notify the public of the time and place of the selection process no later than forty-eight (48) hours prior to the beginning of the selection process by posting a notice in a prominent place, which is easily accessible to the public and clearly designated for that purpose, at the principal office of the election authority.

(3) Recount of the randomly selected precinct(s) shall be conducted in the following manner:

(A) The election authority shall select not less than one (1) manual recount team made up of not less than two (2) persons selected from lists as outlined in 15 CSR 30-10.040(6) except when an election authority is a board of election commissioners, the election authority may designate persons of its own choosing. Each person so appointed shall have the qualifications of and take the oath of office prescribed for election judges in section 115.091, RSMo. The election authority may utilize the accuracy certification team selected in 15 CSR 30-10.040;

(B) For the selected precinct(s), the manual recount team shall unseal the appropriate ballot containers and manually recount certain randomly selected contested races and ballot issues; and

(C) One (1) contested race or ballot issue to be manually recounted shall be randomly selected from each of the following categories, where applicable:

1. Presidential and Vice-Presidential electors, United States senate candidates and state-wide candidates;

2. State-wide ballot issues;

3. United States representative candidates and state general assembly candidates;

4. Partisan circuit and associate circuit judge candidates and all nonpartisan judicial retention candidates;

5. In addition to the candidates and issues previously listed, the manual recount team shall select not less than one (1) contested race or ballot issue from all political subdivisions and special districts, including the county, in the selected precinct(s); and

6. In addition to the candidates and issues previously listed, the manual recount team shall select all races in which the margin of victory between the two (2) top candidates is equal to or less than one-half of one percent (0.5%) of the number of votes cast for the office or issue.

(4) If the results of the manual recount of the selected races and ballot issues differ by more than one-half of one percent (0.5%) from the results of the electronically tabulated vote results, the manual recount team shall immediately notify the election authority, who shall investigate the causes of any discrepancy and resolve any discrepancies prior to the date of certification set forth in section 115.507, RSMo.

(5) The secretary of state, at his/her sole discretion, and upon the showing of good cause by an election authority not less than three (3) weeks prior to the date of an election, may waive the manual recount requirement for any political subdivision or special district holding an election on the election date.

(6) Upon completion of the manual recount, the manual recount team shall reseal the ballots and other support materials in the appropriate containers. The results of the manual recount shall be reported on certificates provided by the secretary of state. One (1) copy shall be filed with the secretary of state within four (4) weeks of the election date and one (1) copy shall be filed with the public records of the election.

(7) The secretary of state may make grant funds available to reimburse election authorities for the cost of conducting manual recounts under section (2) and paragraph (3)(C)6. of this rule.

15 CSR 30-10.120 Ballot Management Systems

PURPOSE: This rule provides that management controls shall be instituted by local election authorities on ballot cards counted by electronic ballot tabulating equipment.

(1) Definitions.

(A) Ballot cards—the computer card on which a voter indicates their votes in the case of a punch card system or the entire ballot on which a voter marks their votes in the case of an optical scan system.

(B) Destruction of ballot cards—any method which renders the cards unusable for further use as ballot cards including burning, mechanical shredding or cutting and chemical decomposition but does not include landfilling or burying.

(2) All county election officials shall develop and operate a management system to document on the public record the acquisition and usage of all ballot cards provided to them for use in automated tabulating systems.

(3) At a minimum, the system shall provide an ongoing inventory record and a signed written affidavit on the public record for the following activities:

(A) Receipt of ballot cards including date of receipt, total shipment received and serial numbers (if available) of the ballot cards;

(B) Issuance of ballot cards to each polling place including the election date, total number of ballot cards issued and serial numbers, if available;

(C) Receipt of ballot cards from each polling place following the election including election date, a reconciliation for each precinct showing total ballots issued, total ballots voted, total ballots invalidated, total ballots lost and total ballots returned unvoted. The election authority within thirty (30) days after the election shall verify by physical count the number of unvoted ballots. Unvoted ballots shall be shown by serial numbers, if available;

