INTRODUCTION

On the 94 rolls of this microfilm publication are reproduced a series of documents dated 1861 to 1867, each of which pertains to two or more civilians. The series was assembled in the War Department from documents that were extracted from the files of Union Army provost marshals and from other records of Army territorial commands. Similar documents, each referring to only one civilian, constitute the Union Provost Marshals' File of Papers Relating to Individual Civilians (reproduced on Microcopy 345).

The documents here reproduced relate to civilians, or "citizens," as they were called during the Civil War, who came in contact with the Army. They include correspondence, provost court papers, lists of prisoners, orders, passes, paroles, oaths of allegiance, transportation permits, and claims for compensation for property used or destroyed by military forces.

The provost marshals who served in territorial commands, armies, and Army corps were military police. They sought out and arrested deserters, Confederate spies, and civilians suspected of disloyalty; investigated the theft of Government property; controlled the passage of civilians in military zones and those using Government transportation; confined prisoners; and maintained records of paroles and oaths of allegiance. Provost courts were established in some territorial commands to try cases involving civilian violators of military orders, the laws of war, and other offenses arising under the military jurisdiction. They also tried cases involving military personnel accused of civil crimes.

The series here reproduced is composed of the following parts:

- (1) An incomplete place and subject index, on Roll 1, to some of the numbered documents;
- (2) Documents numbered and in numerical order from 1 to 22737, those on Rolls 2-72 being arranged chronologically by year and month from March 1861 to December 1866, and those on Rolls 73-83 arranged partly in chronological order;
- (3) Unnumbered documents, on Roll 83, arranged chronologically by month from January to October 1867;

(4) Lists of civilian prisoners confined by the Middle Department, 8th Army Corps, at Baltimore, Md., bearing various numbers between 7893 and 21616, on Rolls 84-86, arranged chronologically by year and month from January 1864 to December 1865;

(5) Papers relating to civilians confined in military prisons, 1862-65, on Rolls 87-94, arranged alphabetically by the location of the prison, from Alton, Ill., to Wheeling, W. Va.; and

(6) Documents relating to the confiscation and destruction of property in Missouri by Confederate forces in 1864, on Roll 94, the first part being arranged alphabetically in three subseries by the name of the claimant, and the second part unarranged.

The lists of civilian prisoners confined by the Middle Department, 8th Army Corps, and a few of the papers relating to civilians confined in military prisons were originally part of the subseries of documents numbered 1 to 22737. Cross-references to these transferred lists and papers were placed in the numbered series.

Cross-references to names of civilians mentioned in documents 1 to 22737 are in the Union Provost Marshals' File of Papers Relating to Individual Civilians. There are no cross-references to names in the documents removed from this subseries.

The records here reproduced are a part of Record Group 109, War Department Collection of Confederate Records. Although they are records of the Union Army, they were associated with Confederate records in the War Department because they relate in part to Confederate citizens and sympathizers.

Other records of the War Department in the National Archives contain additional information about civilians during the Civil War. The records of Army territorial commands still contain many documents similar to those on this microcopy. Information pertaining to civilians enrolled for the draft or drafted is in the records of the Provost Marshal General's Bureau. The files of Col. Lafayette C. Baker, as special provost marshal and special agent of the War Department, and of Maj. Levi C. Turner, as an associate judge advocate, relate to both civilians and soldiers who were investigated or arrested. The proceedings of some military courts that tried cases of civilians are among the records of the Office of The Judge Advocate General (Army).

Miscellaneous Confederate records pertaining to Confederate civilians have been microfilmed under the title of **Confederate Papers Relating to Citizens or Business Firms (Microcopy 346)**. Other references to Confederate civilians are scattered throughout the series filmed under the title of **Unfiled Papers and Slips Belonging in Confederate Compiled Service Records (Microcopy 347)**.

Agent P. K. Knab

St. Louis, there are certain buildings
in possession of the Govt. G. M. St.
their fort, which were reported with
the understanding that they
were to be given up when required
by the Iron Company. The statement
G. M. St. says that they would be
needed by the 1st of October, but
nothing was done, he has since
given the present G. M. written
notice that it is not necessary
to have the buildings or stop
work, and he received plenty
of promises but nothing more,
he now refers the matter to the
Genl. Comdg for his action.

Dear Sir please excuse
the liberty I take in addressing you relative
to some of our buildings which are in the possession
of the Government. Quartermaster Department, at this
Post, our Ware House, Shops, & Stables, these build-
ings were rented with the understanding that when the
Company would need them for the use of the Works
they would be given up. We commenced repairing
& fitting up the Works 1st of August last. When I
called on the Quartermaster (Capt Moore) give him
notice that we would need our shops by 1st October
which was giving him 2 months to build. he gave all
the promises I could ask, but done nothing. in Sept he
was relieved. I give Capt Dyer the present incumbent
notice both verbal & written. he also made all necessary
promises, as yet has done nothing. The last of October
is here & unless I soon get them we will be obliged to stop
repairing or build other shops. The only chance to
have anything ^{done} I think is in referring to you. This is my
last hope, there is nothing to prevent building shops with
in 10 days. there is a great deal of lumber.
I will agree to have all the lumber for shops delivered
in 4 days notice. If I could get the stables by 1st
December it will be soon enough. General I do
hope you will urge this matter & make the Quarter-
Master or someone else stir their stumps, there is plenty
of men employed doing almost nothing that might
as well be building shops &c

Very Respectfully Yours