(D) Issuance of ballots to the election authority for the purpose of absentee ballot preparation. This record shall contain all the elements contained in subsection (3)(B). Following the election, the election authority shall complete a record containing all information contained in subsection (3)(C);

(E) Destruction of unvoted ballots for whatever purpose the election authority deems appropriate. This record shall contain the number of ballots destroyed, the method of destruction and the serial numbers of the ballot cards, if available;

(F) Issuance of ballots for educational, testing or any purposes other than those mentioned in subsections (3)(A)–(E). In every case the record shall indicate the purpose for which the ballot cards are issued, the serial numbers of the ballots, if available, and the steps taken by the election authority, including the marking of the word VOID on the face or back of the ballot card or changes to the ballot card to insure that the ballot cards will not be used in subsequent elections; and

(G) All the affidavits in this section shall be maintained in the office of the election authority for a period of two (2) years after the date on which all ballot cards from a single shipment of ballot cards have been completely issued.

(4) Each election authority shall conduct an annual inventory of all ballot cards in their custody comparing the actual number of ballot cards in their custody with the number of cards indicated as being on their inventory records.

(A) This inventory must include verification of all serial numbers if available.

(B) The election authority shall establish the date(s) of the inventory at their discretion between April 1 and June 1 of each year.

(C) Following the required inventory, the election authority shall sign an affidavit including the actual number of ballots on hand at the end of the previous inventory, the number of ballots received since the previous inventory, the number of ballots restocked following elections or other activities outlined in section (3), the number of ballots issued or destroyed since the last inventory based on previously filed affidavits, the actual number of ballots on hand as determined by the present inventory and any discrepancies. In the case of discrepancies, the election

authority shall include their assessment of the reason for the discrepancy. In all cases the affidavit shall include serial numbers, if available.

(D) One (1) copy of the affidavit shall be held by the election authority in their office for five (5) years from the date of affidavit and one (1) copy shall be forwarded to the secretary of state.

15 CSR 30-10.130 Voter Education and Voting Device Preparation (DREs and Precinct Counters)

PURPOSE: This rule provides for the conduct of voter education and preparation of Direct Recording Electronic voting systems (DREs) and Optical Scan Precinct Count voting systems (Precinct Counters).

(1) Before elections in which a DRE or Precinct Counter is to be used for the first time, the election authority shall conduct a public information program to acquaint voters who will be using the system with the manner in which ballots are voted and counted.

(2) DREs and Precinct Counters shall be tested in accordance with section 115.233, RSMo and 15 CSR 30-10.140, using test scripts and testing procedures appropriate for the make, model, and version of the system.

(3) Each memory component must be programmed in a secured facility under the supervision of the election authority or their designated representative. Before and after programming, all memory cards shall be kept in a secure area until inserted into an assigned unit prior to the election and the local election authority must maintain a written log that records all access and transfers of all memory components.

(4) In addition to the standard displayed ballot, the election authority shall ensure that alternative format ballots are available, including, but not limited to a ballot with large print and an audio ballot for use with DREs and with electronically-assisted ballot marking devices.

(A) The election authority shall ensure that any alternative format ballot conforms to federal voting equipment guidelines, provides the same information presented to voters in the standard displayed ballot and can be cast and counted as a secret ballot.

(B) The election authority shall ensure that the order and content of any large print ballot are presented in a manner that is consistent with that of the standard ballot.

(C) The election authority shall ensure that the audio ballot is recorded correctly and that the names of the candidates are pronounced correctly in the audio recordings. The election authority shall also ensure that no candidate's name; political party, political body, or independent designation; incumbency; or other such information nor any ballot issue or answer or response thereto is emphasized, stressed or otherwise inflected in any manner to distinguish a particular candidate, party or body, issue, answer or response to a ballot issue either negatively or positively or to suggest whether to vote for or against such candidates or issues in such audio recordings.

(5) **Vote Recording Preparation – Polling Place.** In addition to those supplies required for the conduct of elections generally, the election authority shall cause to have prepared and delivered to each polling place using DREs and Precinct Counters no later than forty-five (45) minutes prior to the opening of the polls, a sufficient quantity of the following:

(A) In jurisdictions in which DREs are the principal system used to cast votes, each polling place in a primary or general election shall be provided with at least one (1) DRE for each one

hundred fifty (150) registered voters. A sufficient number of DREs shall be provided for other elections. A sufficient number of assistive devices (i.e. sip-and-puff devices, headphones etc.) shall be provided for use with each unit provided. The DREs shall have been put in order, set, adjusted, and ready to open for voting when delivered to the polling places;

(B) In jurisdictions in which DREs or Electronically-assisted ballot marking devices are used to provide an accessible voting station, at least one (1) DRE or one (1) ballot marking device shall be provided in each polling location with a sufficient number of assistive devices (i.e. sip-and-puff input devices, headphones etc.). The units shall have been put in order, set, adjusted, and ready to open for voting when delivered to the polling places;

(C) In jurisdictions in which Precinct Counters are the principal system used to cast votes, each polling place shall be provided with at least (1) Precinct Counter. The Precinct Counter(s) shall have been put in order, set, adjusted, and ready to open for voting when delivered to the polling places;

(D) Voter access or activation cards or devices programmed with the correct ballot styles for each polling location, in quantities sufficient to conduct the election and delivered to the polling place in a secure container securely sealed in such a manner that if the container is opened, the seal will be broken beyond repair;

(E) Ballot boxes as required by general election law;

(F) Optical Scan paper ballots in locations using Precinct Counters, provisional ballots, provisional ballot envelopes and spoiled ballot envelopes in all locations;

(G) Pencils, seals, rolls of paper for DRE paper cast vote record printers and other supplies and forms deemed necessary;

(H) Instruction Guide(s) for Election Judges and Clerks, for the system(s) being used, issued by the secretary of state. In addition to the Instruction Guide issued by the secretary of state, the local election authority may include instructional materials developed by the local election authority for each system used at that polling location;

(I) A transfer case sufficiently large to hold, transfer to the central location from the polling place and store paper cast vote records, electronic media, any paper ballots which have been voted in a polling place and any spoiled ballot envelopes. The transfer case shall be constructed of durable material and tamperproof design and securely sealed in such a manner that if the container is opened, the seal will be broken beyond repair;

(J) Two (2) sample ballots of each ballot to be voted on in the polling place; and

(K) Privacy sleeves for ballots or paper cast vote records that are carried by the voter from one location in the polling place to another for verification purposes and that are not otherwise covered.

15 CSR 30-10.140 Electronic Ballot Tabulation – Counting Preparation and Logic and Accuracy Testing (DREs and Precinct Counters)

PURPOSE: This rule provides procedures in connection with the preparation of Direct Recording Electronic voting systems (DREs) and Optical Scan Precinct Count voting systems (Precinct Counters) for vote recording and tabulation, including equipment and program preparation and pre-election logic and accuracy testing and certification.

(1) Election authorities in jurisdictions in which DREs or Precinct Counters are used shall be responsible for ensuring that the devices accurately record and count all proper votes cast and that the systems comply with all applicable state statutes and rules.

(2) The election authority shall be responsible for taking all steps necessary to ensure that the DREs and Precinct Counters operate properly at the time of the pre-election public logic and accuracy test and during the tabulation of votes on the day of the election.

(3) The election authority shall be responsible for making necessary arrangements for a backup ballot tabulating method.

(4) The election authority shall be responsible for providing a duplicate of the counting program for the computer system on which the ballot tabulation is to be done, regardless of the backup counting system used.

(5) The election authority shall be responsible for appointing bipartisan accuracy certification team(s) pursuant to 15 CSR 30-10.040 (5) and (6).

(6) Prior to election day the election authority shall supervise a public logic and accuracy test of the DREs and Precinct Counters conducted by the accuracy certification team(s).

(A) The logic and accuracy test shall be open to any member of the public, and the election authority, by some appropriate method, shall notify the public of the time and date of the test.

(B) Persons, other than candidates and other individuals required to be notified under section 115.233, RSMo, wishing to participate in the testing process, in the manner provided in state law and this rule, shall file a written request with the election authority at least twenty-four (24) hours prior to the publicized beginning of the logic and accuracy test.

(C) The election authority shall cause each DRE and Precinct Counter to be programmed for the ballot style for the precinct(s) at which the DRE or Precinct Counter will be used and the programmed memory card assigned to that unit shall be inserted. After programming the DREs and Precinct Counters, each unit shall have such internal diagnostic tests performed as shall be directed by the election authority. Following the completion of the diagnostic tests, all units shall have an internal logic and accuracy test performed using the programmed ballot style for the election and precinct(s) for which the unit is being prepared and shall test the conditions described in 15 CSR 30-10.040 (7)(C). In addition, for DREs and electronically-assisted ballot marking devices, the test script shall include votes cast using a combination of audio and touch-screen methods.

(D) The accuracy certification team(s) shall compare the results of the electronic test to the data entered and to the results from a manual count of the paper cast vote records for the DREs and the results of a manual count of the optical scan paper ballots for the Precinct Counters. If the results are incorrect, then changes or corrections will be made to the programming until an errorless count is made. A unit shall not be used on election day until an errorless count is made on that unit.

(E) After the team(s) is satisfied that the equipment is tabulating the votes properly, each candidate on the ballot or any representative of a group which has notified the election authority pursuant to 15 CSR 30-10.140(6) (B) may inspect the paper audit trail for the DRE and inspect and manually recount the optical scan test deck.

(F) If any unit fails any of the diagnostic or logic and accuracy tests, the unit shall not be used in an election until such unit is repaired, reprogrammed and inspected and found capable of proper functioning and passes the diagnostic and logic and accuracy tests. Upon the successful completion of the logic and accuracy test, the counters shall be cleared of any accumulated vote totals for the election and a zero tape run to verify that the vote registers in the unit are set at zero. The accuracy certification team(s) shall verify that the vote registers are set at zero and make a corresponding notation on the certification form to document the successful logic and accuracy testing and the unit shall be configured for voting. The memory card shall be sealed into the unit to prevent unauthorized access using a controlled serialized seal that is tamper resistant and resistant to inadvertent breakage and the unit shall then be securely closed in its

case and a numbered seal placed on its case such that the case may not be opened until and unless the seal is broken. If the unit does not have a case, the unit shall be sealed with a numbered seal placed on the unit such that the unit may not be used for voting until and unless the seal is broken. The numbers on the seals shall be entered into verifiable seal logs.

(G) The election authority shall make a certification for each DRE and Precinct Counter stating the serial number of the unit, the number on the system counter of the unit, the number on the seal with which the unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the polling location in which the unit is to be used and the serial number of the unit. The certification shall be retained with the records for such election and shall be stored for the same period of time and in the same manner as required by law for other election records.

(H) All logic and accuracy test materials shall be sealed in a tamperproof container securely sealed in such a manner that if the container is opened, the seal will be broken beyond repair. All members of the accuracy certification team(s) shall verify, by signature or initials, the date and time the container was sealed on a certificate placed on the outside of the container. The election authority shall have custody of the logic and accuracy test materials, including the program, until called for by the accuracy certification team.

(I) After being prepared for voting, each DRE and Precinct Counter shall be safely and securely stored until such time as the unit is transported to the polling location in which such unit is to be used.

AUTHORITY: section 115.225, RSMo Supp. 2004. Emergency rule filed June 21, 2006, effective July 1, 2006, expires February 22, 2007.

15 CSR 30-10.150 Closing Polling Places (Precinct Counters and DREs)

PURPOSE: This rule provides procedures for administering and closing polling places using Optical Scan Precinct Count voting systems (Precinct Counters) and Direct Recording Electronic voting systems (DREs).

(1) Once one vote is cast on a DRE, the poll workers shall encourage voters to cast their votes on that unit so that at least two more ballots are cast on that unit, even if not by voters needing its accessibility components, in order to protect the privacy of the voter.

(2) Abandoned Ballots

(a) If a voter leaves the polling place after making their selections on a DRE and printing their ballot, but the voter has not cast the ballot, a bipartisan team of two (2) election judges shall cast the ballot.

(b) If a voter leaves the polling place after making their selections on a DRE, but the voter has not printed or cast their ballot, a bipartisan team of two election judges shall cancel the ballot and make a corresponding notation on an Abandoned Ballot Tracking Form, initialed by both judges.

(c) If a voter places an optical scan ballot into a precinct counter and the precinct counter rejects the ballot after the voter has left the polling place and if the ballot is still in the precinct counter, a bipartisan team of election judges shall take action to ensure that the ballot is counted and deposited in the ballot box.

(d) If a voter leaves their optical scan ballot any where in the polling place other than in the precinct counter or ballot box and the voter leaves the polling place, the ballot shall not be counted. A bipartisan team of election judges shall mark the ballot "Abandoned" and place the ballot in the Spoiled Ballot Envelope. The judges shall make a corresponding notation on an Abandoned Ballot Tracking Form, initialed by both judges.

- (3) Immediately after the polls close and the last voter has voted, the election judges shall close, or supervise the closing of, each of the DREs and Precinct Counters in the polling location against further voting.
- (4) The election judges shall cause each DRE and Precinct Counter to print a minimum of one (1) tape showing the number of votes cast on that unit. They shall compare the number of ballots cast as shown on the tape with the number of ballots cast as shown on the election counter of the unit and with the number of voters who signed the precinct register and for precinct counters with the number of ballots marked. If these numbers are not identical, the election judges shall document the discrepancy.
- (5) The election judges shall accumulate the votes recorded in each unit onto paper audit trail records for the DREs as well as the electronic medium chosen by the election authority, as appropriate for the make, model, and version of the system in use.
- (6) After completing the procedures in paragraphs (3)-(5), the memory components shall be removed from any unit that will not be returned to the central location on election night or shall remain sealed in any unit that will be returned to the central location, as appropriate for the make, model and version of the system in use. The DREs and Precinct Counters shall be turned off and secured in their cases and locked or resealed. The number of each seal shall be entered on the appropriate form along with the serial number of the unit or unit case on which it is used. The units or cases shall then be secured.
- (7) Any provisional ballots, optical scan ballots, spoiled ballots, paper cast vote records and memory components shall be secured in tamperproof containers securely sealed in such a manner that if the container is opened, the seal will be broken beyond repair.
- (8) Audit trail tapes, voter access cards, supervisor's card, ballot encoder devices, precinct binders, numbered lists of voters, voter certificates, recap sheets, and other such paperwork shall be transported to the election authority. In the event the paper cast vote record is unreadable, the audit trail tapes shall be available as an official record when a manual recount of votes is ordered.
- (9) All paper cast vote records shall be preserved and secured by election judges in the same manner as paper ballots and shall be available as an official record when a manual recount of votes is ordered and for the post-election verification of the electronically tabulated vote results required by 15 CSR 30-10.060.

AUTHORITY: section 115.225, RSMo Supp. 2004. Emergency rule filed June 21, 2006, effective July 1, 2006, expires February 22, 2007.

15 CSR 30-10.160 Electronic Ballot Tabulation – Election Procedures (Precinct Counters and DREs)

PURPOSE: This rule provides procedures to be used by election authorities using Optical Scan Precinct Count voting systems (Precinct Counters) and Direct Recording Electronic voting systems (DREs) for securing and tabulating election results at the central location.

- (1) Each unit or case shall only be opened in the presence of a bipartisan team which shall verify the accuracy of the seal number before the seal is broken.
- (2) The election authority shall be responsible for ensuring that sufficient certificates or log entries are made on each transfer of DREs, Precinct Counters, memory components, paper cast vote records and ballots to accurately recreate each movement of the DRE, Precinct Counter, memory components, paper cast vote records and ballots. Each transfer shall include a statement

that no election material was added, subtracted or altered except as provided by statute or rule and that no irregularities were noticed unless otherwise noted.

(3) The election authority or his/her representative shall be on hand at all times in the counting center when the ballots, paper cast vote records and memory components are unsealed. The units and containers shall be unsealed in the presence of bipartisan teams which shall verify that the seal is intact, and verify the seal number where numbered seals are used, before the seal is broken. When sealing and unsealing the containers, the members of the bipartisan teams shall verify the seal numbers by their signatures on a log sheet designed for that purpose.

(4) The tabulation and consolidation shall be performed in public. The election authority may make reasonable rules and regulations for conduct at the tabulating center, including limiting access to the tabulation area, to ensure the security of the results and the returns and to avoid interference with the tabulating center personnel.

(5) Upon receiving the DREs, Precinct Counters, memory components, paper cast vote records and ballots, the election authority shall verify that the seals are intact and verify the seal number where numbered seals are used, and that there is no evidence of tampering with the units, the cases, the containers or their contents.

(6) Following acceptable procedures appropriate for the make, model, and version of the DRE or Precinct Counter in use, the election authority or his/her designee shall transfer the vote totals from the memory components into the election management system for official tabulation and consolidation.

(7) Prior to certification of the election results, the accuracy certification team(s) shall tabulate the same set of votes used in the pre-election internal logic and accuracy test performed pursuant to 15 CSR 30-10.140(6)(C) on each memory component used at the polling locations to tabulate votes on DREs and precinct counters. This section shall not apply to any memory component on which election results are stored.

(A) If the results are not identical to those produced in the pre-election test for any memory component, the team shall not certify that the unit in which that component was used was operating properly.

(1) In the case of a precinct counter, the necessary corrections shall be made to the program until the results are identical and the ballots cast on the precinct counter in which the memory component was used shall be retabulated and the consolidated results corrected accordingly.

(2) In the case of a DRE, the paper cast vote records produced by the unit in which the memory component was used shall be hand counted and the consolidated results corrected accordingly.

(B) If the results are identical, the team shall certify that the unit was operating properly.

(8) The paper cast vote records, audit trail tapes and ballots shall be kept secured until they must be unsealed to be hand counted in the post-election verification of electronic results pursuant to 15 CSR 30-10.110 or until they must be unsealed to be hand counted when a manual recount of votes is ordered. They shall only be unsealed in the presence of bipartisan teams which shall verify that the seal is intact before the seal is broken and which shall reseal the containers in such a manner that if the container is opened, the seal will be broken beyond repair after the post-election audit or the manual recount is complete. When sealing and unsealing the containers, the members of the bipartisan teams shall verify the seal numbers by their signatures on a log sheet designed for that purpose.

Division 30—Secretary of State
Chapter 15—Initiative, Referendum,
New Party and Independent
Candidate Petition Rules

15 CSR 30-15.010 Signature Verification Procedures for Initiative, Referendum, New Party and Independent Petitions

PURPOSE: The secretary of state may make rules to ensure uniform, complete, and accurate checking of initiative and referendum petition signatures. This rule provides for uniform determination of whether signatures are those of legal voters as required in Article III, Section 50 of the Missouri Constitution.

(1) Voter signatures will be rejected if—

(A) They list an address outside of the county as indicated on the petition except as provided in subsection (2)(B) and (3)(F) of this section; or

(B) They have been struck through or crossed out.

(2) Voter names will only be accepted if—

(A) The name is exactly as it appears on the voting rolls except that there is—

1. The presence or absence of a middle initial when a first name is given or the presence or absence of a first initial when a middle name is given;

2. The substitution of a common nickname for the name on the voting roll, that is, Dick for Richard, Liz or Beth for Elizabeth, Bill for William, Becky for Rebecca, etc.;

3. The presence or absence of terms such as Jr. or Sr. following a name; and

4. The use of only a first and middle initial; provided, that on either the petition or the voting rolls, both initials can be determined from the name(s) given; and

(B) They were registered to vote within the county named at the top of the petition page on the date the petition was signed.

(3) Voter addresses will be accepted if they meet one (1) or a combination of the following categories:

(A) The address is exactly as it appears on the voting rolls;

(B) The address is exactly as it appears on the voting rolls except that there is—

1. The presence or absence of a letter or number identifying an apartment; and

2. The presence or absence of a letter or grouping of letters indicating the directional location of a street, for example, “E” for east, “NW” for northwest, “S” for south;

(C) The voter resides in the same residence as indicated on the voting rolls and the local election authority can determine that only the address designation has been changed by municipal or postal authorities;

(D) The address as listed on the petition was the voter’s registered address on the date the petition was signed;

(E) The address listed on the petition is different from the address on the voting rolls but within the county named at the top of the page, provided that the local election authority who maintains the registration record of such person shall compare and determine that the individual’s signatures on the petition and on the voter’s registration record are sufficiently alike to identify the petition signer as the same person who is registered to vote within the jurisdiction. If otherwise valid, the signature of an individual whose address is acceptable under this subsection (3)(E) shall be counted in the totals of the local election authority who has jurisdiction over the address listed on the petition; or

(F) The address listed on the petition is different from the address on the voting rolls but the voter was registered to vote within the county named at the top of the page on the date the petition was signed, provided that the local election authority who maintains the registration record of such person shall compare and determine that the individual's signatures on the petition and on the voter's registration record are sufficiently alike to identify the petition signer as the same person who was registered to vote within the jurisdiction on the date the petition was signed. If otherwise valid, the signature of an individual whose address is acceptable under this subsection (3)(F) shall be counted in the totals of the local election authority who has jurisdiction over the address named at the top of the petition page.

(4) A voter's signature will be accepted as valid if it generally appears to be in a form similar to that found on the voter rolls.

(5) In order for a name to be qualified to appear on the petition, there must be a valid voter name, address and signature. NOTE: Failure of any other information is not a reason to fail to certify a name as being qualified.

(6) A voter's signature shall not be deemed invalid on the basis of source of registration. If otherwise valid, the signature of a person who registered to vote pursuant to the provisions of sections 115.159, 115.160, or 115.162, RSMo shall be accepted as valid without respect to whether such person has previously voted in the jurisdiction or received a voter identification card, provided that each of the following must apply at the time of verification of the petition by the local election authority:

(A) The voter registration application had been received and accepted by the election authority on or before the date the petition was signed;

(B) The verification notice sent by the election authority pursuant to section 115.155.3, RSMo 1994, was not returned by the postal service to the election authority within the time established by the election authority; and

(C) The local election authority's voter registration file reflects the applicant was eligible to vote in the county named at the top of the petition page on the date the petition was signed.

15 CSR 30-15.020 Processing Procedures for Initiative, Referendum, New Party and Independent Candidate Petitions

PURPOSE: The secretary of state may make rules to ensure uniform, complete, and accurate checking of initiative and referendum petition signatures. This rule provides for uniform processing of petitions once a determination has been made as to the validity of a name on a petition.

(1) Each local election authority shall check each signature designated by the secretary of state against voter registration records and annotate each signature, according to their findings in red ink in the left margin, on the copies of petition pages sent to him/her in the following manner:

(A) If the name, address, and signature are acceptable pursuant to 15 CSR 30-15.010 "R" to denote "Registered";

(B) Where possible, if the voter's address on an "R" designated signature is acceptable pursuant to 15 CSR 30-15.010 (3)(F), where the address listed on the petition is different from the address on the voting rolls but the voter was registered to vote within the county named at the top of the petition page on the date the petition was signed, and the local election authority determined that the individual's signatures on the petition and on the voter's registration record are sufficiently alike to identify the petition signer as the same person who was registered to vote within the jurisdiction on the date the petition was signed, the local election authority listed on the top of the petition page shall designate the signature as "R";

(C) Where possible, if the voter's address on an "R" designated signature is acceptable pursuant to 15 CSR 30-15.010(3)(E), where the address listed on the petition is different from the address on the voting rolls but within the county named at the top of the page, and the local election authority determined that the individual's signatures on the petition and on the voter's registration record are sufficiently alike to identify the petition signer as the same person who is registered to vote within the jurisdiction, the local election authority shall add to the "R" designation "DA" (i.e., "RDA" to denote "Registered, Different Address");

(D) If the name on the petition does not appear in the election authority's registration file as an eligible voter in that jurisdiction "NR" to denote "Not Registered";

(E) If the address on the petition is not an address within the county named at the top of the petition page except as provided in 15 CSR 30-15.010 and subsection (1)(B) of this section "WA" to denote "Wrong Address";

(F) If the name and address are acceptable pursuant to 15 CSR 30-15.010, but the signature appears different than that on file with the election authority "WS" to denote "Wrong Signature";

(G) If a name selected in a random sample for a particular congressional district is actually in another district in the county and otherwise properly registered "OD" to denote "Other District"; and

(H) If a person is registered, but the correct congressional district is not indicated on the petition, the incorrect number should be crossed out and the correct number entered in the right margin.

(2) In the event a duplicate signature is found on the petition, the local election authority shall call this to the attention of the secretary of state in a separate memo, noting the page number(s) and the line number(s) of the signatures.

(3) In the event a situation is identified where one (1) person has signed for him/herself and his/her spouse on one (1) line, that is, Mr. and Mrs. John Jones, the signature may be counted which appears to be that of the petition signer provided that all of the requirements of sections (1) and (2) are met. The local election authority shall call these occurrences to the attention of the secretary of state in a separate memo, noting the page number(s) and the line number(s).

(4) Each local election authority shall review all pages and signatures s/he had been asked to check by the secretary of state for apparent irregularities and call these irregularities to the attention of the secretary of state in a separate memo, noting the page number(s) and the line number(s).

(5) Each local election authority shall certify to the secretary of state, on forms provided, or by means of petition processing summary reports generated by the software provided by the secretary of state as part of the Centralized Voter Registration System authorized by section 115.158, RSMo, the total of each category enumerated in section (1) less the number of duplicate, but otherwise qualified, signatures in section (2). First class counties participating in the Centralized Voter Registration System through the electronic interface allowed by the statute may certify their totals on reports from their automated systems if the report format is approved by the secretary of state.

15 CSR 30-15.030 Initiative, Referendum, New Party and Independent Candidate Petitions Missouri Voter Registration System Option

PURPOSE: The purpose of this rule is to clarify that local election authorities have the option to use the centralized Missouri Voter Registration System (MCVR) for initiative, referendum, new party, and independent candidate petition signature verification as allowed under Chapters 115 and 116, RSMo. MCVR is the official statewide voter registration list which was created and implemented as part of the Help America Vote Act of 2002. This system is maintained and administered by the Office of the Secretary of State and contains the name and registration information of every legally registered Missouri voter. It serves as the official voter registration list for the conduct of all elections in Missouri and allows local election authorities immediate real-time electronic access to the information contained in the system. Currently, local election authorities may use this system for petition signature verification as authorized by Chapter 115, RSMo. The secretary of state may make rules to ensure uniform, complete, and accurate checking of initiative and referendum petition signatures.

(1) Each local election authority has the option to comply with the requirements of 15 CSR 30-15.010 and 15 CSR 30-15.020 through the centralized Missouri Voter Registration System (MCVR). Each local election authority shall certify to the secretary of state by means of petition processing summary reports generated by the software provided by the secretary of state as part of the Missouri Voter Registration System authorized by section 115.158, RSMo, the total of each category enumerated in 15 CSR 30-15.020(1) less the number of duplicate, but otherwise qualified, signatures in 15 CSR 30-15.020(2).

AUTHORITY: section 115.335.7, RSMo 2000, and section 116.130.5, RSMo Supp. 2013. Original rule filed Aug. 14, 2013, effective Feb. 28, 2014.*
